Responses To Crime Vol 2 Penal Policy In The Making:

Criminal Policy in Transition Penny Green, Andrew Rutherford, 2000-12-11 Criminal Policy in Transition comes along at a time when the literature in criminology is desperately short of global perspectives It helps fill that gap while it presents important new insights into changing penal policy and practice That it raises as many questions as it seems to answer is one of its great strengths The authors write knowledgeably about their home societies without being prematurely bounded by comparative criteria As a result they develop a complex and uneven image of similarities and differences of divergence and convergence through time In this sense the collection offers a model of how international collaborative work should proceed The book is the product of a workshop held at the International Institute for the Sociology of Law IISL in Onati Spain The IISL is a partnership between the Research Committee on the Sociology of Law and the Basque Government

The Culture of Control David Garland, 2024-05-31 The past 30 years have seen vast changes in our attitudes toward crime More and more of us live in gated communities prison populations have skyrocketed and issues such as racial profiling community policing and zero tolerance policies dominate the headlines How is it that our response to crime and our sense of criminal justice has come to be so dramatically reconfigured David Garland charts the changes in crime and criminal justice in America and Britain over the past twenty five years showing how they have been shaped by two underlying social forces the distinctive social organization of late modernity and the neoconservative politics that came to dominate the United States and the United Kingdom in the 1980s Garland explains how the new policies of crime and punishment welfare and security and the changing class race and gender relations that underpin them are linked to the fundamental problems of governing contemporary societies as states corporations and private citizens grapple with a volatile economy and a culture that combines expanded personal freedom with relaxed social controls It is the risky unfixed character of modern life that underlies our accelerating concern with control and crime control in particular It is not just crime that has changed society has changed as well and this transformation has reshaped criminological thought public policy and the cultural meaning of

crime and criminals David Garland's *The Culture of Control* offers a brilliant guide to this process and its still reverberating consequences

Imaginary Penalties Pat Carlen, 2013-01-11 This book is concerned to explore the idea of imaginary penalties and to understand why the management of criminal justice and criminal justice systems has so often reached crisis point Its underlying theme is that when political strategies of punitive populism are combined with managerialist techniques of social auditing a new all encompassing form of governance has emerged powerless to deliver what it promises but with a momentum of its own and increasingly removed from proper democratic accountability A highly distinguished international group of contributors explores this set of themes in a variety of different contexts taken from the UK N America Europe and Australia It will be essential reading for anybody seeking to understand some of the root causes of increasing prison populations social harms such as recidivism and domestic violence and the increasingly important role of criminal justice within systems of governance

Welfare and Punishment Ian Cummins, 2022-08 From Margaret Thatcher's first government to austerity politics Ian Cummins traces changing attitudes to imprisonment and the social state With fresh insights and critical thinking he demonstrates how increasingly punitive approaches to crime and welfare have shaped the neoliberal economy and created

stigma around those living in poverty *Punishment and Madness* Toby Seddon, 2007-03-12 The focus of this book is on the government of prisoners with mental health problems in England and Wales over the last twenty five years The wider context and backdrop to the book is the shift to late modernity which since the 1970s has seen massive structural change in most Western societies affecting the social economic and cultural spheres as well as the field of crime and punishment This book investigates whether these profound transformations have also led to a reconfiguring of responses to mentally vulnerable offenders who end up in prison Specifically it explores how this group of prisoners has come to be viewed increasingly as sources of risk requiring management or containment rather than as people suitable for therapeutic responses The book draws on primary research carried out by the author including interviews with key informants involved in the field during this period such as former cabinet ministers senior civil servants campaigners and academics In conducting this investigation the author has developed a method of research which combines and synthesizes different forms of analysis to create a novel approach to socio historical research **Community Penalties** Anthony Bottoms, Loraine Gelsthorpe, Sue Rex, 2013-01-11 Community penalties are punishments that in the courts sentencing tariff come between imprisonment and fines They include electronic tagging supervised unpaid work and compulsory participation by offenders in treatment programmes Recent years have seen many changes in England in the field of community penalties These have included the rapid development of accredited offending behaviour programmes and some new court orders such as the Referral Order for juveniles based on the principles of restorative justice Organisationally too the year 2001 sees a major change with the establishment of the National Probation Service for England and Wales Community Penalties change and challenges addresses the key issues facing community penalties at this critical time Topics covered include the recent history of community penalties partnership work cognitive behavioural approaches to changing offenders behaviour and the need to look beyond these compliance theory accountability to the public and to the victim accommodating difference and diversity in the delivery of community penalties the use of technology in community penalties and community penalties and issues of public safety Community Penalties change and challenges brings together many leading authors in this field Together they provide an authoritative review of a vital field of public policy *Perspectives on Crime Reduction* Tim Hope, 2017-11-22 This title was first published in 2000 The papers in this volume are concerned with the prevention of crime Like other books in the International Library the text is intended primarily for reference by those who need to reflect upon what criminology has had to say about important contemporary concerns of criminal policy The papers present a kind of history of ideas which together trace the emergence of some key components of contemporary thinking about reducing crime *Criminal Policy Making* Andrew Rutherford, 1997 This volume presents a wide ranging collection of critical essays which address aspects of criminal policy A central purpose is to illuminate those processes which determine the shape and direction of criminal policy within liberal and democratic states European Ways of Law Volkmar Gessner, David Nelken, 2007-10-30 Can there be

such a thing as a European sociology of law The uncertainties which arise when attempting to answer that straightforward question are the subject of this book which also overlaps into comparative law legal history and legal philosophy The richness of approaches reflected in the essays including comparisons with the US makes this volume a courageous attempt to show the present state of socio legal studies in Europe and map directions for its future development Certainly we already know something about the existence of differences in the use and meaning of law within and between the nation states and groups that make up the European Union They concern the role of judges and lawyers the use of courts patterns of delay contrasts in penal sensibilities or the meanings of underlying legal and social concepts Still similarities in legal culture are at least as remarkable in societies at roughly similar levels of political and economic development The volume should serve as a needed stimulus to a research agenda aimed at uncovering commonalities and divergences in European ways of approaching the law
