Favret, Nicola J. Watson, 1994 Examines the feminine the domestic the local collective sentimental and novelistic in the Romantic literary canon This book questions romanticism suppression of the feminine the material and the collective and its opposition to readings centering on these concerns **The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives** Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate **Romanticism** Carmen Casaliggi, Porscha Fermanis, 2016-05-12 The Romantic period coincided with revolutionary transformations of traditional political and human rights discourses as well as witnessing rapid advances in technology and a primitivist return to nature As a broad global movement Romanticism strongly impacted on the literature and arts of the late eighteenth and early nineteenth centuries in ways that are still being debated and negotiated today Examining the poetry fiction non fiction drama and the arts of the period this book considers Important propositions and landmark ideas in the Romantic period Key debates and critical approaches to Romantic studies New and revisionary approaches to Romantic literature and art The ways in which Romantic writing interacts with broader trends in history politics and aesthetics European and Global Romanticism The legacies of Romanticism in the twentieth and twenty first centuries Containing useful reader friendly features such as explanatory case studies chapter summaries and suggestions for further reading this clear and engaging book is an invaluable resource for anyone who intends to study and

research the complexity and diversity of the Romantic period as well as the historical conditions which produced it *New Historical Literary Study* Jeffrey N. Cox, Larry J. Reynolds, 2021-07-13 This volume growing out of the celebrated turn toward history in literary criticism showcases some of the best new historical work being done today in textual theory literary history and cultural criticism The collection brings together for the first time key representatives from various schools of historicist scholarship including leading critics whose work has helped define new historicism The essays illuminate literary periods ranging from Anglo Saxon to postmodern a variety of literary texts that includes *The Siege of Thebes* *Macbeth* *The Jazz Singer* and *The Chosen Place the Timeless People* and central issues that have marked new historicism power ideology textuality othering marginality exile and liberation The contributors are Janet Aikins Lawrence Buell Ralph Cohen Margaret Ezell Stephen Greenblatt Terence Hoagwood Jerome McGann Robert Newman Katherine O Keeffe Lee Patterson Michael Rogin Edward Said and Hortense Spillers The editors introduction situates the various essays within contemporary criticism and explores the multiple contestatory issues at stake within the historicist enterprise *The Truth about Romanticism* Tim Milnes, 2010-06-03 How have our conceptions of truth been shaped by romantic literature This question lies at the heart of this examination of the concept of truth both in romantic writing and in modern criticism The romantic idea of truth has long been depicted as aesthetic imaginative and ideal Tim Milnes challenges this picture demonstrating a pragmatic strain in the writing of Keats Shelley and Coleridge in particular that bears a close resemblance to the theories of modern pragmatist thinkers such as Donald Davidson and Jürgen Habermas Romantic pragmatism Milnes argues was in turn influenced by recent developments within linguistic empiricism This book will be of interest to readers of romantic literature but also to philosophers literary theorists and intellectual historians ***William Blake and the Productions of Time*** Andrew M. Cooper, 2016-12-05 Challenging the idea that a writer's work reflects his experiences in time and place Andrew M Cooper locates the action of William Blake's major illuminated books in the ahistorical present an impersonal spirit realm beyond the three dimensional self Blake Cooper shows was a formalist who exploited eighteenth century scientific and philosophical research on vision sense and mind for spiritual purposes Through irony dialogism two way syntax and synesthesia Blake extended and refined the prophetic method Milton forged in *Paradise Lost* to bring the performativity of traditional oral song and storytelling into print Cooper argues that historicist attempts to place Blake's vision in perspective as opposed to seeing it for oneself involve a deeply self contradictory denial of his performativity as a poet artist Rather Blake's expansion of linear reading into a space of creative self conscious collaboration laid the basis for his lifelong critique of dualism in religion and science and anticipated the non Euclidean geometrics of twentieth century Modernism ***Beyond Romanticism*** Stephen Copley, John Whale, 2016-04-14 First published in 1992 *Beyond Romanticism* represents a substantial challenge to traditional views of the Romantic period and provides a sustained critique of Romantic ideology The debates with which it engages had previously been under represented in the study of Romanticism where the claims of history had never had quite the same

status as they have had in other periods and where confidence in poetic literary value remains high Individual essays examine the philosophical underpinnings of Romantic discourse they survey analogous and competing discourses of the period such as mesmerism Hellenism orientalism and nationalism and analyse both the manifestations of Romanticism in particular historical and textual moments and the texts and modes of writing which have been historically marginalized or silenced by the Romantic This title will be of interest to students of literature

The Politics of Time Peter Osborne, 2020-05-05 If Aristotle sought to understand time through change might we not reverse the procedure and seek to understand change through time Once we do this argues Peter Osborne it soon becomes clear that ideas such as avant garde modern postmodern and tradition which are usually only treated as markets for empirically discrete periods movements or styles are best understood as categories of historical totalization More specifically Osborne claims such ideas involve distinct temporalizations of history giving rise to conflicting politics of time His book begins with a consideration of the main aspects of modernity and develops through a series of critical engagements with the major twentieth century positions in the philosophy of history He concludes with a fascinating history of the avant garde intervention into the temporality of everyday life in surrealism the situationists and the work of Henri Lefebvre

The Two Romanticisms and other essays William Christie, 2016-06-06 The Romantic period is the most appealing

but also the most confusing period of English literature for the student Crucially this book distinguishes between the Romantic as modern critics use the term and the romantic as it was used during the period itself *The Two Romanticisms and Other Essays* is a collection of critical essays on Romanticism and select Romantic texts designed to help teachers and students to make sense of the period as a whole and of the poems and novels that appear most frequently on school and university curricula Each chapter offers a self contained reading of a different canonical work while engaging with broader themes Through close readings of Jane Austen Lord Byron Samuel Taylor Coleridge John Keats Mary Shelley Percy Bysshe Shelley and William Wordsworth Professor Christie explores the complexities of the Romantic period and offers fresh insights into pivotal Romantic texts *Romanticism, Radicalism, and the Press* Stephen C. Behrendt, 1997 Although literature has traditionally been conceived in terms of a real or implied association with a cultural elite a body of work exists that does not deliberately try to associate itself with that audience that may in fact purposely oppose or resist that audience but which nevertheless exerts a strong influence on what comes to be regarded as literature This work specifically examines the relations that developed among British authors of the Romantic period and the Radical culture whose oppositional discourse both in written text and in extra literary material is one of the most striking aspects of the political and social life of the period The volume broadens the field of materials to include other aspects of writing culture including reviews trial transcripts philological studies propaganda and verbal and visual satire and parody *Sexual Enjoyment in British Romanticism* David Sigler, 2015-03-01 Debates about gender in the British Romantic period often invoked the idea of sexual enjoyment there was a broad cultural concern about jouissance the all engulfing pleasure pertaining to sexual gratification On one hand these debates made possible the modern psychological concept of the unconscious since desire was seen as an uncontrollable force the unconscious became the repository of disavowed enjoyment and the reason for sexual difference On the other hand the tighter regulation of sexual enjoyment made possible a vast expansion of the limits of imaginable sexuality In *Sexual Enjoyment and British Romanticism* David Sigler shows how literary writers could resist narrowing gender categories by imagining unregulated enjoyment As some of the era's most prominent thinkers including Edmund Burke Mary Wollstonecraft Mary Robinson Joanna Southcott Charlotte Dacre Jane Austen and Percy Bysshe Shelley struggled to understand sexual enjoyment they were able to devise new pleasures in a time of narrowing sexual possibilities Placing Romantic era literature in conversation with Lacanian psychoanalytic theory *Sexual Enjoyment in British Romanticism* reveals the fictive structure of modern sexuality makes visible the diversity of sexual identities from the period and offers a new understanding of gender in British Romanticism *Fantastic Modernity* Orrin N. C. Wang, 2000 Focusing on the convergence of Romantic studies and literary theory over the past twenty five years Orrin N C Wang pairs a series of contemporary critics with originary Romantic writers in order to illuminate the work of both the contemporary theorist and earlier Romantic Wang examines Paul de Man's deconstructive use of Percy Bysshe Shelley Jerome McGann's Marxist

inflected appropriation of Heinrich Heine contemporary feminist interpretations of Mary Wollstonecraft and Harold Bloom's pragmatic reading of Ralph Waldo Emerson Through these examinations along with commentary on Keats Jameson Lovejoy and Spitzer Fantastic Modernity attempts a series of new readings of both the theory being used by the various critics and the primary Romantic texts under consideration Historicizing Blake Steve Clark, David Worrall, 2015-12-31 Historicizing Blake puts Blake back into the cultural context of his times These new essays by both established and younger scholars re address Blake's contemporary milieu after the neglect of ten years of post structuralist reader orientated methodology By employing notions of history wider than the purely literary and featuring an important new essay by the period's foremost subcultural historian Iain McCalman Historicizing Blake represents a significant contribution towards the re historicizing of Romanticism **The Challenge of Coleridge** David P. Haney, 2010-11 Interweaving past and present texts The Challenge of Coleridge engages the British Romantic poet critic and philosopher Samuel Taylor Coleridge in a conversation in Hans Georg Gadamer's sense with philosophical thinkers today who share his interest in the relationship of interpretation to ethics and whose ideas can be both illuminated and challenged by Coleridge's insights into and struggles with this relationship In his philosophy poetry theology and personal life Coleridge revealed his concern with this issue as it manifests itself in the relation between technical and ethical discourse between fact and value between self and other and in the ethical function of aesthetic experience and the role of love in interpretation and ethical action Relying on Gadamer's hermeneutics to supply a framework for his approach Haney connects Coleridge's ideas with among others Emmanuel Levinas's other oriented notion of ethical subjectivity Paul Ricoeur's view about the other's implication in the self reinterpretations of Greek drama by Bernard Williams and Martha Nussbaum and Gianni Vattimo's post Nietzschean hermeneutics Coleridge is treated not as a product of Romantic ideology to be deconstructed from a modern perspective but as a writer who offers a challenge to our modern tendency to compartmentalize interpretive issues as a concern for literary theorists and ethical issues as a concern for philosophers Looking at the two together Haney shows through his reading of Coleridge can enrich our understanding of both
