Sacrifice and Prophecy in Turkana Cosmology Anthony J. Barrett,1989 **Sacrifice and Prophecy in Turkana Cosmology** Anthony J. Barrett,1998 **Who Do the Ngimurok Say That They Are?** Kevin P. Lines,2018-04-12 How do missiologists describe the cosmologies of those that Christianity encounters around the world Our descriptions often end up filtered through our own Western religious categories Furthermore indigenous Christians adopt these Western religious categories This presents the problem of local Christianities described by Kwame Bediako as those that have not known how to relate to their traditional culture in terms other than those of denunciation or of separateness Kevin Lines s phenomenological study of local religious specialists in Turkana Kenya not only challenges our Western categories by revealing a more authentic complexity of the issues for local Christians and Western missionaries but also provides a model for continued use of phenomenology as a valued research method in larger missiological studies Additionally this study points to the ways that local Christians and traditional religious practitioners interpret Western missionaries through local religious categories Clearly missionaries missiologists anthropologists and religious studies scholars need to do a much more careful job of studying and describing the contextually specific phenomena of traditional religious specialists before relying on meta categories that come out of our Western theology or older overly simplified ethnographies The research from this current study of Turkana religious specialists begins that process in the Turkana context and offers a model for future studies in contexts where traditional religion and Christianity intersect Human Sacrifice and the Supernatural in African History Mbogoni, Lawrence E.Y.,2013-11-03 Since time immemorial human beings the world over have sought answers to the vexing questions of their origins sickness death and after death the meaning of natural phenomena such as earthquakes eclipses of the sun and moon birth of twins etc and how to protect themselves from such mysterious events They invented God and gods and the occult sciences witch craft divination and soothsaying in order to seek the protection of supernatural powers while individuals used them to gain power to dominate others and to accumulate wealth Human sacrifice was one way in which they sought to expiate the gods for what they believed were punishments for their transgressions One example the Ghana Asante Kingdom s very origins are associated with human sacrifice On the eve of war against Denkyira individuals volunteered themselves to be sacrificed in order to guarantee victory Later human sacrifice in Asante was mainly politically motivated as kings and religious leaders offered human sacrifice in remembrance of their ancestral spirits and to seek their protection against their enemies The Asante Kingdom is one of several examples included in this study of human sacrifice and ritual killing on the African continent Case studies include practices in Sierra Leone Tanzania Mainland Zanzibar Uganda and Swaziland Advertisements relating to the occult was a common feature of Drum magazine the popular South African magazine in Southern Eastern and Central Africa in late years of colonial and early years of postcolonial periods indicating a wide belief in these practices among the people in these countries Each case examined is introduced by an expose of folklore

that puts in perspective beliefs in the supernatural and how folklore continues to perpetuate them Through careful study of these select cases this book highlights general features of human sacrifice which recur with striking uniformity in all parts of sub Saharan Africa and why they persist until today He draws upon extensive written sources to expose these practices in other cultures including those in Western societies *Understanding Religious Sacrifice* Jeffrey Carter,2003-03-31 This volume provides a thorough introduction to the major classic and modern writings dealing with religious sacrifice Collected here are twenty five influential selections each with a brief introduction addressing the overall framework and assumptions of its author As they present different theories and examples of sacrifice these selections also discuss important concepts in religious studies such as the origin of religion totemism magic symbolism violence structuralism and ritual performance Students of comparative religion ritual studies the history of religions the anthropology of religion and theories of religion will particularly value the historical organization and thematic analyses presented in this collection *African Religion* Laurenti Magesa,2014-07-30 Describes the moral teachings values norms and principles to follow so that life might be abundant for all of the African religion as it relates to individuals and community *Towards a Christian Theology of African Ancestors* Thomas Ochieng Otanga,2023-04-21 This book examines the similarities and relationship between Christian saints and African ancestors Further it analyzes the deep cultural roots of African peoples and the ancestral frame as a point of departure for developing an indigenous African theology Questions dealt with include Does the conversion of Africans to Christianity require a break with their African cultural heritage Who is an African ancestor Is syncretism a good thing for an African Christian What contribution can the African church make to the universal church The author argues that rather than being antithetical to formal Christianity an African Christian theology of ancestors is an example of how an indigenous African tradition can best express Christianity as well as make considerable impact on world Christianity **The Vitality of Karamojong Religion** Ben Knighton,2017-05-15 How long can a traditional religion survive the impact of world religions state hegemony and globalization The Karamoja problem is one that has perplexed colonial and independent governments alike Now Karamojong notoriety for armed cattle raiding has attracted the attention of the UN and USAID since the proliferation of small arms in the pastoralist belt across Africa from Sudan to stateless Somalia is deemed a threat to world security The consequences are ethnocidal but what makes African peoples stand out against state and global governance The traditional African religion of the Karamojong despite the multiple external influences of the twentieth century and earlier has remained at the heart of their culture as it has changed through time Drawing on oral accounts and the language itself as well as his extensive experience of living and working in the region Knighton avoids Western perspectivism to highlight the successful reassertion of African beliefs and values over repeated attempts by interventionists to replace or subvert them Knighton argues that the religious aspect of Karamojong culture with its persistent faith dimension is one of the key factors that have enabled them to maintain their amazing degree of religious political and military autonomy in the postmodern

world Using historical and anthropological approaches the real continuities within the culture and the reasons for mysterious vitality of Karamojong religion are explored *The Social Meanings of Sacrifice in the Hebrew Bible* David

Janzen,2012-08-09 This work uses anthropological theory and field studies to investigate the social function and meaning of sacrifice All rituals including sacrifice communicate social beliefs and morality but these cannot be determined outside of a study of the social context Thus there is no single explanation for sacrifice such as those advanced by Ren Girard or Walter Burkert or late 19th and early 20th century scholars The book then examines four different writings in the Hebrew Bible the Priestly Writing the Deuteronomistic History Ezra Nehemiah and Chronicles to demonstrate how different social origins result in different social meanings of sacrifice Remembering Turkana Samuel F. Derbyshire,2020-07-30 This book explores aspects of the socio economic and political history of the Turkana of northern Kenya examining the making and remaking of the regional economy via the trajectories of socio material interaction that have structured key practices relationships and livelihoods over the past century Traversing Turkana s constituent livelihoods and examining the historical relationships between them in relation to shifting economic ecological and political factors the book asks what perspective emerges from an in depth understanding of the everyday things that have taken part in processes of substantial socio cultural transformation By setting out a series of new examples established through long term research in the region it offers a characterisation of Turkana s iterative transformation as the articulation of a set of long term continuities Investigating quotidian personal and community histories it argues that Turkana s complex network of livelihood interactions has on the whole strengthened over time through its continual reformulation as identities livelihood practices and social institutions have been re imagined and reshaped with each new generation in order to reconstruct accumulated memory and knowledges Remembering Turkana provides a wide ranging socio historical overview of the Turkana region and people situating critical contemporary issues within diverse bodies of literature The characterisation of long term change and continuity as articulated and enacted via material culture production use and exchange that it offers will be of significance to a broad array of scholarly disciplines including archaeology history anthropology and political science *100 African religions before slavery & colonization* Akan Takruri,2017-02-12 This book list 100 African religions before slavery colonization These are the African systems that kept Africans at peace for over 100 000 years **Natural Theology** James K. The Leopard's Spots Gerrit Dimmendaal, 2015-01-27 In The Leopard's Spots Gerrit J Dimmendaal discusses the interaction between language cognition and culture in an African context with special focus on the cultural construction of meaning through language Such constructions are constrained by our cognitive system but leave lots of space for culture specific interpretations and thereby for tremendous typological diversity between languages This variation reflects the adaptive nature of human language in the same way that the spots of the leopard reflect selective advantages for its natural habitat But whereas science has essentially one explanation for the rosettes of the leopard the non scientific mind may attach meaning to his or her cultural environment by way of language through a plethora of strategies
