Reservoirs Of Men A History Of The Black Troops Of French West Africa:

Reservoirs of Men Shelby Cullom Davis, 1970 **White War, Black Soldiers** Bakary Diallo, Lamine Senghor, 2021-02-24

Strength and Goodness Force Bont by Bakary Diallo is one of the only memoirs of World War I ever written or published by an African. It remains a pioneering work of African literature as well as a unique and invaluable historical document about colonialism and Africa's role in the Great War. Lamine Senghor's *The Rape of a Country* (*La Violation d'un pays*) is another pioneering French work by a Senegalese veteran of World War I but one that offers a stark contrast to *Strength and Goodness*. Both are made available for the first time in English in this edition complete with a glossary of terms and a general historical introduction. The centennial of World War I is an ideal moment to present *Strength and Goodness* and *The Rape of a Country* to a wider English reading public. Until recently, Africa's role in the war has been neglected by historians and largely forgotten by the general public. Eurocentric versions of the war still predominate in popular culture. Many historians, however, now insist that African participation in the 1914-18 War is a large part of what made that conflict a world war.

The First World War in Africa Hew Strachan, 2004-10-14. *To Arms* is Hew Strachan's most complete and definitive study of the opening of the First World War. Now key sections from this magisterial work are published as individual paperbacks, each complete in itself and with a new introduction by the author. The First World War was not just fought in the trenches of the western front. It embraced all of Africa. Many of those who fought this white man's war were black. The dangers they confronted went beyond those of the battlefield. They fell prey to malaria and dysentery and they were attacked by lions and crocodiles. But it was a vast and spectacular theatre of operations in which great personalities thrusting German officers like Paul von Lettow Vorbeck or big game hunters like Peter Pretorius could impose themselves. Embracing the perspectives of all the nations who fought there, this is the first ever full account of the Great War in Africa.

French Colonial Documentary Peter J. Bloom, 2008. Despite altruistic goals, humanitarianism often propagates foreign and sometimes unjust power structures where it is employed. Tracing the visual rhetoric of French colonial humanitarianism, Peter J. Bloom's unexpected analysis reveals how the project of remaking the colonies in the image of France was integral to its national identity. *French Colonial Documentary* investigates how the promise of universal citizenship rights in France was projected onto the colonies as a form of evolutionary interventionism. Bloom focuses on the promotion of French education efforts, hygienic reform, and new agricultural techniques in the colonies as a means of renegotiating the social contract between citizens and the state on an international scale. Bloom's insightful readings disclose the pervasiveness of colonial iconography, including the relationship between natural man and colonial subjectivity, representations of the Senegalese Sharpshooters as obedient, brave, and sexualized colonial subjects, and the appeal of exotic adventure narratives in the trans-Saharan film genre. Examining the interconnection between French documentary realism and the colonial enterprise, Bloom demonstrates how the colonial archive is crucial to contemporary.

business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire *Special Bibliography* US Army Military History Institute,1977

confinement in labour battalions However despite their exclusion from the battlefield the author shows that the experience of war was invaluable in allowing veterans to appropriate codes of heroism sacrifice and citizenship in order to wage their own battles for independence on their return home culminating in the nationalist upsurge of the late 1930s This book offers a lively and accessible account that will prove invaluable to those studying the Imperial dimensions of the First World War as well and those interested in the wider notions of race and masculinity in the British Empire **Wars Of Imperial Conquest** Bruce Vandervort,2015-01-28 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company
