Responsabilita Perdono E Vendetta Nel Mondo Antico:

Responsabilità, perdono e vendetta nel mondo antico Marta Sordi, 1998 *States of Memory* David C. Yates, 2019

Drawing together recent work on memory theory and a wide range of ancient evidence *States of Memory* argues that the Greeks who fought and later commemorated the Persian War very rarely recalled the war as Greeks Instead they presented themselves as members of their respective city states *Song of Wrath* J. E. Lendon, 2010-11-02 *Song of Wrath* tells the story of Classical Athens victorious Ten Years War 431 421 BC against grim Sparta the first decade of the terrible Peloponnesian War that turned the Golden Age of Greece to lead Historian J E Lendon presents a sweeping tale of pitched battles by land and sea sieges sacks raids and deeds of cruelty and guile along with courageous acts of mercy surprising charity austere restraint and arrogant resistance Recounting the rise of democratic Athens to great power status and the resulting fury of authoritarian Sparta Greece s traditional leader Lendon portrays the causes and strategy of the war as a duel over national honor a series of acts of revenge A story of new pride challenging old *Song of Wrath* is the first work of Ancient Greek history for the post cold war generation **Myth, Truth, and Narrative in Herodotus** Emily Baragwanath, Mathieu de Bakker, 2012-09-06 Herodotus the Father of History is infamously known for having employed elements more akin to mythological tales than to unvarnished truth in translating his historical research into narrative form While these narratives provide valuable source material he could not have surmised the hostile reception his work would receive in later generations This mythical aspect of the *Histories* led many successors most notoriously Plutarch to blame Herodotus for spinning far fetched lies and to set him apart as an untrustworthy historian Echoes of the same criticism resounded in twentieth century scholarship which found it difficult to reconcile Herodotus ambition to write historical stories as they really happened with the choices he made in shaping their form This volume brings together 13 original articles written by specialists in the fields of ancient Greek literature and history Each article seeks to review re establish and rehabilitate the origins forms and functions of the *Histories* mythological elements These contributions throw new light on Herodotus talents as a narrator underline his versatility in shaping his work and reveal how he was inspired by and constantly engaged with his intellectual milieu The Herodotus who emerges is a Herculean figure dealing with a vast quantity of material struggling with it as with the Hydra s many growing heads and ultimately rising with consummate skill to the organisational and presentational challenges it posed The volume ultimately concludes that far from being unrelated to the historical aspects of Herodotus text the mythic elements prove vital to his presentation of history **Brill's Companion to War in the Ancient Iranian Empires**, 2024-10-21 Brill s *Companion to War in the Ancient Iranian Empires* examines military structures and methods from the Elamite period through the Achaemenid Seleucid Arsacid and Sasanian empires War played a critical role in Iranian state formation and dynastic transitions imperial ideologies and administration and relations with neighbouring states and peoples from Central Asia to the Mediterranean Twenty chapters by leading experts

offer fresh approaches to the study of ancient Iranian armies strategy diplomacy and battlefield methods and contextualise famous conflicts with Greek and Roman opponents *Il mistero pasquale di Gesù Cristo e l'esistenza credente nei Sermones di Agostino* Andrea Bizzozero,2010 Qual la centralit del mistero pasquale di Cristo nella predicazione di Agostino di Ippona Quali gli elementi principali evidenziati Quale la relazione tra il mistero pasquale di Cristo e l'esistenza credente Il presente studio attraverso l'analisi dei Sermones ad populum di Agostino cerca di trovare risposte alle suddette domande muovendo da due premesse In primo luogo si evidenzia la centralit teologica del mistero pasquale di Cristo da tale evento prende origine sia la riflessione cristologica che antropologica in secondo luogo si considera il legame profondo tra dimensione speculativa e pastorale quindi tra teologia ed esistenza credente In altre parole la pasqua di Gesù viene riconosciuta come il luogo sorgivo e normativo per comprendere l'identità di Cristo e del cristiano **Fazioni e congiure nel mondo antico** Marta Sordi,1999

uscita negoziata dai regimi oppressivi o dalle guerre civili del passato diventata una delle preoccupazioni prioritarie della politica interna e internazionale in et contemporanea Non sempre stato cos Di norma nella storia alla fine di periodi di

convulsione erano parse percorribili solo due strade opposte la brutale resa dei conti cio la vendetta oppure l oblio e l amnistia vale a dire la clemenza Ai quattro angoli del mondo le ultime generazioni hanno sempre pi spesso fatto esperienza di altre modalit di chiusura dei conti con il passato quella della via giudiziaria dei processi penali internazionali indirizzati a punire i maggiori responsabili di crimini e violenze indiscriminate e quella delle commissioni verit e riconciliazione che facendo luce sulle varie forme di macrocriminalit di stato dovrebbero creare le condizioni per il ristabilimento di quel minimo di reciproca fiducia necessaria alla convivenza civile L alternativa tra il chiudere i conti con il passato senza averli fatti e il fare i conti con il passato senza mai chiuderli incombe cos sempre sui processi di transizione alimentando tanto l assunzione morale di responsabilit collettive quanto la politicizzazione della memoria

L'opposizione nel mondo antico Marta Sordi,2000 *Memorie storiche dei greci in Claudio Eliano* Luisa Prandi,2005 Herodotus and the topography of Xerxes' invasion Jan Zacharias Van Rookhuijzen,2018-11-19 In his Histories Herodotus of Halicarnassus gave an account of Xerxes invasion of Greece 480 BCE Among the information in this work features a rich topography of the places visited by the army as well as of the battlefields Apparently there existed a certain demand among the Greeks to behold the exact places where they believed that the Greeks had fallen gods had appeared or Xerxes had watched over his men This book argues that Herodotus topography long taken at face value as if it provided unambiguous access to the historical sites of the war may partly be a product of Greek imagination in the approximately fifty years between the Xerxes invasion and its publication with the landscape functioning as a catalyst This innovative approach leads to a new understanding of the topography of the invasion and of the ways in which Greeks in the late fifth century BCE understood the world around them It also prompts new suggestions about the real world locations of various places mentioned in Herodotus text

The Oxford Handbook of Social Relations in the Roman World Michael Peachin,2011 The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has heretofore been accomplished in this field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship

patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society **Responsabilità e comunità** Marcello Zanatta, Franco Bianco, 2007 *Emperors and Political Culture in Cassius Dio's Roman History* Caillan Davenport, Christopher Mallan, 2021-08-12 The Roman History of Cassius Dio provides one of the most important continuous narratives of the early Roman empire spanning the inception of the Principate under Augustus to the turbulent years of the Severan Dynasty It has been a major influence on how scholars have thought about Roman imperial history from the Byzantine period down to the present day as well as being a work of considerable literary sophistication and merit This book the product of an international collaborative project brings together thirteen chapters written by scholars based in Europe North America and Australia They offer new approaches to Dio's representation of Roman emperors their courtiers and key political constituencies such as the army and the people as well as the literary techniques he uses to illuminate his narrative from speeches to wonder narratives **Herodotus - narrator, scientist, historian** Ewen Bowie, 2018-03-19 Recently the importance for Herodotus work of contemporary medical and sophistic thought and techniques of argument has been widely recognised as long had been his dependence on and difference from earlier geographical and ethnographic writing This volume focuses on the place of these interests in his investigatory techniques and sets them alongside his many narrative skills from superficially traditional battle narrative and reworking of Greek or non Greek traditions that border on myth to the structuring of narrative by highlighting the life of objects and addresses such fundamental issues as how he chooses between competing explanations and how far he valued truth The book tackles many of the basic issues that confront any attempt to understand Herodotus work
