**The Duel** Giles Hunt,2008-01-30 The fateful duel of 1809 between Lord Castlereagh and George Canning is one of the great puzzles of 19th century British politics What made these two titans of the political scene close colleagues and both highly effective members of the Cabinet draw arms against each other Canning was Foreign Secretary while Castlereagh was Secretary of State for War and the Colonies what were they thinking on that ominous morning and what was important enough to provoke two Cabinet ministers to such extraordinary behaviour This detailed history of the famous duel is the first to examine fully the careers of these two great men and the political conflicts that brought them to fire shots at each other on Putney Heath Drawing on previously overlooked private papers Giles Hunt traces what happened on that eventful day and its consequences for British politics Castlereagh is traditionally depicted as an old fashioned Tory reactionary Canning as a brilliant but ambitious liberal The Duel analyses how much truth there is in these descriptions and examines the roots of the political and personal rivalry which led these two men to face each other with pistols early in the morning of 21st September 1809 in one of the strangest and most significant duels of history

**The Sciencebook** Matthias Delbrück,2008 A comprehensive visual reference offering facts from all major fields of science is organized into six sections the universe planet Earth biology chemistry physics and mathematics and includes timelines sidebars and cross references Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 ,2003 Watching Sport Stephen Mumford,2013-03-01 Do we watch sport for pure dumb entertainment While some people might do so Stephen Mumford argues that it can be watched in other ways Sport can be both a subject of high aesthetic values and a valid source for our moral education The philosophy of sport has tended to focus on participation but this book instead examines the philosophical issues around watching sport Far from being a passive experience we can all shape the way that we see sport Delving into parallels with art and theatre this book outlines the aesthetic qualities of sport from the incidental beauty of a well executed football pass to the enshrined artistic interpretation in performed sports such as ice skating and gymnastics It is argued that the purist literally sees sport in a different way from the partisan thus the aesthetic perception of the purist can be validated The book moves on to examine the moral lessons that are to be learned from watching sport depicting it as a contest of virtues The morality of sport is demonstrated to be continuous with rather than separate from the morality in wider life and so each can inform the other Watching sport is then recognized as a focus of profound emotional experiences Collective emotion is particularly considered alongside the nature of allegiance Finally Mumford considers why we care about sport at all Addressing universal themes this book will appeal to a broad audience across philosophical disciplines and sports studies **4-H Suggestions** West Virginia University.
