Sacred Rights The Case For Contraception And Abortion In World Religions:

Sacred Rights Daniel C. Maguire, 2007-09-01 As the global population continues to grow family planning is becoming one of the most critical issues facing the planet While many organizations are trying to implement policies that will help curb the population explosion these measures are frequently blocked by those professing conservative religious beliefs The essays in this vol demonstrate that this is not the only legitimate or orthodox view The authors here present alternative interpretations of religions views about family planning They seek to move beyond oversimplified either or pro choice pro life arguments to a more open discussion of family planning The great religious traditions are wiser more variegated than a simple representation of the most conservative views would suggest

False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the

21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org The Oxford Handbook of Religion and Ecology Roger S. Gottlieb, 2006-11-09 The last two decades have seen the emergence of a new field of academic study that examines the interaction between religion and ecology Theologians from every religious tradition have confronted world religions past attitudes towards nature and acknowledged their own faiths complicity in the environmental crisis Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings The proposed handbook will serve as the definitive overview of these exciting new developments Divided into three main sections the books essays will reflect the three dominant dimensions of the field Part one will explore traditional religious concepts of and attitudes towards nature and how these have been changed by the environmental crisis Part II looks at larger conceptual issues that transcend individual traditions Part III will examine religious participation in environmental politics Handbook of Religion Terry C. Muck, Harold A. Netland, Gerald R. McDermott, 2014-11-04 This comprehensive handbook provides a Christian perspective on religion and its many manifestations around the world Written by top religion scholars from a broad spectrum of Christianity it introduces world religions indigenous religious traditions and new religious movements Articles explore the relationship of other religions to Christianity providing historical perspective on past encounters and highlighting current issues The book also contains articles by adherents of non Christian religions offering readers an insider s perspective on various religions and their encounters with Christianity Maps timelines and sidebars are included The Human Drama of Abortion Aníbal Faúndes, José Barzelatto, 2006 Abortion 101 an accessible account of abortion practices and ethical issues around the globe for students activists and policymakers Deeply touched by the tragedies of botched abortions that they witnessed as medical students and young physicians in Chile in the 1940s and later around the world the authors have attempted in their professional lives and now in this book to establish a framework for dialogue to replace the polarization that exists today Doctors Faundes and Barzelatto use their decades of international work to document the personal experiences of different classes of women in different countries and those countries policies and practices No other book provides such a comprehensive and reasoned examination of the entire topic of abortion from the medical to the religious and ethical and from the psychological to the legal in plain language understandable by non specialists The central thesis is that there are too many induced abortions in the world today that most are preventable and should be prevented a middle ground that both

pro life and pro choice advocates can accept The first part of the book reviews why women have abortions as well as the magnitude and consequences The second part examines values The third part discusses effective interventions The final part states conclusions about what can be done to reach a necessary social consensus The Portuguese edition of this book was issued at the very end of 2004 The Spanish edition launched in mid 2005 is already in a second printing The authors are making presentations at special events sponsored by universities professional associations and feminist networks in Argentina Chile Mexico Peru Uruguay Colombia the Dominican Republic and the United States
