Sherwin, 2013-02-28 Byron Sherwin demonstrates that Jewish theological thinking can be understood as a response to visceral existential issues and argues that human meaning and fulfillment can be discovered in the application of an authentic Jewish way of thinking and living      Journal of Theological Studies ,1925      *Irish adventures in nation-building* Bryan Fanning, 2016-06-17 Irish Adventures in Nation building consists of eighteen mostly chronological essays examining the debates and processes that have shaped the modernisation of Ireland since the beginning of the twentieth century The vantage points examined include those of prominent revolutionaries cultural nationalists clerics economists sociologists political scientists public intellectuals journalists influential civil servants political leaders and activists who weighed into debates about the condition of Ireland and where it was going Topics considered range from why Patrick Pearse's ideas about education were ignored to why Ireland has been recently so open to large scale immigration from the intellectual conflicts of the 1930s to the future of Irish identity This is a genuinely multi disciplinary book that offers an accessible overview of how Ireland and what it means to be Irish has changed during the last century      Understanding Affections in the Theology of Jonathan Edwards Ryan J. Martin, 2018-11-15 This volume argues that the notion of affections discussed by Jonathan Edwards and Christian theologians before him means something very different from what contemporary English speakers now call emotions and that Edwards's notions of affections came almost entirely from traditional Christian theology in general and the Reformed tradition in particular Ryan J Martin demonstrates that Christian theologians for centuries emphasized affection for God associated affections with the will and distinguished affections from passions generally explaining affections and passions to be inclinations and aversions of the soul This was Edwards's own view and he held it throughout his entire ministry Martin further argues that Edwards's view came not as a result of his reading of John Locke or the pressures of the Great Awakening as many Edwardsean scholars argue but from his own biblical interpretation and theological education By analysing patristic medieval and post medieval thought and the journey of Edwards's psychology Martin shows how on their own terms pre modern Christians historically defined and described human psychology
