[The Competency Restoration Handbook](#) Laura M. Grossi,2025-09-12 This handbook is a collection of foundational materials for competency restoration providers who work with adult pretrial defendants in the U S We first describe the legal context related to adjudicative competence and provide an overview of foundational competency restoration practices We expand upon these foundational resources by explaining how various clinical interventions can be adapted to help restore individuals to competency We attempt to explain and model a holistic multidisciplinary interdisciplinary and culturally conscious approach to restoration Covering empirically informed theoretical and creative approaches that can be individualized for each specific defendant we aim to encourage and facilitate best practices in competency restoration The reader is encouraged to adopt the interventions illustrated within the scope of their professional competencies to address defendant specific barriers to adjudicative competence Unfortunately there is still very little outcome research on the utility of incorporating these and other clinical approaches in competency restoration Competency restoration providers are encouraged to consider adapting other
