Resource Communities A Decade Of Disruption:

Resource Communities Don D Detomasi, J. W. Gartrell, John W Gartrell, 2020-01-16 This volume consists of eleven original papers that survey the state of the art in research and public policy regarding specific problems and opportunities confronted by resource communities The papers are international in scope dealing with the experiences of resource communities in four nations Canada Norway the United Kingdom and the United States *Stability and Change in Forest-based Communities*

Catherine Woods Richardson, 1996 **Proceedings of the 1993 Northeastern Recreation Research Symposium** Gail A. Vander Stoep, 1993 *Forty Years of Hydrometeorological Data from the Fernow Experimental Forest, West Virginia*, 1994

General Technical Report NE-380, 1980 *Community And Forestry* Robert G Lee, 2019-05-20 The contributors consider how social science perspectives can contribute to our understanding of communities and their conflicting choices regarding the allocation and use of forest agriculture and other natural resources The topics discussed include community stability community adjustment to economic and technological change and the public's role in *Resources and Sustainable Development in the Arctic* Chris Southcott, Frances Abele, David Natcher, Brenda Parlee, 2018-10-04 Over the past thirty years we have witnessed a demand for resources such as minerals oil and gas which is only set to increase This book examines the relationship between Arctic communities and extractive resource development With insights from leading thinkers in the field the book examines this relationship to better understand what if anything can be done in order for the development of non renewable resources to be of benefit to the long term sustainability of these communities The contributions synthesize circumpolar research on the topic of resource extraction in the Arctic and highlight areas that need further investigation such as the ability of northern communities to properly use current regulatory processes fiscal arrangements and benefit agreements to ensure the long term sustainability of their culture communities and to avoid a new path dependency This book provides an insightful summary of issues surrounding resource extraction in the Arctic and will be essential reading for anyone interested in environmental impact assessments globalization and Indigenous communities and the future of the Arctic region Large-scale Mines and Local-level Politics Colin Filer, Pierre-Yves Le Meur, 2017-10-20 Despite the difference in their populations and political status New Caledonia and Papua New Guinea have comparable levels of economic dependence on the extraction and export of mineral resources For this reason the costs and benefits of large scale mining projects for indigenous communities has been a major political issue in both jurisdictions and one that has come to be negotiated through multiple channels at different levels of political organisation The resource boom that took place in the early years of the current century has only served to intensify the political contests and conflicts that surround the distribution of social economic and environmental costs and benefits between community members and other stakeholders in the large scale mining industry However the mutual isolation of Anglophone and Francophone scholars has formed a barrier to systematic comparison of the relationship between large scale mines and local level politics in Papua New Guinea and New

Caledonia despite their geographical proximity This collection of essays represents an effort to overcome this barrier but is also intended as a major contribution to the growth of academic and political debate about the social impact of the large scale mining industry in Melanesia and beyond *General Technical Report PNW-GTR* ,1995 Protest in the Provinces Allison D. Evans,2025-06-03 In the immediate aftermath of the Soviet Union s collapse Russia entered shock therapy a series of neoliberal and seemingly democratizing reforms that sought to quickly undo the decades old communist planned economy fused Party State autocratic political system and highly centralized government Russians were indeed shocked by the resulting runaway inflation political chaos declining living standards rising unemployment and persistent wage arrears *Protest in the Provinces* examines the popular reactions to this dire economic decline which varied in scale intensity and aims across similar industrial company towns during the 1990s Analyzing local media archival documents and interviews Allison D Evans provides a detailed and comparative history of protests in three such cities Cherepovets dominated by the steel industry Komsomolsk na Amure by defense and Surgut by oil and gas In doing so she illuminates a range of strategies local elites used to control and respond to protesters which were influenced by the primary industry s level of dependence on the central state and the extent of elite unity Unique in its close range analysis of participation and protest in provincial cities this book reshapes understandings of Russia s transition to capitalism and provides insights into the activism that continues in provincial Russia today *Demography at the Edge* Rasmus Ole Rasmussen,Prescott Ensign, Lee Huskey,2016-05-23 Addressing the methodological and topical challenges facing demographers working in remote regions this book compares and contrasts the research methods and models and policy applications from peripheral regions in developed nations With the emphasis on human populations as dynamic adaptive evolving systems it explores how populations respond in different ways to changing environmental cultural and economic conditions and how effectively they manage these change processes Theoretical understandings and policy issues arising from demographic modelling are tackled including competition for skilled workers urbanisation and ruralisation population ageing the impacts of climate change the life outcomes of Indigenous peoples globalisation and international migration Based on a strong theoretical framework around issues of heterogeneity generational change temporariness and the relative strength of internal and external ties *Demography at the Edge* provides a common set of approaches and issues that benefit both researchers and practitioners General Technical Report INT. ,1995 *User's Guide to Fish Habitat* C. Kerry Overton,1995 This user s guide and reference document describes the physical features of the Salmon River Basin Idaho stream channels that represent natural conditions for fish habitat that is streams that have not been influenced by major human disturbances The data base was created to assist biologists and resource managers It describes resource conditions that can be achieved through management objectives *Rural Development Perspectives* ,1986 *Rivers Unbound* Ananth Padmanabhan,Nabeela Siddiqui,Gnana Sanga Mithra S,2025-08-19 Rivers have long been the lifeblood of civilizations shaping landscapes sustaining livelihoods and serving as

silent witnesses to the unfolding narratives of human history From the Indus to the Ganges the Nile to the Amazon rivers have defined communities facilitated commerce and inspired cultural and spiritual traditions However in an era marked by climate change geopolitical tensions and environmental degradation rivers are increasingly sites of contestation over access governance and rights The interplay of social currents legal tides and ecological imperatives calls for a multidisciplinary approach to understanding and managing these vital water bodies Rivers Unbound Exploring Social Currents Legal Tides and Stories of Flow emerges from the International Conference on Rivers 2024 where scholars policymakers legal experts environmentalists and community advocates convened to engage in critical discourse on the challenges and possibilities of river governance

Proceedings of the 1994 Northeastern Recreation Research Symposium Gail A. Vander Stoep,1994 **Company Towns in the Americas** Oliver Jürgen Dinius,Angela Vergara,2011-01-01 Company towns were the spatial manifestation of a social ideology and an economic rationale The contributors to this volume show how national politics social protest and local culture transformed those founding ideologies by examining the histories of company towns in six countries Argentina Firmat Brazil Volta Redonda Santos Fordl ndia Canada Sudbury Chile El Salvador Mexico Santa Rosa R o Blanco and the United States Anaconda Kellogg and Sunflower City Company towns across the Americas played similar economic and social roles They advanced the frontiers of industrial capitalism and became powerful symbols of modernity They expanded national economies by supporting extractive industries on thinly settled frontiers and as a result brought more land natural resources and people under the control of corporations U S multinational companies exported ideas about work discipline race and gender to Latin America as they established company towns there to extend their economic reach Employers indeed shaped social relations in these company towns through education welfare and leisure programs but these essays also show how working class communities reshaped these programs to serve their needs The editors introduction and a theoretical essay by labor geographer Andrew Herod provide the context for the case studies and illuminate how the company town serves as a window into both the comparative and transnational histories of labor under industrial capitalism

Third World in the First Elspeth Young,2013-04-03 European colonisation has marginalised the first peoples in industrialised countries such as Australia and Canada In remote regions still the homes of large Aboriginal Indian and Inuit populations this legacy remains strong Modernisation the boom and bust model of state and private development and the partial and biased assistance provided by the state have eroded many communities through their disregard for socio economic structures and the beliefs which underpin them Third World in the First explores the past present and future of these peoples their treatment by the West and the alternative strategies of development which might be available to them
