Russian Poetry Barry P. Scherr, 1986 Russian Poetry offers the most complete description of Russian verse to date and provides a full introduction to Russian poetry based on current research The work is geared toward both the lay reader and the specialist

Rereading Russian Poetry Stephanie Sandler, 1999-01-01 Russia's poets hold a special place in Russian culture perhaps revealing more about their country than poets within any other nation In this unique and wide ranging collection of writings on poets and poetic trends in Russia contributors from the United States Britain and Russia examine the place of poetry in Russian culture Through a variety of critical approaches these scholars translators and poets consider a broad cross section of Russian poets from Pushkin to Brodsky Shvarts and Kibirov

English Rhythms in Russian Verse: On the Experiment of Joseph Brodsky Nila Friedberg, 2011-10-27 Readers of poetry make aesthetic judgements about verse It is quite common to hear intuitive statements about poets rhythms It is said for example that Joseph Brodsky the Russian poet and 1987 Nobel Prize laureate sounds English when he writes in Russian Yet it is far from clear what this statement means from a linguistic point of view What is English about Brodsky's Russian poetry And in what way are his English rhythms different from the verse of his Russian predecessors The book provides an analysis of Brodsky's experiment bringing evidence from an unusually wide variety of disciplines and theories rarely combined in a single study including the generative approach to meter the Russian quantitative approach analysis of readers intuitions about poetic rhythm analysis of the poet's source readings as well as acoustic phonetics statistics and archival research The distinct analytic approaches applied in this book to the same phenomenon complement one another each providing insight alternate approaches do not and showing that only a combination of theories and methods allows us to fully appreciate what Brodsky's English accent really was and what any poetic innovation means

Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008 In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii Anna Akhmatova and Osip Mandelstam their works and their lives In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non official literature and suggested replacing the term Soviet literature with a new definition Russian literature of the Soviet period Contributions to this volume explore the

multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground

Fast Forward Tim Harte, 2009-11-24 Fast Forward reveals how the Russian avant garde's race to establish a new artistic and social reality over a twenty year span reflected an ambitious metaphysical vision that corresponded closely to the nation's rapidly changing social parameters The embrace of speed after the 1917 Revolution however paradoxically hastened the movement's demise By the late 1920s under a variety of historical pressures avant garde artistic forms morphed into those more compatible with the political agenda of the Russian state Experimentation became politically suspect and abstractionism gave way to orthodox realism ultimately ushering in the socialist realism and aesthetic conformism of the Stalin years

Brodsky in English Zakhar Ishov, 2023-08-15 A deeply researched account of Joseph Brodsky's evolution in English as a self translator and a poet in translation Joseph Brodsky's translations of his own Russian language poems into English new originals have been criticized for their un-Englishness an appraisal based on a narrow understanding of translation itself With this radical reassessment of the Nobel Prize winner's self translations Zakhar Ishov proposes a fresh approach to poetry translation and challenges the assumption that poetic form is untranslatable Brodsky in English draws on previously unexamined archival materials including drafts and correspondence with translators and publishers to trace the arc of Brodsky's experience with the English language Ishov shows how Brodsky's belief in the intellectual continuity between his former life in the Soviet Union and his new career in the United States including as Poet Laureate anchored his insistence on maintaining the formal architecture of his poems in translation locating the transmission of poetic meaning in the rhythms of language itself This book highlights Brodsky's place within the long history of the compromises translation must make between linguistic material and poetic process

Brodsky's Poetics and Aesthetics

Valentina Polukhina, Lev Loseff, 1990-06-21 **Turgenev and Russian Culture** Joe Andrew, Derek Offord, Robert Reid, 2008

The present volume has as its central aim a reassessment of the works of Ivan Turgenev for the twenty first century Against the background of a decline in interest in nineteenth century literature the articles gathered here seek to argue that the period in general and his work in particular still have much to offer the modern sensibility The volume also offers a great variety of approaches Some of the contributors tackle major works by Turgenev including *Rudin* and *Smoke* while others address key themes that run through all his creative work Yet others address his influence as well as his broader relationship with Russian and other cultures A final group of articles examines other key figures in Russian literary culture including Belinskii Herzen and Tolstoi The work will therefore be of interest to students postgraduates and specialists in the field of Russian literary culture At the same time they will stand as a tribute to the life and work of Professor Richard Peace a long standing specialist in nineteenth century Russian literature in whose honour the volume has been compiled **Towards a Typology of Poetic Forms** Jean-Louis Aroui, Andy Arleo, 2009-09-30 Metrics is often defined as a discipline that concerns itself with the study of meters In this volume the term is used in a broader sense that more or less coincides with the traditional notion of versification Understood this way metrics is an eminently complex object that displays variation over time and in space that concerns forms of a great variety and with different statuses meters rhymes stanzas prescribed forms syllabification rules nursery rhymes slogans musical textsetting ablaut reduplication etc and that as a cultural manifestation is performed in a variety of ways sung chanted spoken read that can have direct consequences on how it is structured This profusion of forms is thought to correspond at the level of perception to a limited number of cognitive mechanisms that allow us to perceive and to represent regularly iterating forms This volume proposes a relatively coherent overall vision by distinguishing four main families of metrical forms each clearly independent of the others and amenable to separate typologies **The Cambridge Companion to Modern Russian Culture** Nicholas Rzhevsky, 2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past **The Garland Companion to Vladimir Nabokov** Vladimir E. Alexandrov, 2014-05-22 First published in 1995 This companion constitutes a virtual encyclopaedia of Nabokov and occupies a unique niche in scholarship about him Articles on individual works by Nabokov including his short stories and poetry provide a brief survey of critical reactions and detailed analyses from diverse vantage points For anyone interested in Nabokov from scholars to readers who love his works this is an ideal guide Its chronology of Nabokov's life and works bibliographies of primary and secondary works and a detailed index make it easy to find reliable information any aspect of Nabokov's rich legacy [Russian Symbolism and Literary Tradition](#) Michael Wachtel, 1994 Michael Wachtel explores here the art and development of Vyacheslav Ivanov 1866-1949 a poet and theorist who articulated a highly influential concept of Symbolism The German writers Goethe and Novalis played a powerful part in Ivanov's vision and were in his mind powerful precursors in a proto Symbolist pantheon Their work not only influenced his writing but also

in maintaining the Symbolist creed of unity in art and life altered his world perspective Wachtel in exploring Ivanov's relationship to Goethe and Novalis illuminates the issues that lie at the core of Symbolism the theory of the symbol poetics poetry as theurgy the relationship between literary creation and real life and the theory and practice of translation *All the World on a Page* Andrew Kahn, Mark Lipovetsky, 2025-04-15 The rich and ongoing development of Russian lyric poetry explored through close readings of thirty four poems by poets ranging from Alexander Blok to Maria Stepanova The Russian cultural tradition treats poetry as the supreme artistic form with Alexander Pushkin as its national hero Modern Russian lyric poets often on the right side of history but the wrong side of their country's politics have engaged intensely with subjectivity aesthetic movements ideology usually subversive and literature itself *All the World on a Page* gathers thirty four poems written between 1907 and 2022 presenting each poem in the original Russian and an English translation accompanied by an essay that places the poem in its cultural historical and biographical contexts The poems both canonical and lesser known works extend across a range of moods and scenes Velimir Khlebnikov's Futurist revolutionary prophecy Anna Akhmatova's lyric cycle about poetic inspiration Vladimir Nabokov's Symbolist erotic dreamworld Joseph Brodsky's pastiche of a Chekhovian play set on a country estate Maria Stepanova's pandemic allegory of political repression Galina Rymbu's energetic manifesto *My Vagina* An introduction explores the abiding inspiration of modernism on the Russian lyric tradition Kahn and Lipovetsky's separate chapter essays informed by extensive knowledge of the existing scholarship and critical styles of interpretation consider how the interplay of originality and tradition and form and voice work to engage the reader The poems themselves many of them in newly commissioned translations operate outside state mandated poetic styles to address the reader directly to the reader as Brodsky said in his 1987 Nobel lecture With each chapter devoted to a different poem *All the World on a Page* allows readers to experience the richness of Russian poetry through poems and poets rather than through movements *Revolutions in Verse* Isobel Palmer, 2024-11-15 How modernist interartistic experimentation and the proliferation of new media technologies inspired fresh insights into poetry Isobel Palmer spotlights Russian modernist poets and formalist theorists conscious engagement with formal convention showing how their efforts were tied up with broader attempts in the early Soviet era to understand and articulate the nature of poetry and its most characteristic devices Returning to critical debates around poetic encounters with three key aesthetic categories rhythm image and voice Palmer unpacks the period's deeper interest in the material bases of poetic speech itself Through fresh incisive readings of canonical poets and theorists from Andrei Bely and Vladimir Mayakovsky to Yury Tynianov and Viktor Shklovsky *Revolutions in Verse* The Medium of Russian Modernism explores the proliferation of interartistic experiments and the emergence of new media technologies that made poetry visible as a medium in its own right **The Dynamics of Russian Verse** Ian Kenneth Lilly, 1995 **Historical Dictionary of Russian Literature** Jonathan Stone, 2013 The Historical Dictionary of Russian Literature contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has
