Luger Story:

Luger John Walter, 2018-02-13 The distinctive look of the Luger and its role in German military history make it the world's most famous handgun In *Luger* renowned gun expert John Walter traces the history of this semiautomatic pistol from an early design by Hugo Borchardt in the 1890s through its use in the trenches of the First World War to the final days of the Third Reich in WWII Other books on the Parabellum Pistole as the Luger was also known focus strictly on narrow subjects like manufacturing details or accessories While still offering the technical details to satisfy the collector Walter provides a comprehensive narrative history Readers will learn of the initial collaboration between Borchardt and Georg J Luger who patented the design in 1898 Following initial adoption by the Swiss Army design refinements convinced the Imperial German Navy to order the sidearm while the US Army passed on it following field trials in favor of the Colt Production ramped up for World War I and the gun became a prized trophy for Allied soldiers in both that conflict and World War II German soldiers aware of their desirability even used them as bait for booby traps Today it is still desired by collectors both for its unique design and for its connection to the history of Nazi Germany and Luger *The Story of the World's Most Famous Handgun* tells how it came to be

The Luger Neil Grant, 2018-09-20 Patented in 1898 and produced from 1900 Georg Luger's iconic semi automatic pistol became synonymous with Germany's armed forces throughout both world wars Initially chambered for the 7.65 21mm round from 1902 the Luger was designed for DWM's 9 19mm round which even today remains the most popular military handgun cartridge It was adopted by the Imperial German Navy in 1904 followed by the German Army in 1908 receiving the name Pistole 08 Despite being supplanted by the Walther P38 the Luger remained in widespread service with all arms of Nazi Germany's armed forces throughout World War II and even equipped East Germany's Volkspolizei in the years after 1945 Featuring full colour artwork expert analysis and archive and present day photographs this engaging study tells the story of the Luger the distinctive and deadly semi automatic pistol that has come to symbolize Germany's armed forces in the 20th century

The Hand Gun Story John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design *Midwest Book Review* Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in

1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele The Luger Story John Walter,1995 **The Illustrated History of Guns** Chuck Wills,2017-05-02 For the first time in paperback a photographic history of civilization as seen through the world s most deadly and fascinating firearms The Illustrated History of Guns is a comprehensive look at the tools of battle To craft this book more than five hundred photographs of genuine specimens were specially commissioned from the six thousand piece collection of the Berman Museum of World History The weapons featured span a period of close to four thousand years ranging from Ancient Greece to World War II and from the Crusades in Europe to the US Civil War It features a wide array of diverse treasures including the traveling pistols of Confederate president Jefferson Davis a royal Persian scimitar with 1 295 rose cut diamonds and rubies and a single 11 carat emerald set in gold first owned by Shah Abbas I of Persia and given in tribute to Catherine the Great The Illustrated History of Guns also offers information on weapons innovators including Alexander Forsyth Eliphalet Remington Samuel Colt Sergei Mosin the Mauser brothers Hiram Maxim John Browning Richard Gatling John T Thompson John Garland Feodor Tokarev Oliver Winchester and Mikhail Kalashnikov With unparalleled historical perspective and background on persons significant to the development and advancements of weapons technology or military strategy The Illustrated History of Guns belongs on the shelf of every history buff and firearms enthusiast Chasing the Ice: The Journey of a Young Luger Wilford Bautista, In the heart pounding world of luge competition one young athlete embarks on a journey of determination passion and hope for Olympic glory Set against the backdrop of this icy and exhilarating sport our protagonist faces insurmountable challenges both on and off the track From the rigorous training regimen to the intense pressure of competing on the world stage every twist and turn of their story unfolds with riveting suspense Will they overcome their doubts and fears to reach the pinnacle of success or will the weight of expectations crush their dreams As the gripping race towards the Olympics heats up our protagonist must navigate through rivalries setbacks and self discovery With the support of their loyal coach and unwavering determination they push themselves to their physical and emotional limits But when personal sacrifices and difficult decisions loom large will their passion for luge be enough to carry them through to victory Or will they have to confront the harsh reality of defeat knowing they have given their all in pursuit of their ultimate goal Amidst the thrill of frozen tracks and exhilarating speeds Chasing the Ice delves deep into the heart of the young luger Through triumphs trials and triumphs once more the reader is taken on a rollercoaster ride of emotions and exhilaration With each chapter filled with nail biting suspense and heartwarming moments of resilience this captivating tale will leave readers on the edge of their seats rooting for our brave athlete to seize their moment of glory on the icy slopes From the roar of the crowd to the solitude of the track

Written by Pulitzer Prize winner and New York Times bestselling novelist Stephen Hunter and John Bainbridge Jr an experienced journalist and lawyer *American Gunfight* is at once a groundbreaking work of meticulous historical research and the vivid and dramatically told story of an act of terrorism that almost succeeded. They have pieced together at last the story of the conspiracy that nearly doomed the president and how a few good men ordinary guys who were willing to risk their lives in the line of duty stopped it. It begins on November 1 1950 an unseasonably hot afternoon in the sleepy capital. At 2:00 P M in his temporary residence at Blair House the president of the United States takes a nap. At 2:20 P M two men approach Blair House from different directions. Oscar Collazo a respected metal polisher and family man and Griselio Torresola an

unemployed salesman don't look dangerous not in their new suits and hats not in their calm purposeful demeanor not in their slow unexcited approach What the three White House policemen and one Secret Service agent cannot guess is that under each man's coat is a 9mm automatic pistol and in each head a dream of assassin's glory At point blank range Collazo and then Torresola draw and fire and move toward the president of the United States Hunter and Bainbridge tell the story of that November day with narrative power and careful attention to detail They are the first to report on the inner workings of this conspiracy they examine the forces that led the perpetrators to conceive the plot The authors also tell the story of the men themselves from their youth and the worlds in which they grew up to the women they loved and who loved them to the moment the gunfire erupted Their telling commemorates heroism the quiet commitment to duty that in some moments of crisis sees some people through an ordeal even at the expense of their lives
