Deborah van den Hoonaard, 2010-04-08 What happens when older men become widowers Popular books movies and television present widowers as lost and unable to cope or care for themselves These stereotypes do not encapsulate the experiences of real widowers how their daily lives change and what being a widower means to individuals in both sociological and practical ways By Himself is based on in depth interviews with twenty six widowers over the age of sixty living in the United States and Canada Using these interviews Deborah K van den Hoonaard explores masculine identity and traces the stories that widowers tell about their wives illnesses and deaths She also focuses on the widowers changed relationships with their children and friends as well as with women and details the men s encounters with tasks such as housework and cooking An eminently readable and accessible book By Himself sheds new light on the social meaning of being a widower **Abuse**

**of Older Men** Jordan I. Kosberg, 2014-01-02 Learn the causes of and consequences from elder abuse of men For the most part often only women are considered the victims of elder abuse However men are also subject to this disturbing social problem Abuse of Older Men examines the diverse aspects of this surprisingly widespread issue that includes sexual abuse abuse by intimates and benign neglect in the health care field as well as effective treatment strategies This unique resource provides the latest research and crucial discussions of why the problem is often invisible under studied and under treated Detailed explorations include risk assessment differential detection of abuse of one gender over the other the risk of abandonment economic exploitation and the issues of older men who had been abused in childhood In the past elder abuse literature has quite correctly mainly focused on the abuse of women who represent the majority of older persons Abuse of Older Men

expands the discussion of this distressing social challenge to include the other gender reviewing the different types of abuse and the reasons why it is not readily apparent in today's society. This compelling text examines in detail the causes and consequences of elder abuse of men. The underreporting of abuse is addressed along with suggestions on ways to better approach various problems. This insightful resource is extensively referenced and provides tables to clearly present data. Issues discussed in *Abuse of Older Men* include intimate partner abuse perpetrated against older men, sexual abuse of older men in nursing homes, the impact of gender on the reporting of elder abuse, neglectful aspects of osteoporosis in older men, past relationships that increase the risk of the neglect of older fathers, news accounts that report the frequency and types of abuse against men, identifying and treating victims, societal forces that affect older men's risk of mistreatment, recommendations for structuring services to better meet victims' needs, the social construction of manhood as an important factor in understanding the abuse of older men. *Abuse of Older Men* provides crucial information for practitioners, educators, researchers, and students in social work, nursing, medicine, law, gerontology, adult protective services, criminal justice, sociology, psychology, domestic violence, counseling, ethics, public policy, and aging networks.

**Counseling Widowers** Jason M. Troyer, 2014-04-24 Working with widowers can be one of the most challenging parts of a therapist's career. Despite the need for better research and professional guidance, therapists have often been left alone to confront a group struggling with high rates of suicide, mortality, physical health problems, and depression. *Counseling Widowers* builds from the latest developments in grief research and men's studies to bridge the gap between counseling practice and the needs of bereaved men. In these pages, therapists will find tools for adjusting their clinical strategies to work more effectively with these men. Through a more empathic understanding of widowers, therapists can help them build from their strengths as they face the loss of their partner.

**Resilient Grandparent Caregivers** Bert Hayslip, Gregory C. Smith, 2013 The study of grandparents raising grandchildren, now almost two decades old, has tended to have a negative bias, emphasizing the difficulties such people face and the negative impact that grandparent caregiving has on them, physically, socially, and emotionally. This edited book seeks to reverse this trend by taking a positive approach to understanding grandparent caregivers, focusing on their resilience and resourcefulness. This method reflects a strengths-based approach and the importance of benefit finding and positive coping. Chapters feature information from both qualitative and quantitative studies and are written by a diverse range of professionals such as counselors, psychologists, geriatric social workers, and nurse practitioners to provide multidisciplinary perspectives for practitioners working with grandparent caregivers. Part one discusses the positive qualities that custodial grandparents possess: resilience, resourcefulness, and benefit finding. The second part considers the sociocultural aspects of resilience and resourcefulness in grandparent caregivers. Finally, part three presents strengths-based interventions for working with custodial grandparents. Practitioners will find this to be a valuable resource in their work and the field as a whole, stimulating positive changes in attitudes toward and practices with grandparent caregivers.
