## **Responsibility In Business Issues And Problems:**

Responsibility in Business Blair John Kolasa, 1972      *Current Environmental Issues and Challenges* Giacomo

Cao, Roberto Orrù, 2014-04-29 Few books currently exist that cover such a wide spectrum of topics The chapters dealing with air pollution from mobile sources air pollution and health effects and air quality modelling fall into the air pollution category while the ones related to microalgae for carbon dioxide sequestration biofuels production fuel cells and solar energy technology respectively can be ascribed to the energy topic Several technologies to handle a wide spectrum of environmental pollutants are taken into account in numerous chapters The chapter on biodiversity is clearly related to the conservation issue while the water pollution subject is tackled by the chapter on water quality monitoring Finally a general analysis on green business as well as a chapter on grid cloud computing technology for collaborative problem solving and shared resources management conclude the work Because of its breadth of coverage this book is particularly useful as a graduate text

**Contemporary Issues in Business Ethics** Mary W. Vilcox, Thomas O. Mohan, 2007 Business ethics is a form of the art of applied ethics that examines ethical rules and principles within a commercial context the various moral or ethical problems that can arise in a business setting and any special duties or obligations that apply to persons who are engaged in commerce Business ethics can be both a normative and a descriptive discipline As a corporate practice and a career specialisation the field is primarily normative In academia descriptive approaches are also taken The range and quantity of business ethical issues reflects the degree to which business is perceived to be at odds with non economic social values Historically interest in business ethics accelerated dramatically during the 1980s and 1990s both within major corporations and within academia For example today most major corporate websites lay emphasis on commitment to promoting non economic social values under a variety of headings e g ethics codes social responsibility charters In some cases corporations have redefined their core values in the light of business ethical considerations Catching business ethics in action however remains a seldom spotted nugget for in reality it depends on the characters of the characters

*Sustainability Challenges and Solutions at the Base of the Pyramid* Prabhu Kandachar, Minna Halme, 2017-09-08 Around the turn of the millennium it had become painfully evident that development aid charity or global business as usual were not going to be the mechanisms to alleviate global poverty Today there is little dispute that poverty remains the most pressing global problem calling for innovative solutions One recent strategy is the Base of the Pyramid BoP concept developed by Prahalad and Hart which relies on entrepreneurial activity tapping into the previously ignored markets of the economically most disadvantaged It is a process requiring innovations in several disciplines technological social and business This book covers a number of areas First much of the current BoP discussion emphasises targeting products to the needs of the poor But do we actually know what the real needs of the poor are This book takes a bottom up human centred approach and examines examples that truly engage the poor in BoP product and service development What types of needs assessment methodologies are indicated

considering the cultural differences in BoP countries Are the existing methodologies adequate Do they need to be redefined and redeveloped Second the book considers how we can balance poverty alleviation and stimulate economic growth without stressing the ecosystem Tragically the poor are hardest hit by the adverse effects of environmental deterioration such as water shortages climate change or the destruction of habitats While the economic welfare of the poor is critical the BoP approach must balance its inherent paradox of encouraging greater consumption while avoiding further pressures on environmental sustainability The link between the BoP approach and sustainable development is a key feature of this book Third it looks at innovation and asks what kinds of bottom up innovation open source technological social and business support BoP initiatives and sustainable development Fourth the book deals with the relationship between development assistance and BoP Is a BoP strategy the antithesis to development aid or can these two co exist or even complement each other Finally the book raises questions about the relationship between corporate responsibility and BoP Is BoP a new form of corporate neo colonialism or a new form of corporate responsibility Although the BoP concept has unleashed an extensive and generally enthusiastic response from academics businesses NGOs and governments the knowledge domain around this concept is still in the early stages of development This book addresses that need with a focus on the needs of the end users the poor as a starting point for BoP products and innovations With contributions from both supporters and critics it provides a treasure trove of global knowledge on how the concept has developed what its successes and failures have been and what promise it holds as a long term strategy for alleviating poverty and tackling global sustainability

**Challenges in Economic Policy, Business and Management in the COVID-19 Era** Anna Ujwary-Gil,Bianka Godlewska-Dzioboń,2022-01-01 The COVID 19 pandemic has made it necessary to redefine the most significant challenges faced by individual economies and society today It contributed to the change of contemporary social technological and economic trends the effects of which will indeed be the subject of many scientific studies in the coming years As the pandemic progresses it promotes reflection and summaries of the consequences of behaviors or omissions in each country One of them is a synthetic presentation of ten lessons from the pandemic Gorynia 2021 which the professor accurately diagnoses in the economic context 1 the pandemic as a non economic sanitary medical shock that caused the economic social

and political crisis 2 the pandemic as a black swan an unpredictable threat of high species gravity but requiring anticipation to minimize its harmful effects in the future 3 determining the causes of the appearance of the virus determines different preventive actions for future threats 4 resilience as the foundation of long term economic efficiency 5 the set of measures to counteract the harmful effects of a pandemic should not be unified but adapted to the specificity of the facilities it is to affect 6 the world economy as a system of vessels connected with its positive and negative consequences 7 the pandemic highlighted the role of coordination of international cooperation the shortcomings of globalization must be overcome by fairly sharing the positive fruits of international cooperation and resilience aimed at diversifying supplies 8 economic policy pursued by individual states with a view to preventing the effects of the economic crisis caused by a pandemic cannot be voluntary 9 the pandemic has sharpened the perception of the shortcomings of contemporary economic social and political systems and prompts the questioning of certain pillars of the market economy e g homo oeconomicus individual and global rationality private and state property canons of monetary fiscal budgetary or industrial policy 10 the pandemic increases the pressure on systemic and holistic thinking taking into account green economic development saving energy water and other resources using renewable energy sources avoiding wastage of resources paying attention to social inequalities in the world regions and countries solving poverty problems and social exclusion This monograph is partially a response to the in depth issues covered in these lessons The authors of individual chapters challenge contemporary topics relating to the COVID 19 pandemic industry and inter organizational cooperation pro environmental resilient and innovative organizations The monograph consists of three parts The first part PART 1 covers an overview of very recent research considering the impact of COVID 19 on the economy industries and business The article by Anna Ujwara Gil and Bianka Godlewska Dziobo deals with among others the issues relating to pandemic impacts on the slowdown in the functioning of the construction electric automotive and water industries Also it affects the tourist industry where countries are starting to pay attention to the resource saving green economy and problems of professional exclusion in the pandemic era In another article Maria Czech refers to the influence of public debt on the volatility of spreads during the COVID 19 pandemic This research is part of the study on the use of sovereign credit default swap spreads to assess a country s credit risk which may be distorted in a pandemic period It is undisputed that the COVID 19 pandemic has a global dimension The crisis resulting from disorders such as in value chains has caused industry to slow down The Czech luxury fashion industry is no exception As Radka MacGregor Pelik nov points out COVID 19 has turned out to be a threat to its development Leading Czech luxury fashion companies withdrew to a passive role and felt the negative consequences of the pandemic As the Author points out few have engaged in corporate social responsibility and showed ingenuity which increases their chances of survival in the future In other studies Tereza Hor kov and Kate ina Mar kov identified factors influencing the environment of effective knowledge exchange in SMEs which in the era of hybrid work during COVID 19 is particularly important The second part of the

monograph PART 2 includes two studies on the photovoltaic cell industry in China from the perspective of comparative and intra industry advantage As a significant player in the global trade scene and various value chains China is a fascinating subject of research undertaken by Pawe Brusilo and Bogus awa Drelich Skulska The results of the first article demonstrate the success of the Chinese industry in terms of growth potential competitiveness and development opportunities thanks to effective state support and favorable market forces As the authors point out the Chinese solar cell industry has not been studied so far in the context of comparative advantage and the new structural economy The results show the way for other countries to consider or develop innovative industries such as renewable energy and solar energy In the second article Pawe Brusilo examines the topic of the Belt and Road Initiative in the context of the Chinese photovoltaic cell industry energy transition policy identification of modern intra industry trade patterns and opportunities for this industry which is characterized by significant state interventionism The considerations in this article may inspire EU countries to deepen economic and trade cooperation in the export and import of solar cells with China On the other hand Joanna Kurowska Pysz has undertaken the analysis of the cooperation conditions within the innovative processes of representatives of science business the legislative and economic environment cooperating on the capital market The Author focused on the motivators barriers but also the search for an effective form of development of intersectoral cooperation enabling the exchange of knowledge and experience learning including the flow of personnel between sectors joint organization of conferences seminars training and implementation of research projects constituting the basis of innovative processes or the diagnosis of network relationships The model proposed by the Author will surely inspire other researchers The third part of the monograph PART 3 includes articles referring inter alia to the pro environmental organizational culture of enterprises Katarzyna Piwowar Sulej as an advocate of this valuable orientation today has shown that organizations are interested in developing pro ecological behavior and are aware of their impact on the natural environment The article is in line with the global trend focused on the sustainable ecological and green economy enterprises operating in this trend not only because of COVID 19 Taking action to develop a pro ecological organizational culture taking care of the natural environment is not only a moral and ethical requirement but also an obligation for the future generation This part also includes an article by Piotr Tomszys and Bartosz Grucza who present an inspiring model of organizational resilience and an attempt to operationalize it The organizational resilience model proposed by the Authors is in line with the growing interest in the analyzes and measurement of the enterprises resilience The conceptualization and measurement of economic resilience can inspire other researchers to further research in this area The COVID 19 pandemic as an unpredictable and destructive shock might be a unique opportunity to verify the developed model as the authors point out The last article deals with the issue of innovative management and its measurement based on a proprietary tool developed by Magdalena Gorzelany Dziadkowiec The considerations undertaken by the Author are a reliable starting point for further research concerning the impact of COVID 19

on the organization's functioning the development of innovative management changes in work processes and interpersonal relations in the era of increasingly dominant digital technology and skills to use it The editors profoundly thank all the Authors for their valuable contribution to this monograph and cooperation in its co-creation We address our grateful thanks to all the Reviewers for their insightful evaluation and high standards of their work These special thanks go to in alphabetical order Barbara B aszczyk Institute of Economics Polish Academy of Sciences Justyna Bugaj Jagiellonian University Anna Fornalczyk COMPER Fornalczyk and Wsp Inicy Marta Gancarczyk Jagiellonian University Anna Maria Lis Gdańsk University of Technology Andrzej Lis Nicolaus Copernicus University Mieczysław Morawski Warsaw University of Technology Paweł Pisany Institute of Economics Polish Academy of Sciences Natalia R Potoczek Institute of Economics Polish Academy of Sciences We also thank Paweł Japo for his thorough proofreading of this monograph

**Strategic Corporate Social Responsibility** Debbie

Haski-Leventhal, 2025-09-10 In today's world being the best in the world is no longer enough. Businesses are now expected to be the best for the world socially and environmentally responsible, sustainable and ethical. This updated edition of Strategic Corporate Social Responsibility offers a comprehensive approach to CSR, presenting key concepts, theories and practical tools for real world application. The book is divided into three parts: theoretical background, CSR approaches and implementation, and measuring and communicating CSR. New to this edition is a chapter on social and global issues along with three new case studies from Africa, Asia and Latin America. The content has been extensively revised, adding summary questions at the end of each chapter and highlighting cutting edge technology including AI, machine learning, virtual reality and blockchain. Featuring case studies from globally recognized brands like Ben Jerry's, Google, H&M and Unilever, this book is an essential resource for students on Corporate Social Responsibility modules. Debbie Haski-Leventhal is Professor of Management at Macquarie Business School and an expert on corporate social responsibility, CSR, responsible management education, RME and volunteerism. Detailed updates for the 3rd edition. Nearly half the book is rewritten. The book is restructured for a better flow as are many of its chapters. It now has many new images and figures too. New cases from outside the US such as Fairphone, The Netherlands, Sony Japan and Lush, The UK and many new mini cases from around the globe including Egypt, Bangladesh and China. A new and more holistic definition of Strategic CSR with six original components. An emphasis on how cutting edge technologies such as AI, machine learning, virtual reality and blockchains can serve responsible and sustainable business. Each chapter now ends with summary questions that be used in class or for assessment. A new and powerful Foreword by Professor David Cooperrider, a CSR leader and the father of appreciative inquiry and several new endorsements. Additional exercises and questions for interactive learning together with revised online materials such as a teaching guide and PowerPoint presentations. Updated references and links after each case study and chapter with up to date literature and thinking.
