The Public and Private Management of Grief

Caroline Pearce,2019-05-09 Through a critical analysis of theory policy and practice The Public and Private Management of Grief looks at how recovery is the prevailing discourse that measures and frames how people grieve and considers what happens when people fail to recover Pearce draws on in depth interviews with bereaved people and a range of bereavement professionals to contemplate how failures to recover are socially perceived and acted upon Grounded in Foucauldian theory this book problematises the notion of recovery and instead argues for the acknowledgment of the experience of non recovery highlighting how recovery is a socially and historically constructed notion linked to the individualised vision of health and happiness promoted by neo liberal governmentality This book will be of interest to students and scholars across sociology anthropology social work and psychology with a focus on death dying and bereavement grief studies health and social care as well as counsellors clinical psychologists and social workers
