Faubion, 2018      *Rethinking The Subject* James Faubion, 1995-01-09 Since the early 1970s European thinkers have departed notably from their predecessors in order to pursue analytical programs more thoroughly their own *Rethinking the Subject* brings together in one volume some of the most influential writings of Foucault Habermas Bourdieu Pizzorno Macfarlane and other authors whose ideas have had a worldwide influence in recent social history The anthology is testament to the central importance of three contemporary themes each familiar to earlier thinkers but never definitively formulated or resolved The first two concern the nature and modalities of power and legitimacy in society The third and most fundamental deals with the nature and modalities of the self or subject These themes owe their special contemporary relevance to an array of events from the collapse of colonialism to the birth of test tube babies James Faubion's introduction traces the historical context of these influential events and themes It also traces the lineaments of a still inchoate intellectual movement of which the writers included in this anthology are the vanguard      **Rethinking The Subject**

**Breaking Intersubjectivity** Vivienne Matthies-Boon, 2023-02-13 Trauma is commonly understood as Post Traumatic Stress Disorder (PTSD). Yet as this book explains, the concept of PTSD is problematic because it is rooted in a solipsist philosophy of the Subject Within. Such a philosophical perspective is not only impossible to account for trauma's causality but the traumatic event is also prioritised over traumatic social and political structures as trauma is depoliticised as an individual internal cognitive object. Rooted in Frankfurt School critical theory, this book thus urges us to rethink the concept of trauma: trauma should not be understood as impaired subjectivity but rather as broken intersubjectivity. Hence it not only presents a critique of the notion PTSD but drawing on the philosophies of Jürgen Habermas, Nancy Fraser, Rahel Jaeggi and Heideggerian trauma theory, in particular, it argues that trauma entails the violent imposition of traumatic status subordination. In traumatic status subordination, intersubjective parity, the counterfactual presupposition of being treated as an equal human being, is so violently betrayed that the symbolic realm of the lifeworld collapses. As the lifeworld collapses, one suffers an atomized state of speechless disorientation wherein the potential of creative collective becoming is destroyed. In this sense, human-induced trauma should thus be understood as a political tool par excellence. As this monograph indicates, traumatic status subordination was a tool which the Egyptian counter-revolutionary actors, consisting of the Egyptian military and its temporary subsidiary, the Muslim Brotherhood, used unsparingly as they attempted to put the revolutionary genie back into the bottle. Importantly, the Egyptian military not only sought to destroy the object of revolutionary politics but rather the underlying existential structures of the possibility of its very existence as such. And thus, in the violent instrumental pursuit of economic and political power, the counter-revolution inflicted multileveled status subordination. It did so through a consistent tripartite structural mechanism: the infliction of grave deadly violence, the procedural colonisation and repressive juridification of the public sphere, and the acceleration of neoliberal economic rationalism. This not only accumulated in Sisi's prisonification of society and his politics of death but rather also threw activists ever deeper into an atomized state of demoralized silence as it destroyed the very potential of revolutionary and transformative becoming.

**A Sociological Phenomenology of Christian Redemption** Paul Gilfillan, 2014-11-03 Despite much of the world's attention turning to Scotland in 2014 in the year of its Independence Referendum, this is the only ethnographic study of Scottish nationalism to have appeared so far. Based upon over fifteen years

of research in a particular locality the author not only gives the reader an intimate portrait of the relations between class and national identity in contemporary Scotland but provides an intimate description of a particular Scottish locality from 1999 to 2014 This patient ethnographic study also gives an account of how the sociological imagination is indispensable in the task of integral liberation as it models how empirical sociological study can give an account of human beatitude and ultimately answer the question of transcendence and integrates with the Christian tradition This book then attempts to state the full significance of Scottish nationalism upon the basis of a full or integral account of fully contextualised Scottish human being and in succeeding in this ambitious endeavour the author has produced a remarkable book that deserves the attention of students of the social sciences and theology alike

**Colin Sumner** David Moxon,2020-01-28 This book explores the work of criminologist Colin Sumner It re presents his arguments and ideas on Marxism ideology censure deviance crime underdevelopment social control and the media situating them in their wider social context Moxon argues that Sumner should be restored within the criminology discipline as a pioneer who has produced works of great theoretical sophistication and insight By systematically considering Sumner s entire output the book shows how his thought involved a gradually deepening understanding of his core notion of ideological censure His writing is also marked by a growing unease with the effects of late modern capitalism and the quagmire of censoriousness rife in the 21st century This book makes clear that Sumner s work was remarkably prescient and his ideas may help up to make sense of complicated times
