Reshaping Of French Democracy:

The Reshaping of French Democracy Gordon Wright, 2022-12-15 Originally published in 1950 this book is a narrative and analytical account of the making of the new French Constitution and views that process in its historical setting Although the book's central theme is the constitutional problem it is in a broader sense concerned with the political forces at work in France since liberation The 2 years of provisional government from August 1944 to December 1946 brought French politics to a new pitch of complexity Economic stress international tension colonial unrest and personal rivalries sharpened the conflicts among the men who made the constitution All of these elements went into the formation of the Fourth French Republic and are discussed in the book

Cold War and Decolonization in Guinea, 1946-1958 Elizabeth Schmidt, 2007 Winner of the African Politics Conference Group's Best Book Award In September 1958 Guinea claimed its independence rejecting a constitution that would have relegated it to junior partnership in the French Community In all the French empire Guinea was the only territory to vote No Orchestrating the No vote was the Guinean branch of the Rassemblement Démocratique Africain RDA an alliance of political parties with affiliates in French West and Equatorial Africa and the United Nations trusts of Togo and Cameroon Although Guinea's stance vis vis the 1958 constitution has been recognized as unique until now the historical roots of this phenomenon have not been adequately explained Clearly written and free of jargon Cold War and Decolonization in Guinea argues that Guinea's vote for independence was the culmination of a decade long struggle between local militants and political leaders for control of the political agenda Since 1950 when RDA representatives in the French parliament severed their ties to the French Communist Party conservative elements had dominated the RDA In Guinea local cadres had opposed the break Victimized by the administration and sidelined by their own leaders they quietly rebuilt the party from the base Leftist militants their voices muted throughout most of the decade gained preeminence in 1958 when trade unionists students the party's women's and youth wings and other grassroots actors pushed the Guinean RDA to endorse a No vote Thus Guinea's rejection of the proposed constitution in favor of immediate independence was not an isolated aberration Rather it was the outcome of years of political mobilization by activists who despite Cold War repression ultimately pushed the Guinean RDA to the left The significance of this highly original book based on previously unexamined archival records and oral interviews with grassroots activists extends far beyond its primary subject In illuminating the Guinean case Elizabeth Schmidt helps us understand the dynamics of decolonization and its legacy for postindependence nation building in many parts of the developing world Examining Guinean history from the bottom up Schmidt considers local politics within the larger context of the Cold War making her book suitable for courses in African history and politics diplomatic history and Cold War history
