## **Responsibility First Facts:**

Blame D. Justin Coates, Neal A. Tognazzini, 2012-12-27 One mark of interpersonal relationships is a tendency to blame But what precise evaluations and responses constitute blame Is it most centrally a judgment or is it an emotion or something else Does blame express a demand or embody a protest or does it simply mark an impaired relationship What accounts for its force or sting and how similar is it to punishment The essays in this volume explore answers to these and other questions about the nature of blame but they also explore the various norms that govern the propriety of blame The traditional question is whether anyone ever deserves to be blamed but the essays here provide a fresh perspective by focusing on blame from the blamer's perspective instead Is our tendency to blame a vice something we should work to replace with more humane ways of relating or does it rather lie at the very heart of a commitment to morality What can we legitimately expect of each other and in general what sort of attitude do blamers need to have in order to have the standing to blame Hypocritical or self-righteous blame seems objectionable but why The contributions to this volume aim to give us a fuller picture of the nature and norms of blame and more generally of the promises and perils of membership in the human moral community
