## **Rethinking Technical Cooperation:**

*Rethinking Technical Cooperation* Elliot J. Berg, 1993      **Rethinking Technical Cooperation** Elliot Berg, United Nations Development Programme. Regional Bureau for Africa, Development Alternatives, Inc, 1993 7 Summary and conclusions      Rethinking Socialist Space in the Twentieth Century Marcus Colla, Paul Betts, 2024-06-10 This edited collection explores the problem of space under socialist regimes in the twentieth century Bringing together contributions from international scholars with expertise in the architectural urban social and cultural history of twentieth century socialism the book includes examples from China Africa Mongolia Eastern Europe and the USSR The volume reflects on how developments in the field over the past two decades have altered our understanding of how such spaces were constructed both literally and discursively how they could become sites of contested meanings and how they were perceived outside the socialist world Moreover the volume is concerned with how scholarly approaches associated with post colonialism global history gender history and the temporal and sensory turns have reconfigured our knowledge of and approach to the history of socialist space Chapter 5 Global Bridges Local Ruins Re thinking Socialist Spaces Through the Experience of Non aligned Enterprises is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

The United Nations as a Knowledge System Nanette Svenson, 2015-10-16 This book seeks to explore how the UN has generated warehoused disseminated structured packaged expanded transferred and leveraged its vast resources of accumulated information and experience throughout the decades and particularly since the start of the 21st century with the introduction of more connective information and communications technology It examines the overarching objectives that have guided such activity and divides UN knowledge management into three distinct but often overlapping and intertwining categories knowledge for social and organizational learning knowledge for norm setting and knowledge for creation of products and services Svenson brings together these multiple aspects of UN knowledge management to present a holistic view of how the organization utilizes its global intelligence to educate advocate and serve member countries development Instead of looking at the UN as an international bureaucracy or as a peacekeeping policymaking humanitarian or development entity this work studies the UN as a generator and purveyor of information learning and experience in all of these areas This book will be key reading for all students and scholars of international organizations      **Capacity for Development** Carlos Lopes, Khalid Malik, Sakiko Fukuda-Parr, 2013-06-17 The United Nations system was a pioneer in the field of technical cooperation and capacity development is its central mandate UNDP has long played an important leadership role in both as a source of technical cooperation funds and advisory services and as the home of innovative intellectual research and analysis on how to make them more efficient and effective This book presents a vision that builds on new possibilities for knowledge sharing for which the revolution in information and communications technologies offers ample opportunities a vision that is firmly founded on genuine ownership by the ultimate beneficiaries of development efforts the

government and citizens of developing countries From the Foreword by MARK MALLOCH BROWN Administrator UNDP Capacity for Development brings together innovative and well supported studies of technical cooperation along with its potential to build sustainable capacities in developing countries by enhancing the knowledge skills and productive aptitudes of their populations A team of eminent development professionals and economists examine the achievements of technical cooperation and offer recommendations for reform in the context of globalization democratisation the information revolution and the growth of capacities in the South They analyse the issues from three perspectives ownership capacity enablers and knowledge The team show how the complex processes involved can be restructured to produce local involvement and empowerment set out a normative framework for the input from society and describe a new paradigm of knowledge for capacity building in the network age This book will be essential reading for all development professionals and policy makers as well as providing an invaluable research and teaching resource

**Effectiveness and Reform of the United Nations Development Programme (UNDP)** Stephan Klingebiel,1999 This study is intended as a constructive contribution to the debate on the reform of UN development co operation Perspectives on Agricultural Transformation Thomas S. Jayne,2002

Perspectives on Agricultural Transformation A View From Africa **Foreign Aid: New Perspectives** K. L.

Gupta,2012-12-06 Foreign aid has been an area of active scholarly investigation since the end of the Second World War but particularly since the early 1950s when a large number of the erstwhile colonies became independent Few areas of public policy involving the developed and developing countries have aroused more passion and ideological debate than foreign aid In spite of the massive amount of research in the field there is still not enough work in two areas the first involves the mechanisms through which aid influences the economies of the donor and the recipient countries and the second country specific assessments of the effectiveness of foreign aid Foreign Aid New Perspectives is aimed at making a contribution in these two areas The contents of this volume are divided into four parts Part I deals with some theoretical aspects of foreign aid while the second part analyzes some general policy aspects Part III turns to the donor experience and includes one paper on the Danish experience The last part considers the recipient experience and consists of five case studies **Does Foreign**

**Aid Really Work?** Roger Riddell,2008-08-07 Provided for over 60 years and expanding more rapidly today than it has for a generation foreign aid is now a 100bn business But does it work Indeed is it needed at all In this first ever overall assessment of aid Roger Riddell provides a rigorous but highly readable account of aid warts and all Cold War Anthropologist

Stephanie Baker Opperman,2024 This book explores the changing nature of U S Mexican relations development programs state efforts of assimilation the field of anthropology and gendered experiences in mid twentieth century Mexico through the international work of Dr Isabel T Kelly 1906 1983 **Capacity Development for Improved Water Management** Maarten

Blokland,Guy Alaerts,Judith Kaspersma,Matt Hare,2019-04-30 This collection of papers explains how knowledge and capacity development can contribute to improved effective water management with a digest of lessons learned in the areas of

development of tools and techniques field applications and evaluation The authors are prominent practitioners capacity builders and academics within the water and capacity development sectors Capacity Development for Improved Water Management starts with an introduction and overview of progress and challenges in knowledge and capacity development in the water sector The next part presents tools and techniques that are being used in knowledge and capacity development in response to the prevailing challenges in the water sector and a review of experience with capacity change in other sectors In the third part a number of cases are presented that cover knowledge and capacity development experiences in the water resources and water services sectors This part also presents experiences on water education for children and on developing gender equity The fourth part provides experiences with the monitoring and evaluation of knowledge and capacity building

*The UN and the Bretton Woods Institutions* P. Streeten, M. Ul Haq, R. Jolly, 1995-06-12 The vision of the founders of the United Nations the World Bank and the IMF some fifty years ago contrasts sharply with the often weak and limited performance of the institutions they created The 15 papers in this volume critically assess this record in order to set out proposals for strengthening and restructuring the institutions to meet the new challenges of the 21st century The changes proposed emphasize human security rather than military security poverty eradication gender equity and new international mechanisms to offset growing global inequality **The Semantics of Development in Asia** Jin Sato, Soyeun

Kim, 2024-05-30 This open access book explores Japanese involvement in Asian development through selected development ideas and lexemes that are widely regarded in Japan as untranslatable into other languages Each chapter traces the genealogy of locally nuanced development ideas and lexemes in Japan and the process by which they have spread across Asia and beyond through Japan's development cooperation The Semantics of Development in Asia critically examines the diverse Western and non Western roots of Japanese development ideas and lexemes and their shifting semantics shaped by the ever changing national international political economies and dominant development thinking of different eras The volume contributes to a more pluriversal approach to knowledge production in development studies through its in depth examination of vernacular Japanese ideas This book is useful to researchers students and teachers in the fields of Asian studies development studies and international relations It is also of value to policymakers and practitioners whose professional interests include development cooperation by and with Asian countries **Civil Society and Corruption** Michael

Johnston, 2005 Strong civil societies play a major role in controlling corruption in many societies and reformers agree that citizens both individual and organized should be involved in reform But accomplishing that goal has proven difficult Some civil societies are weak divided and impoverished In others undemocratic regimes dominate through intimidation And in still others development difficulties international debt and misguided aid efforts stop reform before it can begin Too often anti corruption campaigns do not engage social values or attack corruption as people experience it every day This volume based on a yearlong series of events sponsored by Colgate University's Center for Ethics and World Societies analyzes civil society

and corruption from several perspectives and in several parts of the world One section considers corruption as a fact of everyday life a second analyzes techniques and incentives involved in mobilizing civil society and a third provides a unique guide to information resources on corruption and reform

**Strategic Information Technology and Portfolio**

**Management** Tan, Albert Wee Kwan, Theodorou, Petros, 2009-03-31 The objectives of the proposed book are to provide techniques and tools appropriate for building application portfolios and develop strategies that increase financial performance Provided by publisher

**Ownership Leadership and Transformation** Thomas Theisohn, Carlos Lopes, 2013-07-04 The third and final in a series this text bridges the conceptual foundations of capacity development and the difficulties and practical realities in the field It demystifies the process of capacity development to make it more user friendly The book has two parts The first shows how long standing development dilemmas can be turned into opportunities for capacity development and societal transformation It proposes a set of principles to guide the search for context specific approaches as the norm and based on these default principles the authors explore relevant issues in comprehensible stages through a capacity lens The second part is a compilation of experiences and lessons from around the world to showcase promising initiatives and innovative solutions It forms a casebook of insights and good rather than best practices on how development stakeholders can turn development dilemmas into opportunities tailored to the needs of their societies

Problems, Promises, and Paradoxes of Aid J. Oloka-Onyango, Nicolas van de Walle, 2014-11-10 This book is an anthology of essays contributing new scholarship to the contemporary discourse on the concept of aid It provides an interdisciplinary investigation of the role of aid in African development compiling the work of historians political scientists legal scholars and economists to examine where aid has failed and to offer new perspectives on how aid can be made more effective Questions regarding the effectiveness of aid are addressed here using specific case studies The question of ownership is examined in the context of two debates 1 to what extent should aid be designed by the recipient country itself and 2 should aid focus on need or performance That is should donors direct aid to the poorest countries regardless of their policies and governance or should aid reward countries for doing the right thing The future of aid is also addressed should aid continue to be a part of the development agenda for countries in sub Saharan Africa If so how much and what type of aid is needed and how it can be made most effective The major criticism against aid is that it cripples the recipient country's economic growth by turning it into a passive receiver in addition it has been noted that aid is mostly supply driven depending upon donors rather than the actual needs of recipients For this reason aid may not meet the goals for which it was intended To meet the needs of the communities they want to help donors should work through consultation and a measure of recipient ownership Donors need to understand context to protect human rights and to be guided by principles of social and environmental justice Other suggested strategies for making aid more effective include peer review self assessment the empowerment of women encouraging accountability investing in agriculture helping smallholder subsistence farmers introducing ethical and

professional standards for civil service and raising the competence of civil servants      **Aid to Africa** Carol Lancaster,1999-04-15 Foreword by Richard C LeoneAcknowledgements1 Introduction2 Africa So Little Development 3 Aid and Development in Africa4 Foreign Aid The Donors5 The United States6 France and Britain7 Sweden Italy Japan8 The Multilaterals9 FindingsNotesBibliographyIndex Copyright Libri GmbH All rights reserved      The Routledge Handbook of International Resilience David Chandler,Jon Coaffee,2016-11-10 Resilience is increasingly discussed as a key concept across many fields of international policymaking from sustainable development and climate change insecurity conflict and terrorism to urban and rural planning international aid provision and the prevention of and responses to natural and man made disasters Edited by leading academic authorities from a number of disciplines this is the first handbook to deal with resilience as a new conceptual approach to understanding and addressing a range of interdependent global challenges The Handbook is divided into nine sections Introduction contested paradigms of resilience the challenges of resilience governing uncertainty resilience and neoliberalism environmental concerns and climate change adaptation urban planning disaster risk reduction and response international security and insecurity the policy and practices of international development Highlighting how resilience thinking is increasingly transforming international policy making and government and institutional practices this book will be an indispensable source of information for students academics and the wider public interested in resilience international relations and international security      Climate Change 1995: Economic and Social Dimensions of Climate Change Hoe-sŏng Yi,Intergovernmental Panel on Climate Change. Working Group III.,1996-06-27 The consequences of climate change for society are analysed in this landmark assessment from the IPCC This book assesses the available knowledge on the many issues that society has to face including the international decision making framework applicability to climate change of techniques for assessing costs and benefits the significant social costs of projected climate change and the economic assessment of policy instruments to combat climate change nationally and internationally Some important conclusions of this Second Assessment Report indicate that 10 to 30% of greenhouse gas emissions in most countries can be reduced at negative or zero cost no regrets measures Also the literature indicates that climate change will cause aggregate net damage which provides an economic rationale for going beyond no regrets measures It also indicates that a portfolio of mitigation adaptation and research measures is a sound strategy for addressing climate change given the remaining uncertainties This report speaks directly to the issues that are faced by the many countries committed to limit emissions of greenhouse gases by the year 2000 and currently negotiating actions to be taken beyond that date Will be of great value to the international community of policymakers interested in the consequences of climate change as well as to economists social and natural scientists

Getting the books **Rethinking Technical Cooperation** now is not type of challenging means. You could not unaided going behind book accrual or library or borrowing from your connections to edit them. This is an utterly simple means to specifically acquire lead by on-line. This online revelation Rethinking Technical Cooperation can be one of the options to accompany you following having supplementary time.

It will not waste your time. take on me, the e-book will unquestionably expose you new matter to read. Just invest little times to open this on-line notice **Rethinking Technical Cooperation** as with ease as review them wherever you are now.
