Powell, 2023-05-18 Lisa D Powell strengthens and amplifies the claim that God is disabled made by Nancy Eiesland in her ground breaking book The Disabled God 1994 She offers an alternative understanding of the doctrine of God and the Trinity resulting in a God who is not autonomous and utterly independent According to this view God's triune identity is established

in God's decision for covenant and thus creation is a requirement for the fulfillment of God's nature not only is the Son always anticipating full embodiment and human nature but more specifically is eternally anticipating an impaired body Powell argues that God is not only interdependent within the immanent Trinity but God experiences real dependency risk and vulnerability from God's original self determination Powell revisits Eiesland's claim about Christ's resurrected body and her conclusions about eschatological embodiment arguing that it is the able body that does not persist eschatologically but all humanity journeys toward ever more transparency vulnerability and interdependency as the Body of Christ Resurrection from Hell Lewis Tagliaferre, 2019-12-20 This book is a memoir of one Christian man's struggle to survive the ultimate form of suffering when he realized it was God causing his suffering After growing beyond the lifestyle of his immigrant parents his life collapsed watching his wife die untimely at age fifty two Death of a spouse is rated the highest stressor on the Holmes Rahe scale of stress a primary predictor of pending illness related to losses and other life changes Although the resulting grief is considered to be a normal human reaction it can be life threatening Unless you have watched your spouse die it is almost impossible to explain in words how it makes you feel When the traditional faith of his family provided no comfort he searched for a new belief that could make life worth living when it seemed there was no reason to go on Although he was a deacon and Sunday school teacher this widower had to reach beyond the church to find a pathway through depression to serenity and contentment when his traditional life was destroyed In our culture widowers are expected to absorb their loss and to go on with life as though nothing happened He wants readers to know that something great happened and how it changed his life His struggle to live when life was not worth living led him through career challenges loves and losses on the way to discovery of a new belief system that accommodates the world as it is His journey to recovery may be unusual and his conclusion may be shocking but it could help other widowers to know there can be resurrection from New Paradigm Shifts in Literature through Poetry's Transcendence of Boundaries Yasser K. R. hell Aman, 2025-03-05 This book proves that when science and literature especially poetry enact and interact with each other transdisciplinary fields are created and new knowledge building practices are produced. The discussions of interconnections between poetry on the one hand and physics biology biochemistry and pharmacology on the other hand stress that common ground can be found among diverse disciplines and transdisciplinary solutions can be offered to wicked problems The relation between science and transdisciplinarity and other knowledge systems including arts and literature should be supported Novel thinking mixing and merging disciplines creating a third space and realizing new findings should relate academy to society Therefore researchers and transdisciplinarians should focus on the power that can reshape the world transcending traditional academic confines Raising questions that can lead to deeply philosophical and scientific disputes develops solutions for wicked problems and creates an ongoing encounter on all solutions There should be a remapping of societal landscape so that transdisciplinarity yields fruitful results and leaves a formative impact on every aspect of life
