## **Rethinking The School Curriculum Values Aims And Purposes:**

*Rethinking the School Curriculum* John White, 2004 In 2000 the school curriculum in England was equipped with an extensive set of aims and purposes directed at eliminating the widespread dissatisfaction at the content of the school curriculum Here experts examine the significance of the aims for the reform of the curriculum *Rethinking the School Curriculum* John White, 2004 In 2000 the school curriculum in England was equipped for the first time in the country's history with an extensive set of aims and purposes In this book leading experts in the teaching of school subjects examine the significance of the new aims for the reform of the curriculum In two general introductory chapters John White discusses the validity of the aims and how they might be realized in schools The remainder of the book focuses on subject specific areas and how these need to be brought into line with the new aims so as to produce a more relevant and enjoyable curriculum experience *Rethinking the School Curriculum* John White, 2004 In 2000 the school curriculum in England was equipped for the first time in the country's history with an extensive set of aims and purposes In this book leading experts in the teaching of school subjects examine the significance of the new aims for the reform of the curriculum In two general introductory chapters John White discusses the validity of the aims and how they might be realized in schools The remainder of the book focuses on subject specific areas and how these need to be brought into line with the new aims so as to produce a more relevant and enjoyable curriculum experience for pupils including more opportunities for choice of activities The book concludes with suggestions about how government policy on the curriculum should now succeed This portrayal of the school curriculum today and how it could be developed in line with the new aims will be of interest to those studying education with a particular focus on the areas of curriculum assessment school management philosophy of education and the history of education

**Understanding the School Curriculum** Alex Moore, 2014-08-13 At a time of rapid social change and numerous policy initiatives there is a need to question the nature and function of school curricula and the purposes of formal public education Comparing curriculum developments around the globe *Understanding the School Curriculum* draws on a range of educational philosophical and sociological theories to examine the question What is a curriculum for In considering different answers to this fundamental question it explores a range of topical issues and debates including tensions and dynamics within curriculum policy The implications of uncertainty and rapid social change for curriculum development the positive and negative influence of free market ideologies on public education the impact of globalization and digital technologies arguments for and against common core curricula and state control It examines the possibility of a school curriculum that is not shaped and monitored by dominant interests but that has as its founding principles the promotion of responsibility responsiveness a love of learning and a sense of wonder and respect for the natural and social world *Understanding the School Curriculum* is for all students following undergraduate and Masters courses in curriculum public policy and education related subjects It is also for all training and practising teachers who wish to combine a deeper

understanding of major curriculum issues with a critical understanding of the ways in which ideologies impact on formal state education and to consider ways of producing school curricula that are appropriate to the times we live in Learning to Teach in the Secondary School Susan Capel, Marilyn Leask, 2007-04-11 This best selling textbook offers a sound and practical introduction to the skills needed to gain Qualified Teacher Status and will help student teachers to develop the qualities that lead to good practice and a successful future in education

**The Re-emergence of Values in Science Education** Deborah Corrigan, Justin Dillon, Richard Gunstone, 2007 Issues relating to values have always had a place in the school science curriculum Sometimes this has been only in terms of the inclusion of topics such as the nature of science and or scientific method and or particular intentions for laboratory work that relate to scientific method sometimes it has been much broader for example in curricula with STS emphases Of importance to aspects of this proposal is that different countries cultures have had different traditions in terms of the place of values in the school science curriculum One obvious very broad difference of this form is the central place in science education thinking in many European countries of *bildung* and the complete absence of this construct from most science curriculum thinking in English speaking contexts There are numbers of such country cultural differences In the 1990s many countries moved towards various conceptualizations of Outcomes Based Education OBE sometimes so labelled and sometimes not It was usual but not universal for OBE focused science curricula to have constrained views of the values that should be implicit and explicit in curriculum that is views concerned only with the nature of science and scientific method both usually seen as quite unproblematic Currently there are a number of education systems that are changing again and choosing to move away from Outcomes Based Education for example South Africa and several Australian states One of the most interesting features of many of these movements is the re embracing of a wider view of the science curriculum including a reconsideration of the nature and place of the values associated with science in the purposes for and approaches to science education
