Lying Cheating Stealing Criminal Justice Studies:

The Routledge Handbook of International Crime and Justice Studies Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective *Smith and Hogan's Criminal Law* David Ormerod, Karl Laird, John Cyril Smith, Brian Hogan, 2015 Criminal Law is written with the needs of the student foremost in mind to provide more than ever as modern and as comprehensive an exposition of the criminal law as he or she could possibly require **The Legitimacy of EU Criminal Law** Irene Wiecezorek, 2020-07-09 This book traces the history of the EU competence EU policy discourse and EU legislation in the field of criminalisation from Maastricht until the present day It asks Why EU Criminal Law looking at what rationales the Treaty policy document and legislation put forth when deciding whether a certain behaviour should be a criminal offence To interpret the EU approach to criminalisation it relies on both modern and post modern theoretical frameworks on the legitimacy of criminal law read jointly with the theories on the functions of EU harmonisation of national law The book demonstrates that while EU constitutional law leans towards an effectiveness based enforcement driven understanding of criminal law the EU has in fact in more than one instance adopted symbolic EU criminal law ie criminal law aimed at highlighting what values are important to the EU but which is not fit to actually deter individuals from harming such values The book then questions whether this approach is consistent or in contradiction with the values based constitutional identity the EU has set for itself Criminal Justice and Taxation Peter Alldridge, 2017-02-16 The fallout from the financial crisis of 2007 8 HSBC Suisse in 2015 and the Panama Papers in 2016 has generated calls for far more vigorous and punitive responses to tax evasion and greater international co operation against mechanisms for giving anonymity to the ownership of property One mechanism to ensure compliance is the use of the criminal justice system The announcement in 2013 by the then Director of Public Prosecutions Keir Starmer of a policy of increasing rates of prosecution for tax evasion raised squarely the issue of whether increased involvement of criminal law and criminal justice in tax evasion would be justifiable or not The relationship between tax evasion and the proceeds of crime is taking on increasing importance treating the proceeds of criminal tax evasion as falling within the proceeds of crime regime inevitably expands the scope of both In this book Peter Alldridge considers the development of the offences and the relationship between tax evasion offences and other criminal offences the relevant rules of evidence prosecution structures decision making processes and alternatives to prosecution Specific topics include offshore evasion and the relationship of tax evasion with other crimes and aspects of the criminal justice system A topical and lively discussion of a heated debate Overcriminalization Douglas Husak, 2008-01-08 In the US one out of every 138 residents is incarcerated The size of the prison population has quadrupled since 1980 Approximately 2 4% of Americans are either on probation and parole The US has the highest rate of criminal punishment in the Western world The problem with American criminal law as the philosopher of law Douglas Husak and many others see it is that there is

simply too much of it Recent years have seen a dramatic expansion in the amount of criminal statutes and in the resulting reliance on punishment for convictions under those laws Husak argues that this is regrettable for several reasons but most importantly he says that much of the resulting punishment is unjust excessive and disproportionate He also claims that it is destructive to the rule of law and undermines the principle of legality What should be done Husak's goal in this book is to formulate a normative theory of criminalization that will allow us to distinguish which criminal laws are justified and which are not something he sees this as essential in order to reverse the trend towards too many criminal laws The first part of his book makes the case that there is both too much criminal law and too much punishment and clarifies the relationship between the two using empirical data He then provides examples of dubious criminal laws enacted by legislatures in particular statutes on drugs possession and guns The latter part of the book develops his theory which establishes principles that should set limits both external and internal to the criminal law on what we can and should criminalize *Smith, Hogan, and Ormerod's Criminal Law* David Laird Ormerod (Karl Gibson, Matthew), 2024 **Smith, Hogan, and Ormerod's**

Criminal Law David Ormerod, Karl Laird, 2018 Smith Hogan Ormerod's Criminal Law is rightly regarded as the leading doctrinal textbook on criminal law in England and Wales Published in its first edition over fifty years ago it continues to be a key text for undergraduates and an essential reference source for practitioners Dishonesty, Liability and the Law Sotirios Santatzoglou, Martin Wasik, Anthony Wrigley, 2025-07-31 In 2017 in Ivey v Genting Casinos the Supreme Court judged that the dishonesty test is objective and should be the single one in use for any area of law The judgment sparked some criticism regarding the inflexibility of an objective test The subsequent 2020 Court of Appeal judgment in R v Barton confirmed the objective test in Ivey However little dedicated discussion and analysis of the dishonesty test has subsequently taken place leaving a growing concern that the one currently in use may not be suitable for determining dishonesty in all contexts This interdisciplinary collection challenges the idea of the single objective test by considering the issue of context in defining dishonesty The volume is divided into three parts The first focuses on the analysis of the concept of dishonesty and the dishonesty test both in relation to context and its impact in determining whether or not liability arises In the second part the focus is on contexts of public and private dealings where dishonesty can be the reason to place liability or where its implications should be modified in order to limit liability Finally in the third part the focus is on the context of healthcare practice and its interface with the conceptual dichotomy of honesty dishonesty The conclusion draws together shared themes notably the issues of fairness and justice that arise from the work to demonstrate the definitional vacuum in the law on dishonesty The book will be of interest to academics researchers policy makers and regulators working in law ethics or areas of professional regulation and misconduct especially medicine nursing student academic misconduct and politics Similarly there will be appeal to those working in relevant professional regulatory areas such as law healthcare and sports governance

and paper mills and the methods used to combat them Explorations of the prevalence of cheating and plagiarism between 1990 and 2020 Psychological perspectives on the student motivations underlying academic integrity violations Teaching and learning approaches to reduce academic misconduct in both online and in person courses A must read resource for administrators leaders and policymakers involved with higher education Cheating Academic Integrity also belongs on the bookshelves of school administrators in training and others preparing for a career in education **Answering for Crime** R A Duff,2007-11-16 In this long awaited book Antony Duff offers a new perspective on the structures of criminal law and criminal liability His starting point is a distinction between responsibility understood as answerability and liability and a conception of responsibility as relational and practice based This focus on responsibility as a matter of being answerable to those who have the standing to call one to account throws new light on a range of questions in criminal law theory on the question of criminalisation which can now be cast as the question of what we should have to answer for and to whom under the threat of criminal conviction and punishment on questions about the criminal trial as a process through which defendants are called to answer and about the conditions bars to trial given which a trial would be illegitimate on questions about the structure of offences the distinction between offences and defences and the phenomena of strict liability and strict responsibility and on questions about the structures of criminal defences The net result is not a theory of criminal law but it is an account of the structure of criminal law as an institution through which a liberal polity defines a realm of public wrongdoing and calls those who perpetrate or are accused of perpetrating such wrongs to account Doing Time on the Outside Donald Braman,2007-08-06 Stigma shame and hardship this is the lot shared by families whose young men have been swept into prison Braman reveals the devastating toll mass incarceration takes on the parents partners and children left behind Katherine S Newman Doing Time on the Outside brings to life in a compelling way the human drama and tragedy of our incarceration policies Donald Braman documents the profound economic and social consequences of the American policy of massive imprisonment of young African American males He shows us the link between the broad scale policy changes of recent decades and the isolation and stigma that these bring to family members who have a loved one in prison If we want to understand fully the impact of current criminal justice policies this book should be required reading Mark Mauer Assistant Director The Sentencing Project Through compelling stories and thoughtful analysis this book describes how our nation s punishment policies have caused incalculable damage to the fabric of family and community life Anyone concerned about the future of urban America should read this book Jeremy Travis The Urban Institute In the tradition of Elijah Anderson s Code of the Street and Katherine Newman s No Shame in My Game this startling new ethnography by Donald Braman uncovers the other side of the incarceration saga the little told story of the effects of imprisonment on the prisoners families Since 1970 the incarceration rate in the United States has more than tripled and in many cities urban centers such as Washington D C it has increased over five fold Today one out of every ten adult black men in the District is in prison and three out of every four

can expect to spend some time behind bars But the numbers don't reveal what it's like for the children, wives and parents of prisoners or the subtle and not so subtle effects mass incarceration is having on life in the inner city Author Donald Braman shows that those doing time on the inside are having a ripple effect on the outside reaching deep into the family and community life of urban America Braman gives us the personal stories of what happens to the families and communities that prisoners are taken from and return to Carefully documenting the effects of incarceration on the material and emotional lives of families this groundbreaking ethnography reveals how criminal justice policies are furthering rather than abating the problem of social disorder Braman also delivers a number of genuinely new arguments Among these is the compelling assertion that incarceration is holding offenders unaccountable to victims, communities and families The author gives the first detailed account of incarceration's corrosive effect on social capital in the inner city and describes in poignant detail how the stigma of prison pits family and community members against one another Drawing on a series of powerful family portraits supported by extensive empirical data Braman shines a light on the darker side of a system that is failing the very families and communities it seeks to protect

Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Toccock Reference Reviews In discussing a criminology topic, lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However, university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics: the who, what, where, how and why, if you will And reference librarians often find it difficult to guide these students to a quick one-stop source In response SAGE Reference is publishing the two-volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in the context needed to understand their

strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory

White-Collar Crime J. Goldstraw-White, 2011-10-27 This book explores the accounts given by white collar crime offenders to defend their criminal behaviour in order to preserve their characters and social standing It is based on in depth interviews with 41 male and female convicted white collar offenders who were still serving their sentences in English prisons Whilst a number of texts have been written about white collar crime offenders very few studies have attempted to approach this by examining the actual reasons and motives for their criminal behaviour directly from the offenders This book aims to make further progress in this area By exploring the participants motives opportunities and morality this book will make a key contribution to exploring white collar crime offenders perspectives of their crimes This book not only adds to the academic knowledge in this area but also helps organizations to consider the strengths of their crime prevention methods and appropriateness of their fraud and security policies

Facing the Limits of the Law Erik Claes, Wouter Devroe, Bert Keirsbilck, 2009-04-21 Many legal experts no longer share an unbounded trust in the potential of law to govern society efficiently and responsibly They often experience the limits of the law as they are confronted with striking inadequacies in their legal toolbox with inner inconsistencies of the law with problems of enforcement and obedience and with undesired side effects and so on The contributors to this book engage in the challenging task of making sense of this experience Against the background of broader cultural transformations such as globalisation new technologies individualism and cultural diversity they revisit a wide range of areas of the law and map different types of limits in relation to some basic functions and characteristics of the law Additionally they offer a set of strategies to manage justifiably law s limits such as dedramatising law s limits conceptual refinement constructivism striking the right balance between different functions of the law seeking for complementarity between law and other social practices
