Ideal of the Courtly Gentleman in Spanish Literature: Francesco Raimondo, 2013-05-16 In this study on the subject of the Spanish courtly gentleman of the sixteenth century the author traces the courtly gentlemans life ideals as they appear first in Montalvos Amadis de Gaula and later in Il Cortegiano of Castiglione The study also appraises what new perspectives and attitudes are at the center of Castigliones view of cortegiania and how these elements are reflected in other Spanish courtesy books subsequent to The Courtiers arrival and publication in Spain In the last part of the book the author deals with the theme of courtliness in Don Quixote and with Cervantess attitude toward the courtiers pursuits aspirations and lifestyle He also analyzes through the

study of selected works of Caldern and Gracin certain problems of self perception moral conscience and outlook that distinguish the ideal man of the baroque age as envisioned by these authors from his renaissance counterpart On the whole the study points to the gradual change and process of secularization of the courtiers ideal during the sixteenth and seventeenth centuries and to the decline of traditional thought and myths about class limitations and human potential
