While the Big Three and their continental Allies fought against Nazi Germany another war was under way on the continent the war to shape the political landscape of post war Europe In the Balkans the war overlapped with political and ethnic conflicts engulfing the region in bloody civil wars In Central and Eastern Europe partisan movements engaged the Germans without losing sight of the danger posed by the arrival of the Red Army In France and in Italy the adoption of the slogans of national liberation provided the communist parties with a formidable democratic legitimacy which established them as key players in the political lives of their countries The British and the Americans worked to stir up support control and direct these resistance groups London created the Special Operations Executive SOE and Washington the Office of Strategic Services OSS both of whom sent agents into occupied Europe to liaise directly with the guerilla groups Through the Comintern Moscow carefully coordinated the actions of the European communist parties with the foreign policy of the Soviet Union which was acting for the first time as a key player in the arena of international relations The forests and the mountains where the partisans were fighting the Germans soon became a major part of the proxy war that the Big Three waged to shift the post war geopolitical balance in their favour Looking for the first time at the Big Three in a comparative study and spanning Europe from Yugoslavia to Poland from Greece to France and Italy this book vividly depicts and sharply analyses how this proxy war shaped the history of the post war settlement In so doing Piffer deftly connects high political histories with history from below making the book important reading for all those interested in the history of the war and cold war communism and Resistance and diplomacy and intelligence

**Radio London and Resistance in Occupied Europe** Michael Stenton, 2000-10-19 This book examines British attempts to wage political warfare in the countries occupied by Germany in the Second World War It describes the slow construction of political warfare machinery in London in terms of two twin difficulties Whitehall politics and fundamental doubts about what a successful war should have as its purpose It then examines how political warfare operated as a semi detached adjunct of diplomacy and how it engaged with the development of armed or active resistance in France Denmark Poland and Yugoslavia This is a study of British political imagination in a period when Britain still acted as a great power in control of her own decisions The experience of near defeat however left decision makers with dilemmas about rhetoric and ideology as much as policy Their refusal to resolve these dilemmas until pushed by events meant political warfare lacked the consistency and definition that might have given it greater force
