increasingly resemble their West European counterparts so does the radical right at least where it is electorally successful the return to Europe A third line of thought states that the radical right in the region is a phenomenon sui generis inherently shaped by the historical forces of state socialism and the transformation process As a result and in contrast to Western Europe it is ideologically more extreme and anti democratic while organizationally more a movement than a party phenomenon This book provides insight into the role of historical forces in the shaping and performance of the current radical right in CEE It conceptualizes legacies both as a contextual factor i e as part of structural and cultural opportunities for new movements and parties in the region and as textual factors i e as part of the ideological baggage of the past which is revived and reinterpreted by the radical right An introductory essay by Michael Minkenberg puts the topic and the concept of legacies into a larger research perspective Articles by Lenka Bustikova and Herbert Kitschelt as well as John Ishiyama employ the role of legacies as context whereas the contributions by Timm Beichelt Sarah de Lange and Simona Guerra as well as James Frusetta and Anca Glont treat legacies as text

Russia 2018 Aldo Ferrari, Be it for the annexation of Crimea in 2014 the intervention in Syria or the alleged interference in the US presidential election Russia has been increasingly under the spotlight over the last years In 2018 the world s eyes will be upon two events the presidential elections taking place on March 18 and the World Cup which will kick off in June While the outcomes of the latter are still uncertain President Vladimir Putin s victory looks like a safe bet Even so these elections bear important consequences for both Russia s domestic and foreign policy since they will affect Putin s ability to both cement his power at home and pursue his objectives abroad What are the main domestic and international challenges facing Russia Will Putin continue to question the Western championed liberal order or seek reconciliation with the West The authors of this Report address these key issues offering in depth analyses of Russia s political system economy and society as well as tracing their evolution and pointing at future scenarios for the EU Russia relations

Blood and Fire, Tsar and Commissar Tom Aitken, 2007-01-01 Blood and Fire Tsar and Commissar examines the

Salvation Army's first attempt to establish itself in Russia during the early decades of the twentieth century. It is a stirring story of faith, determination and endurance of a would-be law-abiding organization struggling despite police raids, death by epidemic and other catastrophes to work in a place where prior to the revolutions of 1917 it did not officially exist. **The European Handbook of Central Asian Studies** Jeroen Fauve, Adrien De Cordier, B. J. Van Den Bosch, 2021-10-19. This handbook is the first collection of comprehensive teaching materials for teachers and students of Central Asian Studies (CAS) with a strong pedagogic dimension. It presents 22 chapters clustered around five themes with contributions from more than 19 scholars, all leading experts in the field of CAS and Eurasian Studies. This collection is not only a reference work for scholars branching out to different disciplines of CAS but also for scholars from other disciplines broadening their scope to CAS. It addresses post-colonial frameworks and also untangles topics from their Soviet reference frame. It aims to de-exoticize the region and draws parallels to European or to historically European occupied territories. In each chapter, the handbook provides a concise but nuanced overview of the topics covered in which way these have been approached by the mainstream literature and points out pitfalls, myths and new insights, providing background knowledge about Central Asia to readers and intertwine this with an advanced level of insight to leave the readers equipped with a strong foundation to approach more specialized sources either in classroom settings or by self-study. In addition, the book offers a comprehensive glossary list of used abbreviations, overview of intended learning outcomes and a smart index distinguishing between names, locations, concepts and events. A list of recorded lectures to be found on YouTube will accompany the handbook either as instruction materials for teachers or visual aids for students. Since the authors themselves recorded the lectures related to their own chapters, this provides the opportunity to engage in a more personalized way with the authors. This project is being developed in the framework of the EISCAS project www.eiscas.eu, co-funded by the Erasmus Program of the European Union.
