and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that geist spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West s 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US universalism America s vision as history s anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us

Daniel,2018-08-25 In Soldiering in the Army of Tennessee Larry Daniel offers a view from the trenches of the Confederate Army of Tennessee his book is not the story of the commanders but rather shows in intimate detail what the war in the western theater was like for the enlisted men Daniel argues that the unity of the Army of Tennessee unlike that of Robert E Lee s Army of Northern Virginia can be understood only by viewing the army from the bottom up rather than the top down The western army had neither strong leadership nor battlefield victories to sustain it yet it maintained its cohesiveness The glue that kept the men in the ranks included fear of punishment a well timed religious revival that stressed commitment and sacrifice and a sense of comradeship developed through the common experience of serving under losing generals The soldiers here tell the story in their own rich words for Daniel quotes from an impressive variety of sources drawing upon his reading of the letters and diaries of more than 350 soldiers as well as scores of postwar memoirs They write about rations ordnance medical care punishments the hardships of extensive campaigning morale and battle While eastern and western soldiers were more alike than different Daniel says there were certain subtle variances Western troops were less disciplined a bit rougher and less troubled by class divisions than their eastern counterparts Daniel concludes that shared suffering and a belief in the ability to overcome adversity bonded the soldiers of the Army of Tennessee into a resilient fighting force
