Retailing Management Tenth Edition highlights the many ways the retail industry has transformed and evolved over the past four years. This text is the only retail management educational product in the market that offers a premium digital content companion McGraw Hill Connect to provide best in class training. In keeping with its market leading tradition, this tenth edition focuses on key strategic issues with an emphasis on financial considerations and implementation through merchandise and store management. Strategic and tactical issues are examined for a broad spectrum of retailers, both large and small, domestic and international, selling both merchandise and services. In preparing this edition, the authors focused on five important factors that delineate outstanding retailers: The use of big data and analytical methods for decision making; The application of social media and mobile channels for communicating with customers and enhancing their shopping experience; The issues involved in providing a seamless multichannel experience for customers; The engagement in the overarching emphasis on conscious marketing and corporate social responsibility when making business decisions; The impact of globalization on the retail industry. This edition builds on the basic philosophy of the previous editions but every example, fact, and key term has been checked, updated, or replaced to ensure that this cutting edge product remains up to date. Because the authors realize that retailing is taught in a variety of formats, a comprehensive supplemental package for instructors is provided as well as a comprehensive online instructor's manual with additional cases and teaching suggestions. In keeping with the authors' goal of providing a good read for students, the conceptual material continues to be supported with interesting, current, real world retailing examples. To facilitate student learning, the presentation has been streamlined both visually and pedagogically. For example, based on reviewer comments, the chapters on human resource management and store management have been combined. The unique features of McGraw Hill's Connect support students and offer instructors a proven, effective, and expedient path to engaging and educating their students. New to This Edition: Introductory vignettes provide an example of how a stellar retailer can be particularly successful by excelling in the subject area for that particular chapter. Retailing views provide new and updated stories that describe how particular retailers deal with the issues raised in each chapter. New cases highlight concepts and theories. A regularly updated blog contains relevant in-the-news content related to the course material, summaries, and discussion questions of recent retailing articles, all of which are associated with specific chapters so that instructors can use them to stimulate class discussion. Graphics in each chapter provide critical, up-to-date information and lively visuals; almost all of the photos are new to this edition. Multimedia content, such as videos, simulations, and games, drive student engagement and critical thinking skills. Instructors and students gain practical experience by applying the concepts and theories using the Get Out and Do It features at the end of each chapter.

these exercises suggest projects that students can undertake by visiting local retail stores or surfing the Internet Continuing assignment exercise engage students in an exercise involving the same retailer throughout the course to provide a hands on learning experience Retailing- Integrated Retail Management 4e Color Paperback Denise Ogden,Jones,2022-04-13

Retailing Patrick M. Dunne,Robert F. Lusch,David A. Griffith,2002 This 4th edition of Retailing like much of retailing itself has undergone significant changes from prior editions We have added many new and exciting features but still kept the writing style conversational In fact given the influence of the Internet the continuing growth of the service industry and the many changes in the world s economic systems there has never been a more exciting time to study Retailing As a result every chapter of this edition features boxes covering these three topics in addition to the in depth coverage within the text that you the reader have come to expect Each chapter also has a fourth box that provides the reader with the Inside Story behind some recent retailing activity As a result we believe that students and instructors will like this edition even more than they did the highly successful first three editions A major contributor of the new ideas in this edition is our new co author Professor David Griffith Dr Griffith s interests and insights into e tailing and the global retailing environment helped provide new focus for the text We also believe that the students will appreciate his youthful insight into the world of retailing And if you happen to see a lot of Disney in this text its attributable to David a self proclaimed Walt Disney junkie who has visited every Disney theme park throughout the world
