Small Cities, Big Issues Christopher Walmsley,Terry Kading,2018-07-20 Small Canadian cities confront serious social issues as a result of the neoliberal economic restructuring practiced by both federal and provincial governments since the 1980s Drastic spending reductions and ongoing restraint in social assistance income supports and the provision of affordable housing combined with the offloading of social responsibilities onto municipalities has contributed to the generalization of social issues once chiefly associated with Canada s largest urban centres As the investigations in this volume illustrate while some communities responded to these issues with inclusionary

and progressive actions others were more exclusionary and reactive revealing forms of discrimination exclusion and othering in the implementation of practices and policies Importantly however their investigations reveal a broad range of responses to the social issues they face No matter the process and results of the proposed solutions what the contributors uncovered were distinctive attributes of the small city as it struggles to confront increasingly complex social issues If local governments accept a social agenda as part of its responsibilities the contributors to Small Cities Big Issues believe that small cities can succeed in reconceiving community based on the ideals of acceptance accommodation and inclusion *Peacemaking Circles* Kay Pranis, Barry Stuart, Mark Wedge, 2013 **Walking This Path Together, 3rd Edition** Gwendolyn

Gosek, 2025-04-29T00:00:00Z Canadian child welfare policies and practices have been central to maintaining a settler colonial nation by controlling and managing the childhoods and future lives of children While ostensibly grounded in the best interests of the child child welfare policies and practices far too often make the lives of young people more precarious because they are stratified along race and class lines rather than caring for their wellbeing There have been dire consequences for Indigenous communities but also for Black newcomer non citizen and poor people who are also disproportionately the primary focus of child welfare The contributors to this book reveal these unjust conditions so that workers can contribute to the ongoing transformation of child welfare to facilitate child wellbeing The third edition of *Walking This Path Together* continues the transformative vision of the first two editions and charts a new way forward There are several new chapters and authors who focus on M tis kinship protocols family group conferencing decolonizing child welfare and the criminalization of newcomers refugee children and Indigenous youth in care They demonstrate how to bring forward transformative practices to moving child welfare into a truly new decolonial era This transformative vision is the path that we are walking **Security, With Care** Elizabeth M. Elliott, 2020-05-21T00:00:00Z Restorative justice as it exists in Canada and the U S has been co opted and relegated to the sidelines of the dominant criminal justice system In *Security With Care* Elizabeth M Elliott argues that restorative justice cannot be actualized solely within the criminal justice system If it isn't who we are says Elliott then the policies will never be sustainable Restorative justice must be more than a program within the current system it must be a new paradigm for responding to harm and conflict Facilitating this shift requires a rethinking of the assumptions around punishment and justice placing emphasis instead on values and relationships But if we can achieve this change we have the potential to build a healthier more ethical and more democratic society

Awakening The Genie Within Bill Carpenter, 2023-05-15 Are your feelings thoughts and beliefs created mainly by intuition and the subconscious mind Or are they a product of your intellect and cultural social programming The former supports and enhances the natural flow of your life energy while the latter can shape direct or even block it In *Awakening the Genie Within* author Bill Carpenter deliberately invokes the word programming to

convey how a lack of conscious involvement in your own life and fixed belief systems prevent you from fully embracing your inner genie the life force or spirit within you The book s purpose is to help you understand and transcend your individual and collective programming ego and culture and help you to live a more fulfilled and sustainable life If the mind is powerful enough to create the ego it can also transcend it Carpenter believes The exercises in this book are designed to do just that This practical and provocative guidebook poses tough questions to help you and your groups and organizations analyze your worldviews which can cause dissent among individuals and even outright oppression on a global scale The goal is to help you understand and challenge your tightly held belief systems that tend to divide us We have far more in common than that which the ego focuses on to separate us Carpenter is your engaging guide on this journey of self discovery for the betterment of yourself and the future of our world We must resist the lure to be mindless drones of the collective **Diversity**

Pedagogies of Compassion in Higher Education Kathryn Waddington, Bryan Bonaparte, 2024-09-07 This collection addresses intersections and gaps between practice theory and research that both connect and divide compassion and pedagogies In foregrounding practice it makes an important contribution to the growing call for universities and educators to adopt inclusive student centred approaches that challenge us to fundamentally re think what universities do It celebrates the role of students as co creators of knowledge locating them at the heart of what pedagogies of compassion in higher education should feel like and look like It examines how compassion can become both critical and strategic in order to disrupt systems and orthodoxies that are no longer fit for purpose in a post pandemic world The ultimate goal the book aims to address is the need for humane universities driven by compassion rather than profit which can help to build fairer and more socially just societies The book extends the theoretical and practical discussions of compassion as a fundamental organizing principle in higher education It brings fresh interdisciplinary thinking theories and approaches including the neuroscience of compassion

classical Eastern philosophies intersectional compassion sustainability and environmental stewardship It also includes critical reflection on experiences challenges barriers and enablers across multiple levels and perspectives These range from reflections on compassion in the classroom to compassion in the boardroom as well as in the many other spaces and places where learning occurs It offers a creative collection of essays on compassionate practices in higher education and appeals to anyone who is concerned about the moral standing of the university For some time now we have been told that universities must be viewed on the business model but this has only discouraged faculty students and staff As the contributors show however the very idea that teaching and educational practices could be more closely linked to compassion is definitely appealing and it gives us a more inspiring way of thinking about the university of the future Richard J White Creighton University Omaha NE USA
