The Regulation and Reform of Music Criticism in Nineteenth-Century England Paul Watt,2017-11-22 Music criticism in England underwent profound change from the 1880s to the 1920s It gave rise to New criticism that aimed to be rational impartial and intellectually authoritative It was a break from the criticism of old the work of the opinionated journalist who wrote descriptive concert reviews with invective cliché bias and bombast Critics such as Ernest Newman 1868 1959 John F Runciman 1866 1916 and Michel D Calvocoressi 1877 1944 fostered this new school and wrote extensively of their aspirations for musical criticism in their own times and for the future This book charts the genesis of this new wave of musical criticism that sought to regulate and reform the profession of music critic Alongside the establishment of principles training manuals and schools for critics hundreds of journal articles and dozens of books were written that encouraged new criticism which also had a bearing on scholarly writing in biography aesthetics and history *The Regulation and Reform of Music Criticism in Nineteenth Century England* considers the influence and advocacy of individual critics and the role that institutions such as the Musical Association and the Musical Times played in this period of change The book also explores the impact that French and German writers had on their English counterparts demonstrating the internationalization of critical thought of the period *Towards a Twenty-First-Century Feminist Politics of Music* Sally Macarthur,2016-02-24

Towards a Twenty First Century Feminist Politics of Music opens up a new way of thinking about the absence of women s music It does not aim to find a solution in a liberal feminist sense but to discover new potentialities new possibilities for thought and action Sally Macarthur encourages us with the assistance of Deleuze and feminist Deleuzian work to begin the important work of

imagining what else might be possible not in order to provide answers but to open up the as yet unknown The power of thought or what Deleuze calls the virtual opens up new possibilities Macarthur suggests that the future for women's new music is not tied to the predictable and known but to futures beyond the already known Previous research concludes that women's music is virtually absent from the concert hall and yet fails to find a way of changing this situation Macarthur finds that the flaw in the recommendations flowing from past research is that it envisages the future from the standpoint of the present and it relies on a set of pre-determined goals It thus replicates the present reality so reinforcing rather than changing the status quo Macarthur challenges this thinking and argues that this repetitive way of thinking is stuck in the present unable to move forward Macarthur situates her argument in the context of current dominant neoliberal thought and practice She argues that women have generally not thrived in the neoliberal model of the composer which envisages the composer as an individual autonomous creator and entrepreneur Successful female composers must work with this dominant modernist aesthetic and exploit the image of the neo-romantic entrepreneurial creator This book sets out in contrast to develop a new conception of subjectivity that sows the seeds of a twenty-first century feminist politics of music

The Woman Composer Jill Halstead, 2017-07-05 Unlike previous anthologizing examinations of women and musical composition this book concentrates on the reasons why there have been and continue to be so few women composers Jill Halstead focuses on the experiences of nine composers born in the twentieth century Avril Coleridge Taylor Grace Williams Elizabeth Maconchy Minna Keal Ruth Gipps Antoinette Kirkwood Enid Luff Judith Bailey and Bryony Jagger to explore the physiological social and political factors that have inhibited women from pursuing careers as composers Is there a biological argument for inferior female creativity Do social structures such as marriage serve to restrict potential women composers Is the gender of a composer reflected in the music they write If so how would this manifest itself The conclusions that are reached are as complex and challenging as the questions that are raised This powerful and provocative book aims to open up debate on these issues which have all too often been avoided by critics and musicologists whose writings have perpetuated arguments that denigrate women's ability to compose By confronting these arguments this study will hopefully begin a reassessment of attitudes towards women and music so that women composers are less of a rarity by the end of the next century

Walt Whitman and Nineteenth-Century Women Reformers Sherry Ceniza, 2013-09-30

An interesting academic study of the influence of certain 19th century women reformers on Walt Whitman as evidenced by his poetry prose and correspondence **Music in Twentieth-century Oxford** Robin Darwall-Smith, Susan Wollenberg, 2023 Music has always played a central role in the life of Oxford both in the city and the university whether through the great collegiate choral foundations the many amateur choirs and instrumentalists or the professional musicians regularly drawn to perform there Oxford with its collegiate system and its centuries long tradition of musical activity therefore presents a distinctive and multi layered picture of the role of music in urban culture and university life 0 While college and university life dominate the volume the collection also draws attention to the city s musical life underlining music s unique ability to link town and gown Volume chapters tackle varied subjects such the Oxford Bach Choir music in the city churches and the major choral foundations The volume also tells the story of the development of the University s Music Faculty music in the women s colleges and the University Opera Club Special attention is given to prominent Oxford composers including Edmund Rubbra Kenneth Leighton and Robert Saxton The University College Musical Society and the Oxford and Cambridge Musical Club which served as a kind of laboratory for such significant figures as Ralph Vaughan Williams and Walford Davies also feature prominently The volume will be indispensable reading for scholars and students of music in twentieth century Britain as well as those interested more generally in the history of Oxford s thriving cultural life in the university its colleges and the city *Music in Nineteenth-Century Britain* Rosemary Golding, 2022-08-15 This volume of primary source material examines music and society in Britain during the nineteenth century Sources explore religion politics class and gender The collection of materials are accompanied by an introduction by Rosemary Golding as well as headnotes contextualising the pieces This collection will be of great value to students and scholars *From Blues to Beyoncé* Alexis McGee, 2024-02-01 From Blues to Beyoncé amplifies Black women s ongoing public assertions of resistance agency and hope across different media from the nineteenth century to today By examining recordings music videos autobiographical writings and speeches Alexis McGee explores how figures such as Ida B Wells Billie Holiday Ruth Brown Queen Latifah Aretha Franklin Nina Simone Janelle Mon e and more mobilize sound to challenge antiBlack discourses and extend social justice pedagogies Building on contemporary Black feminist interventions in sound studies and sonic rhetorics From Blues to Beyoncé reveals how Black women s sonic acts transmit meaning and knowledge within between and across generations Women in Nineteenth-Century Czech Musical Culture Anja Bunzel, Christopher Campo-Bowen, 2024-02-23 This volume focuses on the circumstances of women s music making in the vibrant and diverse environment of the Czech lands during the nineteenth century It sheds light on little known women musicians while also considering more well known works and composers from new woman centric perspectives It shows how the unique environment of Habsburg Central Europe especially Bohemia and Lower Austria intersects with gender to reveal hitherto unexplored networks that challenge the methodological nationalism of music studies as well as the discipline s continued emphasis on singular canonical figures The main areas of enquiry

Hip Hop's Amnesia Reiland Rabaka, 2012-05-11 Hip Hop's Amnesia is a study about aesthetics and politics music and social movements as well as the ways in which African Americans unique history and culture has consistently led them to create musics that have served as the soundtracks for their socio political aspirations and frustrations their socio political organizations and nationally networked movements The musics of the major African American social and political movements of the 1950s 1960s and 1970s were based and ultimately built on earlier forms of African American movement music Therefore in order to really and truly understand rap music and hip hop culture we must critically examine both classical African American musics and the classical African American movements that these musics served as soundtracks for
