Abb. 8°* John Clive, 1973 **Macaulay: the Shaping of the Historian** John Leonard Clive, 1973 Determined to be his own man he had no sooner achieved financial and political security in a lucrative post on the Governor General's Council in India than the relationship with his beloved sisters so necessary to his emotional security was destroyed Here is the public Macaulay cocksure and impetuous a parvenu lacking the specific gravity of a statesman and yet speaking out not only for freedom as an abstraction but concretely for the rights of Jews Roman Catholics and blacks envisioning a potential beauty and splendor in industrialization almost singlehandedly writing a penal code for India becoming embroiled in the crucial controversy over Indian education what should be taught and in what language and forever leaving his mark on Anglo Indian cultural relations just as India left its mark on him **Macaulay** Owen Dudley Edwards, 1988 **Thomas Babington Macaulay; the Historian, Statesman, and Essayist** Thomas Babington Macaulay, 1860 *Lord Macaulay* Thomas Babington Macaulay Baron Macaulay, 1898 Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies British Historians and National Identity Anthony Leon Brundage, 2015-10-06 Two eminent scholars of historiography examine the concept of national identity through the key multi volume histories of the last two hundred years Starting with Hume's History of England 1754-62 they explore the work of British historians whose work had a popular readership and an influence on succeeding generations of British children *Macaulay and Son* Catherine Hall, 2012-10-30 Explores the emotional intellectual and political roots of Zachary Macaulay the leading abolitionist and his son Thomas's visions of race nation and empire The story moves from late eighteenth century Scotland to the plantations of Jamaica from the new colony of Sierra Leone to India from Leeds and Edinburgh to London The Macaulay family with its intense dynamics and complex relationships provides one thread while the politics of abolition of reform of empire and of history writing is another The contrasting moments of evangelical humanitarianism and liberal imperialism are seen through the writings and careers of father and son P 2 of cover Lord Macaulay Thomas Babington

The Arnoldian ,1991 **The Engaged Historian** Stefan Berger,2019-04-01 On the surface historical scholarship might seem thoroughly incompatible with political engagement the ideal historian many imagine is a disinterested observer focused exclusively on the past In truth however political action and historical research have been deeply intertwined for as long as the historical profession has existed In this insightful collection practicing historians analyze reflect on and share their experiences of this complex relationship From the influence of historical scholarship on world political leaders to the present day participation of researchers in post conflict societies and the Occupy movement these studies afford distinctive humane and stimulating views on historical practice and practitioners The Critical Historian G Kitson Clark,2016-04-14 Originally published in 1967 this book analyses the method by which historical evidence is built up and compares the nature of historical proof with that of other disciplines such as the law and natural sciences It examines an extraordinary series of forgeries and distortions from the False Decretals to the biographies of Lytton Strachey as well as discussing how an historical reputation such as that enjoyed by Judge Jefferies was created **History and the Reader** G. M.

Trevelyan,2016-05-26 This book presents the National Book League s Third Annual Lecture which discusses the relationship between the reading public and the nature of historical inquiry Popular Historiographies in the 19th and 20th Centuries Sylvia Paletschek,2010-12-01 Popular presentations of history have recently been discovered as a new field of research and even though interest in it has been growing noticeably very little has been published on this topic This volume is one of the first to open up this new area of historical research introducing some of the work that has emerged in Germany over the past few years While mainly focusing on Germany though not exclusively the authors analyze different forms of popular historiographies and popular presentations of history since 1800 and the interrelation between popular and academic historiography exploring in particular popular histories in different media and popular historiography as part of memory culture Modern European Intellectual History David Galaty,2022-01-27 This non technical introduction to modern European intellectual history traces the evolution of ideas in Europe from the turn of the 19th century to the modern day

Placing particular emphasis on the huge technological and scientific change that has taken place over the last two centuries David Galaty shows how intellectual life has been driven by the conditions and problems posed by this world of technology In everything from theories of beauty to studies in metaphysics the technologically based modern world has stimulated a host of competing theories and intellectual systems often built around the opposing notions of the power of the individual versus collectivist ideals like community nation tradition and transcendent experience In an accessible jargon free style Modern European Intellectual History unpicks these debates and historically analyses how thought has developed in Europe since the time of the French Revolution Among other topics the book explores The Kantian Revolution Feminism and the Suffrage Movement Socialism and Marxism Nationalism Structuralism Quantum theory Developments in the Arts Postmodernism Big Data and the Cyber Century Highly illustrated with 80 images and 10 tables and further supported by an online Instructor's Guidet this is the most important student resource on modern European intellectual history available today *Historians and the Church of England* James Kirby, 2016 In the Victorian and Edwardian era history was one of the most prized forms of cultural and intellectual activity it was quite simply the lens through which most of the educated population understood human society *Historians and the Church of England* uncovers for the first time the extent to which this historical understanding was conditioned by religious ideas and institutions Rejecting the traditional chronology of intellectual secularization it contends that the Church of England in particular remained an active force in the development of scholarship leaving a deep impression on history just as it was becoming a modern discipline It therefore challenges readers to revise their understanding of the history of both historiography and religion in the nineteenth and early twentieth centuries *The Great Historians* Kenneth Norman Bell, Gladys M. Morgan, 1925
