Bruce and the Spider to The Sword of Damocles Julius Caesar to George Washington and his Hatchet the stories found here will resonate throughout a lifetime Although intended for children adults will enjoy reading these stories aloud and may even find it a great way to refresh their memories Most of the fifty stories contained in this volume are the half legendary tales of romantic episodes in the lives of well known heroes or famous men or in the history of a people Some have historical value some are useful in that they point to greater moral truths still others are intended only to amuse Some have been derived from ancient sources and some have come through the ballads and folks tales of the English speaking peoples Nearly all are the subjects of frequent allusions in poetry and prose and in the conversation of educated people The author has carefully excluded everything that is not strictly within the limits of probability that this volume does not trespass upon the domain of the fairy tale fable or myth Children naturally take a deep interest in such stories The reading of them will give not only pleasure but will help to lay the foundation for broader literary studies This collection is intended as a supplemental reader in the middle primary grades and as an valuable source of interest for all ages both in and out school *The Book Tree*

Bronwen Thomas, 2020-01-31 From Instapoetry to BookTube contemporary literary cultures and practices are increasingly intertwined with social media In this lively and wide ranging study Bronwen Thomas explores how social media provides new ways of connecting with and rediscovering established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression The book takes a 360 approach to the subject combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced shared and circulated The first study of its kind to focus specifically on social media *Literature and Social Media* provides a timely and engaging account of the state of the art while interrogating the rhetoric that so often accompanies discussion of the new in this context *Get Those Guys Reading!* Kathleen A.
