Sacred Profance:

The Sacred and the Profane Mircea Eliade, 1959 Famed historian of religion Mircea Eliade observes that even moderns who proclaim themselves residents of a completely profane world are still unconsciously nourished by the memory of the sacred Eliade traces manifestations of the sacred from primitive to modern times in terms of space time nature and the cosmos In doing so he shows how the total human experience of the religious man compares with that of the nonreligious This book serves as an excellent introduction to the history of religion but its perspective also encompasses philosophical anthropology phenomenology and psychology It will appeal to anyone seeking to discover the potential dimensions of human existence P 4 of cover *Discourse on Sacred and Profane Images* Gabriele Paleotti, 2012 In the wake of the Counter Reformation Cardinal Gabriele Paleotti the archbishop of Bologna wrote a remarkable treatise on art during a time when the Church feared rampant abuse in the arts Translated into English here for the first time Paleotti's *Discourse on Sacred and Profane Images* argues that art should address a broad audience and explains the painter's responsibility to his spectators The *Discourse* is introduced by historian Paolo Prodi who explains how even if the archbishop did not succeed in reforming the arts Paleotti's treatise constituted one last synthesis of art as a reading of creation and salvation history and sacred art as a vehicle of devotion

Culture and Power David Swartz, 1997 Pierre Bourdieu is one of the world's most important social theorists and is also one of the great empirical researchers in contemporary sociology However reading Bourdieu can be difficult for those not familiar with the French cultural context and until now a comprehensive introduction to Bourdieu's oeuvre has not been available David Swartz focuses on a central theme in Bourdieu's work the complex relationship between culture and power and explains that sociology for Bourdieu is a mode of political intervention Swartz clarifies Bourdieu's difficult concepts noting where they have been misinterpreted by critics and where they have fallen short in resolving important analytical issues The book also shows how Bourdieu has synthesized his theory of practices and symbolic power from Durkheim Marx and Weber and how his work was influenced by Sartre Levi Strauss and Althusser *Culture and Power* is the first book to offer both a sympathetic and critical examination of Bourdieu's work and it will be invaluable to social scientists as well as to a broader audience in the humanities

McCutcheon,2013 The Sacred Is the Profane collects nine essays written over several years by William Arnal and Russell T McCutcheon that share a convergent perspective not simply that both the category and concept religion is a construct something that we cannot assume to be natural or universal but also that the ability to think and act religiously is quite specifically a modern political category in its origins and effects the mere by product of the modern state These collected essays substantially rewritten for this volume advance current scholarly debates on secularism debates which the authors argue insufficiently theorize the sacred secular church state and private public binaries by presupposing religion often under the guise of such terms as religiosity faith or spirituality to historically precede the nation state The essays return again and again to the question of what religion word and concept accomplishes now for those who employ it whether at the popular political or scholarly level The focus here for two writers from seemingly different fields is on the efficacy costs and the tactical work carried out by dividing the world between religious and political church and state sacred and profane **The Cambridge Companion to Durkheim** Jeffrey C. Alexander,Philip Smith,2005-05-26 An authoritative and comprehensive collection of essays redefining the relevance of Durkheim to the human sciences in the twenty first century **Para/Inquiry** Victor E. Taylor,2008-02-20 Para Inquiry represents the next generation of postmodern studies Focusing on cultural studies religion and literature Victor E Taylor provides us with a fresh look at the history and main themes of postmodernism both in style and content Central to the book is the status of the sacred in postmodern times Taylor explores the sacred images in art culture and literature We see that the concept of the sacred is uniquely singular and resistant to an easy assimilation into artistic cultural or narrative forms Anyone wishing to gain a new and exciting understanding of postmodernism will read this book with great pleasure

impact and contribution of post theories in the field of Christian feminist theology Post theory is an important and cutting edge discursive field which has revolutionized the production of knowledge in both feminism and theology This book fills a gap by providing a text that can make authoritative statements on the use and status of post theory in feminist theology and secondly it makes an on going contribution to the discourse of Christian feminist theology and its liberation agenda Distinguished and established scholars contribute conclusive essays on the most recent and exciting developments in post theory feminism and theology

In Search of Dreamtime Tomoko Masuzawa,1993-12 Extended discussion of the concepts of time and origin in the work of Durkheim Muller and Freud Ch 5 contrasts the representation of the Dreaming in Eliade s Australian religions and Munns Walbiri iconography role of dreams and graphic representation in Walbiri womens lives their relation to formal analysis of the Dreaming argues that the Dreaming should be seen as a measure of difference and against its perception as an origin ground sand designs historical consciousness

Modernity and Subjectivity Harvie Ferguson,2000 Few concepts have come to dominate the human sciences as much as modernity yet there is very little agreement over what the term actually means Every aspect of contemporary human reality modern society modern life modern times modern art modern science modern music the modern world has been cited as a part of modernity s distinctive and all embracing presence But what is the exact nature of the reality to which the term modern refers Has not such a promiscuous ill defined concept come to obscure and confuse rather than clarify a genuine understanding of our experience Harvie Ferguson proposes a new view of modernity arguing that although it may variously be associated with the Renaissance the European discovery of the New World the Reformation the Industrial Revolution and many other significant ruptures with primitive or premodern society modernity fails as an idea if it only defines itself against what it replaced Instead he writes modernity finds its clearest definition through an exploration of subjectivity For the modern world there is no higher authority than experience No longer is the human world subordinate to a divine reality beyond the capacity of its own senses This idea finds its greatest expression in the philosophy of doubt originated by Descartes Doubt seemed the radical starting point from which to found a wholly modern philosophy that makes the distinction between subject and object but those who came after Descartes soon reached the limits of self discovery and became trapped in deepening levels of despair This despair in turn found expression in the concepts of self and other and eventually in a dialectic of ego and world which distinguishes and links together the most important social cultural and psychological aspects of modernity Moving beyond these dualities of subject and object mind and body ego and world and replacing them with the triad of body soul and spirit Ferguson redraws the map of contemporary experience finding links with the premodern world that modernity s self founding concealed

Pain, Play and Music Giorgio Scalici,2024-04-18 The Wana people of Morowali accept the experiences of pain illness and loss and transform them into something positive rituals that celebrate life friendship and the community Through fieldwork with the Wana people of Morowali Central Sulawesi Giorgio Scalici shows how music serves as

a connection between the human world and the hidden world of spirits and emotion By examining rituals such as the momago the main Wana healing ritual and the kayori the funeral this book investigates how music is used by the Wana to heal people control emotions reinforce the sense of community and to mark the cultural death of the community member In this study music transforms the pain of loss into a playful event that heals the community and assures its future This book will be of interest to the wider academic study of religion anthropology and ethnomusicology as it looks at funerals as healing rituals for the community which lead the living and the dead through critical times The City at Its Limits Daniella Gandolfo,2009-08-01 In 1996 against the backdrop of Alberto Fujimori s increasingly corrupt national politics an older woman in Lima Peru part of a group of women street sweepers protesting the privatization of the city s cleaning services stripped to the waist in full view of the crowd that surrounded her Lima had just launched a campaign to revitalize its historic districts and this shockingly transgressive act was just one of a series of events that challenged the norms of order cleanliness and beauty that the renewal effort promoted The City at Its Limits employs a novel and fluid interweaving of essays and field diary entries as Daniella Gandolfo analyzes the ramifications of this act within the city s conflicted history and across its class divisions She builds on the work of Georges Bataille to explore the relation between taboo and transgression while Peruvian novelist and anthropologist Jos Mar a Arguedas s writings inspire her to reflect on her return to her native city in movingly intimate detail With its multiple perspectives personal sociological historical and theoretical The City at Its Limits is a pioneering work on the cutting edge of ethnography Louis Dumont and Hierarchical Opposition Robert Parkin,2009-03 The work of Louis Dumont who died in 1998 on India and modern individualism represented certain theoretical advances on the earlier structuralism of Claude L vi Strauss One such advance is Dumont s idea of hierarchical opposition which he proposed as a truer representation of indigenous ideologies than L vi Strauss s binary opposition In this book the author argues that although structuralism is often thought to have gone out of fashion Dumont s greater concern with praxis and agency makes his own version of structuralism more contemporary The work of his followers and fellow travelers as well as his own indicates that hierarchical opposition is capable of taking structuralism in new and more realistic directions reminding us that it has never been the preserve of L vi Strauss alone *Teaching Durkheim* Terry F. Godlove,2005 Emile Durkheim s work on religion occupies a central place in religious studies classrooms today This volume is designed as a resource for teachers offering practical advice about productive ways to approach central texts and difficult pedagogical issues
