Resolving Nationality Conflicts Walter Phillips Davidson, Walter Phillips Davison, Leon Gordenker, 1980 **Public Opinion** William A. Blade, 2002 Twenty four news networks a plethora of newspapers and magazines vibrant news talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of an issue making once private beliefs fodder for general consumption A staple of any medium s content is a regular public opinion poll on whatever hot topic strikes the editor s fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today s world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are then provided with author title and subject indexes **Robert Michels, Political Sociology and the Future of Democracy** Juan Linz, 2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels his major book *Political Parties and the dimensions of democracy* as a functioning system Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence Instead Michels offers a view of politics that is bottom up and untidy what he calls a reciprocal deference structure Michels is not simply the father of the iron law of oligarchy but the idea of politics as a less than orderly network of responsiveness responsibility and accountability Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology The remaining three segments of the volume cover areas with which Linz has also long been identified Each in its own way illumines aspects of Michels as well Time and Regime Change articulates differences between change within a regime and change of a regime sometimes hard to identify because of the elongated time frames involved The next essay explains why Spain is neither a traditional society nor a successful modern nation The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions The final section Freedom and Autonomy of

Intellectuals and Artists is a topic that gripped Michels and Linz alike Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values This segment provides a bridge between Michels and Weber not to mention both of these major figures with Linz himself The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century The work is graced by a full length bibliography o *Pathways from Ethnic Conflict* John Coakley,2013-09-13 The book begins with an agenda setting introduction which will provide an overview of the central question being addressed such as the circumstances associated with the move towards a political settlement the parameters of this settlement and the factors that have assisted in bringing it about The remaining contributions will focus on a range of cases selected for their diversity and their capacity to highlight the full gamut of political approaches to conflict resolution The cases vary in the intensity of the conflict from Belgium where it is potential rather than actual to Sri Lanka where it has come to a recent violent conclusion in the geopolitical relationship between the competing groups from Cyprus where they are sharply segregated geographically to Northern Ireland where they are intermingled in the extent to which a stable constitutional accommodation has been reached ranging from the Basque Country with a large range of unresolved problems to South Africa which has achieved a significant level of institutional stability This book ranges over the world s major geopolitical zones including Asia the Middle East Africa and Europe and will be of interest to practitioners in the field of international security This book was published as a special issue of *Nationalism and Ethnic Politics* *Immigration Phobia and the Security Dilemma* Mikhail A. Alexseev,2006 Immigration phobia is a paradoxical global phenomenon neither theories that link conflict to symbolic and realistic threats nor the contact hypothesis can systematically explain intense anti migrant alarmism and exclusionism toward marginally small migrant minorities Through a careful comparative study of immigration attitudes in the Russian Far East the EU and the United States this book is the first to demonstrate that concerns about national identity and economic interests associated with migration are themselves ignited by a unique perceptual logic of the security dilemma Regression analysis and case studies trace support for expulsion of migrants to human yearning for pre emptive self defense under uncertainty Alarmism and hostility arise from ambiguities about immigration consequences and migrants motivations Framing migration as a national security problem is therefore logical but counterproductive The book instead recommends managing migration through economic incentives and new institutions at the global national and local level **The Self-determination of Minorities in International Politics** Alexis Heraclides,2012-11-12 Published in 1991 The Self determination of Minorities in International Politics is a valuable contribution to the field of Politics **The Flemish Movement** Theo Hermans,2015-11-19 This documentary history of the Flemish movement and its role as a social intellectual and political force in Belgium recounts the struggle for the recognition of the language and cultural identity of the Dutch speaking inhabitants of Belgium **Canadian Review of Studies in Nationalism** ,1987 Terrorism: The third or new left wave

David C. Rapoport, 2006 Takes a chronological approach to provide a history of modern rebel or non state terror In addition to articles in academic journals the collection includes discussions statements and government documents **Escaping the Self-Determination Trap** Marc Weller, 2009-05-31 There is new movement in the discussion about self determination and statehood The contested declaration of independence by Kosovo and Russia s recognition of the purported independence of Abkhazia and South Ossetia have caused significant controversy These developments may well put an end to the attempt by governments to keep in place the highly restricted doctrine of self determination that has previously only been made available in the colonial context This monograph argues that classical self determination narrowly conceived in the colonial context cannot contribute to the resolution of the presently ongoing self determination conflicts around the world However this study finds that over the past few years a new practice of addressing self determination conflicts has emerged This practice significantly extends our understanding of the legal right to self determination and of the means that can be brought to bear in terminating secessionist conflicts Immigrants and Nationalists Gershon Shafir, 1995-01-01 In this empirical and theoretical study of nationalism ethnicity and immigration the author compares the reception of large numbers of immigrants in Catalonia the Basque country Latvia and Estonia developed regions that possess distinct cultures and nationalist movements New Social Movements Enrique Larana, 2009 Redefining the field of social movements **Between Ethics and Politics: Lessons from Biafra** Tobe Nnamani, 2016-06-08 Although many years have elapsed since the demise of Biafra it still remains an intractable unfinished business that seriously threatens the corporate existence of Nigeria Most of the literature on Biafra tended to dwell more on the historical and political analysis of the war and how the factors that engendered it could be tackled It appears however that no ethical analysis of the issues involved in the Biafran war has been carried out in any significant academic endeavour hence the reason and need for a critical analytical survey of the ethical and political implications of the role of the world community in the unprecedented events that took place in Biafra The purpose of this book is first to understand the twist and turns of the events and issues involved in the Biafran crisis and the role the international community played in the war Second is to articulate the complex nature of humanitarian intervention and to stress the relevance of ethics its interpenetration and tandem relationship with international relations on a broader level and in particular humanitarian intervention as a foreign policy action The main claim of our argument is that ethics is part and parcel of international relations Divorcing ethics from international relations leads to amorality that threatens the world order In other words it is argued that ethical considerations should guide international affairs and the undertaking of humanitarian intervention Behind this basic thesis the book defends the idea of a global ethic Global ethic means an ethic which acknowledges respect for human life and the interconnectedness and interdependence of all human beings It is an ethic which transcends the circumscribed confines of national boundaries and economic and geopolitical interests and opens them up to the larger urgent need well being peaceful coexistence and sustainability of the larger world community Tobe

Nnamani **Understanding Soviet Politics** Cyril E. Black, 2020-06-07 To what extent did the Russian revolution of 1917 bring about the changes wanted by the Bolsheviks Why did many of these changes fail to materialize How has the Russian heritage adapted to the challenges facing all modernizing societies What does Russia's past tell us about the present role of the USSR in world affairs In this collection of essays which includes new part and chapter introductions Dr Black discusses these questions examining the major issues that shape our understanding of Soviet politics Beginning with a general exploration of the ways the traditional heritage of the Russian empire has both helped and hindered the adaptation of Soviet society to the contemporary world he illustrates the extent to which the Russian empire was already evolving into a modern society before World War I The author analyzes the modernization of the USSR emphasizing the interaction of tradition and modernity and the ways the Russian heritage of institutions and values has been adapted since 1861 to the needs of political development economic growth and social integration Comparisons are made with a wide range of societies first in 1967 the fiftieth anniversary of the Russian revolution and again in the 1980s The book considers the past and present relations of Russia USSR with the outside world in the context of universal societal changes Dr Black discusses such questions as the differences between the foreign policy objectives of Czarist Russia and the Soviet Union the degree to which Russia USSR has been able to influence other countries through means other than military power and drawing on his experience in Bulgaria the origins of the cold war The book concludes with Dr Black's personal interview with Nikita Khrushchev a discussion that provides rare insights into the thought processes of a leading Soviet statesman at the height of his power

considered judgment after thorough consideration of the package or were they expressing their anger with politicians particularly Prime Minister Brian Mulroney The Challenge of Direct Democracy provides the definitive account of the 1992 referendum on the Charlottetown Accord **National Secession** Philip G. Roeder, 2018-10-15 No detailed description available for National Secession *The Self-determination of Peoples* Wolfgang F.
