The Gospel of John Rudolf Bultmann, 2014-08-15 As the first volume in the Johannine Monograph Series The Gospel of John A Commentary by Rudolf Bultmann well deserves this place of pride Indeed this provocative commentary is arguably the most important New Testament monograph in the twentieth century perhaps second only to The Quest of the Historical Jesus by Albert Schweitzer In contrasting Bultmann's and Schweitzer's paradigms however we find that Bultmann's is far more technically argued and original commanding hegemony among other early Christianity paradigms Ernst Haenchen has described Bultmann's commentary as a giant oak tree in whose shade nothing could grow and indeed this reference accurately describes its dominance among Continental Protestant scholarship over the course of several decades

Fundamentals of Early Christianity George Luther Clark, 1928 St. Paul and the Mystery-Religions H. A. A. Kennedy, 2017-03-10 Ours is an age of new things In no province is this more apparent than in that of New Testament interpretation And no section of the New Testament continues to stimulate more revolutionary theories than the Pauline Epistles It is true that discussions of authenticity have lost the importance assigned to them by scholars of the earlier time like Baur or by later critical investigators like Van Manen The emphasis has been shifted The primary question at issue is the
