Lydgate's Siege of Thebes John Lydgate,1911 John Lydgate and the Making of Public Culture Maura

Nolan,2005-08-11 Inspired by the example of his predecessors Chaucer and Gower John Lydgate articulated in his poetry prose and translations many of the most serious political questions of his day In the fifteenth century Lydgate was the most famous poet in England filling commissions for the court the aristocracy and the guilds He wrote for an elite London readership that was historically very small but that saw itself as dominating the cultural life of the nation Thus the new literary forms and modes developed by Lydgate and his contemporaries helped shape the development of English public culture in the fifteenth century Maura Nolan offers a major re interpretation of Lydgate s work and of his central role in the developing literary culture of his time Moreover she provides a wholly new perspective on Lydgate s relationship to Chaucer as he followed Chaucerian traditions while creating innovative new ways of addressing the public **Culture and History, 1350-1600** David Aers,1992 Six essays explore the making of human identities and agency in English communities between the Great Plague and about 1600 They also focus attention on the processes of understanding past cultures and their texts Among the topics are court politics sacred and secular drama and women Paper edition 2416 9 15 95 Annotation copyrighted by Book News Inc Portland OR **The Minor Poems of John Lydgate** John Lydgate,1911 *Early English Text Society: Magnyfycence* ,1908 *Lydgate's Reson and Sensuallyte* John Lydgate,1901 **The Medieval British Literature Handbook** Daniel T. Kline,2009-08-25 One stop resource for courses in medieval literature providing students with a comprehensive guide to the historical and cultural context major texts and movements reading primary and critical texts key critics concepts and topics major critical approaches and directions of new research *Chaucer and Fame* Isabel Davis,Catherine Nall,2015 Fama or fame is a central concern of late medieval literature Where fame came from who deserved it whether it was desirable how it was acquired and kept were significant inquiries for a culture that relied extensively on personal credit and reputation An interest in fame was not new being inherited from the classical world but was renewed and rethought within the vernacular revolutions of the later Middle Ages The work of Geoffrey Chaucer shows a preoccupation with ideas on the subject of fama not only those received from the classical world but also those of his near contemporaries via an engagement with their texts he aimed to negotiate a place for his own work in the literary canon establishing fame as the subject site at which literary theory was contested and writerly reputation won Chaucer s place in these negotiations was readily recognized in his aftermath as later writers adopted and reworked postures which Chaucer had struck in their own bids for literary place This volume considers the debates on fama which were past present and future to Chaucer using his work as a centre point to investigate canon formation in European literature from the late Middle Ages and into the Early Modern period Isabel Davis is Senior Lecturer in Medieval Literature at Birkbeck University of London
