Congress. Senate. Committee on Governmental Affairs. Subcommittee on International Security, Proliferation, and Federal Services, 1997 **Putin's Missile War** Ian Williams, 2023-08-16 Russia s missile campaign against Ukraine has severely underperformed expectations In the invasion s early days Russia underestimated the necessary scale and effort of its missile campaign Since then Russia has changed course multiple times most recently moving to target Ukrainian electrical grid and civilian infrastructure during the winter months Russia s haphazard missile campaign reflects both internal strategic failures and Ukraine s critical forward thinking in the days prior to the invasion Early Russian failures also gave time for Ukraine to develop its air defense strategy and capabilities which have only grown in effectiveness thanks in large part to Western aid This CSIS report provides an in depth review of these and related missile war dynamics **Russian Foreign Policy toward Missile Defense** Bilyana Lilly, 2014-08-21 This book is devoted to one of the central issues in U S Russian and NATO Russian relations ballistic missile defense Drawing on more than 2 000 primary sources interviews with Russian and NATO officials and a variety of Russian and Western publications this book offers an unparalleled in depth analysis of the reasons behind Russia s policy towards the construction of a U S ballistic missile defense in Europe It provides a critical assessment of the decision making mechanisms that shape Russia s position on ballistic missile defense as well as Russia s strategic relations with the United States and Russia s interaction with European and non European powers Lilly argues that contrary to Moscow s official claims during the Putin era Russian objections to the construction of ballistic missile defense in Europe have not been wholly dictated by security concerns To Russia missile defense is not purely an issue in and of itself but rather a symbol and instrument of broader political considerations At the international level the factors that have shaped Russia s response include Moscow s perception of the overall state of U S Russian relations the Kremlin s capacity to project influence and power abroad and NATO s behavior in the post Soviet space Domestically the issue of missile defense has been a facilitating instrument for strengthening Putin s regime and justifying military modernization Taken together these instrumental considerations and

their fluctuating intensity in different periods prompt the Russian leadership to pursue contradictory policy approaches simultaneously On the one hand the Kremlin seeks U S cooperation while on the other hand it threatens retaliation and reinforces Russian offensive capabilities The result is Moscow s incoherence inconsistency and double speak over the issue of missile defense *Proliferation Threats and Missile Defense Responses* United States.
