Understanding Developmental Dyslexia: Linking Perceptual and Cognitive Deficits to Reading Processes

Pierluigi Zoccolotti,Peter F. de Jong,Donatella Spinelli,2016-06-24 Understanding the mechanisms responsible for developmental dyslexia DD is a key challenge for researchers A large literature mostly concerned with learning to read in opaque orthographies emphasizes phono logical interpretations of the disturbance Other approaches focused on the visual perceptual aspects of orthographic coding Recently this perspective was supported by imaging data showing that individuals with DD have hypo activation in occipito temporal areas a finding common to both transparent and opaque orthographies Nevertheless it is difficult to infer causal relationships from activation data Accommodating these findings within the cognitive architecture of reading processes is still an open issue This is a general problem which is present in much of the literature For example several studies investigating the perceptual and cognitive abilities that distinguish groups of children with and without DD failed to provide explicit links with the reading process Thus several areas of investigation e g acoustic deficits or magnocellular deficiencies have been plagued by replication failures Furthermore much research has neglected

the possible contribution of comorbid symptoms By contrast it is now well established that developmental disorders present a large spectrum of homotopic and heterotopic co morbidities that make causal interpretations problematic This has led to the idea that the etiology of learning difficulties is multifactorial thus challenging the traditional models of DD Recent genetic studies provide information on the multiple risk factors that contribute to the genesis of the disturbance Another critical issue in DD is that much of the research has been conducted in English speaking individuals However English is a highly irregular orthography and doubts have been raised on the appropriateness of automatically extending interpretations based on English to other more regular orthographies By contrast important information can be gotten from systematic comparisons across languages Thus the distinction between regular and irregular orthographies is another potentially fruitful area of investigation Overall in spite of much research current interpretations seem unable to integrate all available findings Some proposals focus on the cognitive description of the reading profile and explicitly ignore the distal causes of the disturbance Others propose visual acoustic or phonological mechanisms but fail to link them to the pattern of reading impairment present in different children The present Research Topic brings together studies based on different methodological approaches i e behavioural studies examining cognitive and psycholinguistic factors eye movement investigations biological markers neuroimaging and genetic studies involving dyslexic groups with and without comorbid symptoms and in different orthographies transparent and opaque to identify the mechanisms underlying DD The RT does not focus on a single model or theory of dyslexia but rather brings together different approaches and ideas which we feel are fruitful for a deeper understanding developmental dyslexia

Making Progress in Writing Eve Bearne, 2003-08-29
Children's achievements in writing lag behind their achievements in reading speaking and listening National tests are beginning to expose this gap and inevitably it is raising concerns The issue is not without controversy but regardless of the politics of the situation national progress in children's writing is both needed and possible This new book from Eve Bearne makes a valuable contribution towards helping teachers close this gap Uniquely it follows the structure of the National Literacy Strategy whilst examining key areas such as bridging KS2 and KS3 writing and writing skills beyond the Literacy Hour Such a structure makes the book incredibly practical and easy to use providing essential information for both practitioners and academics

Reading the Fascicles of Emily Dickinson Eleanor Elson Heginbotham, 2003
Heginbotham's book focuses on Emily Dickinson's work as a deliberate writer and editor The fascicles were forty small portfolios of her poems written between 1856 and 1864 composed on four to seven stationery sheets folded stacked and sewn together with twine What revelations might come from reading her poems in her own context Are they simply scrapbooks as some claim or are they evidence of conscious canny editing Read in their original places each lyric becomes different and more interesting than when read in isolation We cannot know why Dickinson compiled the books or what she thought of them but we can observe what she left in them What she left is visible only by noting the way the poem answers in a dialogue

across the pages the way lines spilling onto a second page introduce the next poem the way openings suggest image clusters so that each book has its own network of concerns and language not a story or philosophical preachment but an aesthetic wholeness This book is the first to demonstrate that Dickinson's poetic and philosophical creativity is most startling when the reader observes the individual lyric in the poet's own and only context for them For teacher student scholar and poetry lover Heginbotham creates an important new framework for understanding one of the most complex clever and profound U S poets

Resources in Education, 1998 Virginia Woolf and the Ethics of Intimacy Elsa Högborg, 2020-02-06 Revisiting Virginia Woolf's most experimental novels Elsa Högborg explores how Woolf's writing prompts us to re-examine the meaning of intimacy In Högborg's readings of *Jacob's Room* *Mrs Dalloway* *To the Lighthouse* and *The Waves* intimacy is revealed to inhere not just in close relations with the ones we know and love but primarily within those unsettling encounters which suspend our comfortable sense of ourselves as separate from others and the world around us *Virginia Woolf and the Ethics of Intimacy* locates this radical notion of intimacy at the heart of Woolf's introspective modernist poetics as well as her ethical and political resistance to violence aggressive nationalism and fascism Engaging contemporary theory particularly the more recent works of Judith Butler Luce Irigaray and Julia Kristeva it reads Woolf as a writer and ethical thinker whose vital contribution to the modernist scene of inter-war Britain is strikingly relevant to critical debates around intimacy affect violence and vulnerability in our own time **Rethinking Basic Writing** Laura Gray-Rosendale, 1999-12 This book surveys the history of basic writing scholarship suggesting that we cannot adequately theorize the situations of basic writers unless we examine how they construct their own conceptions of their identities their constructions of their relationships to social forces and their representations of their relationships to written work Using a cross-disciplinary analytic model Gray-Rosendale offers a detailed examination of the oral conversations that take place within one basic writing peer revision group She explains the ways in which the students' own conversational structures impact and shape their written products Gray-Rosendale then draws out the potentials of her work for basic writing administrators curricula builders and teachers

Reader Response in Secondary and College Classrooms Nicholas J. Karolides, 2013-04-15 This text based on Louise M. Rosenblatt's transactional model of literature focuses on the application of transactional reader response theory in the classroom It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice This is not a "What should I do on Monday" cookbook but an expression of the practice of theory in college and secondary school classrooms The chapters portray a spectrum of strategies including biopoems expressive and imaginative writing journal writing readers theater role playing and unsent letters using as examples individual works from several genres Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader-centered classroom the authors provide stepping stones to develop readiness and confidence suggestions and insights to ease the transition to the transactional model of teaching and

learning Pedagogical features An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters it contains Invitations elicit engagement of readers with concepts attitudes or strategies presented in the chapters they invite readers as individuals or members of a small group to consider ideas or to practice a strategy among other activities in order to enhance understandings A glossary defines key concepts and strategies discussed in the text A bibliography provides an extensive list of resources books and journal articles both theoretical and applied New in the second edition Six new chapters three deal with the roles of film as literature in the English classroom and three with enhancing multicultural understandings Updates and revisions to several chapters that appeared in the first edition Invitations new in this edition have been added to focus and expand readers thinking
