Retif De La Bretonne Monseieur Nicolas I:

Monsieur Nicolas; Or, The Human Heart Unveiled Restif de La Bretonne, 1931 *My Father's Life* Restif de La Bretonne, 1986 *The Problem of Identity in Restif de la Bretonne's Monsieur Nicolas and Le Drame de la Vie* Dana Ruth Cohen, 1972 *Bad Books* Amy S. Wyngaard, 2013

Bad Books reconstructs how the eighteenth century French author Nicolas Edme R tif de la Bretonne and his writings were at the forefront of the development of modern conceptions of sexuality and pornography. Although certain details are well known for example that R tif s 1769 treatise on prostitution *Le Pornographe* is the work from which the term pornography is derived or that he was an avid foot and shoe fetishist much of this story has been obscured and even forgotten including how the author actively worked to define the category of obscenity and the modern pornographic genre and how he coined the psycho sexual term fetish and played a central role in the formation of theories of sexual fetishism in the late nineteenth and early twentieth centuries. Thus this book is also about literary history and how it is written it explores how R tif perceived as a bad author in both senses of the term and his contributions were glossed over or condemned such that the originality of his texts has still not been fully established. Placing R tif s novels and short stories in dialogue with his autobiographical writings as well as with contemporary and modern critical commentaries the various chapters of the book examine the author s repeated testing of the limits of censorship to define and redefine the boundaries of obscenity his advancement of the modern form and definition of pornography through a focus on intimacy and female pleasure his detailed narrative explorations of foot and shoe fetichisms that were later appropriated by the sexologists and his development of theories of eugenics and reproduction in his utopian science fiction. The history of R tif s texts and their reception reveals an evolution in the criteria of what is considered to be good or worthy literature a category once defined purely on moral grounds that is increasingly seen in cultural terms. Bad Books corroborates the recent resurgence of interest in the author by showing the import of his texts which not only designate a number of firsts in the histories of sexuality and pornography but which also illuminate some of the defining moments in the history of French literary studies , [Animal Rhetoric and Natural Science in Eighteenth-Century Liberal Political Writing](#) Andrew Billing, 2023-12-07. Our tendency to read French Enlightenment political writing from a narrow disciplinary perspective has obscured the hybrid character of political philosophy rhetoric and natural science in the period. As Mich le Duchet and others have shown French Enlightenment thinkers developed a philosophical anthropology to support new political norms and models. This book explores how five important eighteenth century French political authors Rousseau Diderot La Mettrie Quesnay and R tif de La Bretonne also constructed a political zoology in their philosophical and literary writings informed by animal references drawn from Enlightenment natural history science and physiology. Drawing on theoretical work by Derrida Latour de Fontenay and others it shows how these five authors signed on to the old rhetorical tradition of animal comparisons in political philosophy which they renewed via the findings and speculations of contemporary

science Engaging with recent scholarship on Enlightenment political thought it also explores the links between their political zoologies and their family resemblance as liberal political thinkers

Reading Drama in Eighteenth-Century France Thomas Wynn,2024 Thomas Wynn explores how plays were read in eighteenth century France and relatedly the mode of closet drama plays that were never performed within the playhouse Drawing on queer theory Wynn argues that eighteenth century closet reading fostered disruptive pleasures that imparted another side to the period s th tromanie

Revolutionary Love in Eighteenth- and Early Nineteenth-Century France Allan H. Pasco,2016-12-05 In this innovative study the author carves out a new field a sociology of literature in which he offers insightful commentary about the nexus of literature and society Calling on history sociology and psychology as well as literature as points of reference Allan Pasco examines the conceptual shift in the ideal of love in eighteenth century France Pasco explores the radical though gradual changes that occurred during the Enlightenment with respect to how the emotion of love was viewed Earlier love had been subordinate to the demands of family king and deity passion was dangerous and to be avoided But over time individual happiness became the greatest good and passion the measure of love Authors as diverse as Marivaux Marmontel Rousseau Baculard d Arnaud Pigault Lebrun and Madame de Sta l make it clear that the ideal of rapturous love did not live up to its billing it did not last and it brought destructive fantasies an epidemic of disease the scourge of divorce and considerable anguish Still as Pasco points out passion became and remained the ideal and the Romantics were left to plumb its nature

Witchcraft and Black Magic Montague Summers,2012-03-16 Historical overview of demonology and the occult defines witchcraft and examines ceremonial practices the casting of spells and conjuring celebration of the Black Mass and much more A masterfully written highly readable work

Book-prices Current ,1894 **Childhood** Chris Jenks,2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of interpretations that have been and continue to be placed on it It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology However the future provides potential for interdisciplinary study which this collection also reflects The contemporary study of childhood must comprise a conjoining of disciplines sociology anthropology psychology

social geography history philosophy and socio legal theory all have something to add to the field and are represented within the collection
