**Light as Experience and Imagination from Medieval to Modern Times** David S. Herrstrom, 2022-11-21 In *Light as Experience and Imagination from Medieval to Modern Times* David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual s relationship with light rather than the investigation of light s essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light s character No individual experience of light being truer than any other *Foxe's 'Book of Martyrs' and Early Modern Print Culture* John N. **"Faith, Gender and the Senses in Italian Renaissance and Baroque Art "** ErinE. Benay,2017-07-05 Taking the Noli me tangere and Doubting Thomas episodes as a focal point this study examines how visual representations of two of the most compelling and related Christian stories engaged with changing devotional and cultural ideals in Renaissance and Baroque Italy This book reconsiders depictions of the ambiguous encounter of Mary Magdalene and Christ in the garden John 20 11 19 known as the Noli me tangere and that of Christ s post Resurrection appearance to Thomas John 20 24 29 the Doubting Thomas as manifestations of complex theological and art theoretical milieus By focusing on key artistic monuments of the Italian Renaissance and Baroque periods the authors demonstrate a relationship between the rise of skeptical philosophy and empirical science and the efficacy of the senses in the construction of belief Further the authors elucidate the differing representational strategies employed by artists to depict touch and the ways in which these strategies were shaped by gender social class and educational level Indeed over time St Thomas became an increasingly public and therefore masculine symbol of devotional verification juridical inquiry and empirical investigation while St Mary Magdalene provided a more private model for pious women celebrating mostly behind closed doors the privileged and active participation of women in the faith The authors rely on primary source material paintings sculptures religious tracts hagiography popular sermons and new documentary evidence By reuniting their visual examples with important often little known textual sources the authors reveal a complex relationship between visual imagery the senses contemporary attitudes toward gender and the shaping of belief Further they add greater nuance to our understanding of the relationship between popular piety and the visual culture of the period
