***Tough Calls* Linda D. Henman,2017-06-27** As my clients emerged from the global economic turmoil that began in 2008 I began to see what others didn t see Something was standing in their way usually the unwillingness or inability to make a critical decision They thought they needed more more education more experience more time or more data They had enough of these but they lacked the confidence courage and optimism to make the tough calls Through our work together we learned that when leaders make good decisions little else matters When they refuse to make decisions or show a pattern of making bad ones nothing else matters The most successful leaders realized they could no longer push growth Instead they had to remove barriers to success obstacles they had erected themselves The compelling stories and surprising research findings in this book focus on real people who actively sought professional improvement and

personal development Working together we mapped out their journeys identified roadblocks recognized the wrong turns they had taken and unlocked their decision making potential in some cases more than doubling the size of their companies Most of these stories illustrate how and why these leaders succeed but others serve as warnings about what can happen when leaders refuse to decide Children into Swans Jan Beveridge,2014-10-01 Fairy tales are alive with the supernatural elves dwarfs fairies giants and trolls as well as witches with magic wands and sorcerers who cast spells and enchantments

Children into Swans examines these motifs in a range of ancient stories Moving from the rich period of nineteenth century fairy tales back as far as the earliest folk literature of northern Europe Jan Beveridge shows how long these supernatural features have been a part of storytelling with ancient tales many from Celtic and Norse mythology that offer glimpses into a remote era and a pre Christian sensibility The earliest stories often show significant differences from what we might expect Elves mingle with Norse gods dwarfs belong to a proud clan of magician smiths and fairies are shape shifters emerging from the hills and the sea mist In story traditions with roots in a pre Christian imagination an invisible other world exists alongside our own From the lost cultures of a thousand years ago Children into Swans opens the door on some of the most extraordinary worlds ever portrayed in literature worlds that are both starkly beautiful and full of horrors **Create**
