James McKnight, 1979 *Driver Licensing: Revised Edition* Lois Flynn, 1979 **Manpower Development: Education and Training. Revised Edition** William Eugene Tarrants, 1980 *Integrated Safe Driving Information System Development: Final report* A. James McKnight, 1979 *Traffic Safety Digest* , 1999 **The Southern Subculture of Drinking and Driving** Julian B. Roebuck, Komanduri S. Murty, 2021-12-24 First published in 1996 The Southern Subculture of Drinking and Driving is part of the Criminal Justice series Volumes in the Current Issues in Criminal Justice series focus on scholarship original thought and research and readability This one is no different Julian B Roebuck and Komanduri S Murty have produced a volume that will be of vital interest to those who study and create policy on drunken driving one of the more enduring social problems of the past two decades The volume has two major components that make it unique in the drunken driving literature First Roebuck and Murty focus on drunken drivers themselves and through the use of a large dataset add to our knowledge of that group of people by describing their characteristics Second and perhaps more important Roebuck and Murty delve into the phenomenology of the drunken driver through a lengthy interview process Driver Licensing: a Bibliography L. Flynn (comp), 1976 **Ethical Excellence** Heidi M. Giebel, 2020-11-24 Why do some people achieve ethical excellence while others fail For example how did Gloria Lewis overcome a lifetime of difficulty and go on to found a non profit focused on feeding the homeless while Danny Starrett despite a seemingly ideal childhood became a rapist and murderer Why did some Germans rescue their Jewish neighbors while others stood by One recent study found that four personal variables taken together differentiated Nazi era bystanders from rescuers with startling 96 1% accuracy social responsibility altruistic moral reasoning empathic concern and risk taking traits related to ethical excellences virtues like justice benevolence and courage Drawing from the combined wisdom of classical Socratic and Confucian philosophy recent work in psychology and the lived experience of recognized moral heroes the book focuses on how each of us can work toward ethical excellence becoming more like Lewis and neighbor rescuers than like Starrett and Nazi era bystanders The ancient Socratic and Confucian philosophical traditions offer surprisingly sophisticated advice regarding moral education Because research in psychology helps us assess the feasibility of cultivating virtue in ourselves and those we influence Ethical Excellence focuses on combining sound philosophical analysis of ethical virtue and related concepts with relevant empirical research on how

these concepts are manifested and developed in everyday practice Willpower for example contributes to development of temperance or moderation grit relates to perseverance and empathy is connected to benevolence Finally the study of ethically exceptional people moral heroes or exemplars serves as living proof that ethical excellence is possible and exemplars can provide inspiration to attempt it ourselves and guidance regarding how to do so successfully Relevant stories and excerpts from the author s own interviews with award winning ethical exemplars complement the use of philosophical virtue theory and psychological research on virtue relevant practice Together these three approaches philosophy psychology and biography help to triangulate ethical excellence and its achievement presenting a much clearer and more complete picture than we can get from any one of these methods alone
