My Life Is A Weapon A Modern History Of Suicide Bombing:

My Life is a Weapon Christoph Reuter, 2004 What kind of people are suicide bombers How do they justify their actions In this meticulously researched and sensitively written book journalist Christoph Reuter argues that popular views of these young men and women as crazed fanatics or brainwashed automatons fall short of the mark In many cases these modern day martyrs are well educated young adults who turn themselves into human bombs willingly and eagerly to exact revenge on a more powerful enemy perceived as both unjust and oppressive Suicide assassins are determined to make a difference for once in their lives no matter what the cost As Reuter's many interviews with would be martyrs their trainers friends and relatives reveal the bombers are motivated more by how they expect to be remembered as heroic figures than by religion infused visions of a blissful life to come Reuter who spent eight years researching the book moves from the broken survivors of the childrens suicide brigades in the Iran Iraq war of the 1980s to the war torn Lebanon of Hezbollah to Israeli occupied Palestinian land and to regions as disparate as Sri Lanka Chechnya and Kurdistan He tells a disturbing story of the modern globalization of suicide bombing orchestrated as his own investigations have helped to establish by the shadowy Al Qaeda network and unintentionally enabled by wrong headed policies of Western governments In a final hopeful chapter Reuter points to today's postrevolutionary post Khomeini Iran where a new social environment renounces the horrific practice in the very place where it was enthusiastically embraced just decades ago

The Age of Terror Ebrahim Amanat, MD, **What Terrorists Want** Louise Richardson, 2007-11-13 This is at the top of my list for

best books on terrorism Jessica Stern author of *Terror in the Name of God Why Religious Militants Kill* How can the most powerful country in the world feel so threatened by an enemy infinitely weaker than we are How can loving parents and otherwise responsible citizens join terrorist movements How can anyone possibly believe that the cause of Islam can be advanced by murdering passengers on a bus or an airplane In this important new book groundbreaking scholar Louise Richardson answers these questions and more providing an indispensable guide to the greatest challenge of our age After defining once and for all what terrorism is Richardson explores its origins its goals what's to come and what is to be done about it Having grown up in rural Ireland and watched her friends join the Irish Republican Army Richardson knows from firsthand experience how terrorism can both unite and destroy a community As a professor at Harvard she has devoted her career to explaining terrorist movements throughout history and around the globe From the biblical Zealots to the medieval Islamic Assassins to the anarchists who infiltrated the cities of Europe and North America at the turn of the last century terrorists have struck at enemies far more powerful than themselves with targeted acts of violence Yet Richardson understands that terrorists are neither insane nor immoral Rather they are rational political actors who often deploy carefully calibrated tactics in a measured and reasoned way What is more they invariably go to great lengths to justify their actions to themselves their followers and often the world Richardson shows that the nature of terrorism did not change after the attacks of September 11 2001 what changed was our response She argues that the Bush administration's global war on terror was doomed to fail because of an ignorance of history a refusal to learn from the experience of other governments and a fundamental misconception about how and why terrorists act As an alternative Richardson offers a feasible strategy for containing the terrorist threat and cutting off its grassroots support The most comprehensive and intellectually rigorous account of terrorism yet *What Terrorists Want* is a daring intellectual tour de force that allows us at last to reckon fully with this major threat to today's global order KIRKUS starred review The short answer Fame and payback perhaps even a thrill The long answer Read this essential important primer Terrorist groups have many motives and ideologies notes Richardson Executive Dean Radcliffe Institute for Advanced Study but they tend to similar paths They are founded by mature well educated men but staffed by less learned and certainly more pliable youths they are fueled by a sense of injustice and the conviction that only they are morally equipped to combat it they see themselves as defenders and not aggressors they often define the terms of battle And of course this commonality Terrorists have elevated practices that are normally seen as the excesses of warfare to routine practice striking noncombatants not as an unintended side effect but as a deliberate strategy Thus massacres suicide bombings and assassinations are all in a day's work Richardson argues against Karl Rove who after 9/11 mocked those who tried to understand the enemy by noting that only when authorities make efforts to get inside the minds of their terrorist enemies do they succeed in defeating them as with the leadership of the Shining Path movement in Peru Still as Rove knows if terrorists share a pathology then so do at least some of their victims Once attacked people in

democratic societies are more than willing to trade freedom for security Richardson closes by offering a set of guidelines for combating terrorism with such easily remembered rules as Live by your principles and Engage others in countering terrorists with you observing in passing that the Bush administration's attack on Iraq and subsequent occupation will likely be remembered as serving as a recruiting poster for still more terrorists How to win Develop communities settle grievances exercise patience and intelligence That said watch for more terrorism to come We are going to have to learn to live with it and to accept it as a price of living in a complex world

Louise Richardson has now produced the overdue and essential primer on terrorism and how to tackle it What Terrorists Want is the book many have been waiting for The New York Times Book Review Editor's Choice Lucid and powerful Richardson's book refutes the dangerous idea that there's no point in trying to understand terrorists rich readable Los Angeles Times Book Review The kind of brisk and accessible survey of terrorism as modus operandi that has been sorely missing for the past five years What Terrorists Want ought to be required reading as the rhetoric mounts this campaign season The American Prospect Richardson is one of the relative handful of experts who have been studying the history and practice of terrorism since the Cold War This book is a welcome source of information It's written by a true expert giving her measured thoughts Christian Science Monitor Richardson's clear language and deep humanity make What Terrorists Want the one book that must be read by everyone who cares about why people resort to the tactic of terrorism Desmond M Tutu Archbishop Emeritus This is a book of hope Terrorism like the poor will always be with us in one form or another But given sensible policies we can contain it without destroying what we hold dear Financial Times A passionate incisive and groundbreaking argument that provocatively overturns the myths surrounding terrorism Mary Robinson former president of Ireland and former UN High Commissioner for Human Rights In its lucid analysis and summary What Terrorists Want is simply the best thing of its kind available now in this highly crowded area The Evening Standard If a reader has the time to read only one book on terrorism What Terrorists Want is that book Extensive historical knowledge personal contacts enormous analytic skills common sense and a fine mix of lucidity and clarity make of this work a most satisfying dissection of terrorists motives and goals and of the effects of September 11 2001 Richardson also offers a sharp critique of American counterterrorism policies and a sensible plan for better ones Stanley Hoffmann Battenwieser University Professor Harvard University An astonishingly insightful analysis by one of the world's leading authorities on terrorism this book is filled with wisdom based not only on the author's extensive and long term study of terrorism but also on her experience growing up in a divided Ireland Jessica Stern author of Terror in the Name of God Why Religious Militants Kill A wide ranging clear headed crisply written cogently argued anatomy of terrorist groups around the world Peter Bergen senior fellow New America Foundation and author of The Osama bin Laden I Know An Oral History of al Qaeda's Leader Among the numerous books published on terrorism after the 9 11 attacks Louise

Richardson's stands out as an unusually wise sensible and humane treatise An engrossing and lucid book which hopefully will be read by many and spread its unique spirit of realistic optimism Ariel Merari Professor of Psychology Tel Aviv University Thoughtful and stimulating Controversially and indeed courageously Richardson argues that instead of regarding the terrorists even al Qaeda types as mindless and irrational creatures motivated by dark forces of evil it would be more constructive to examine and seek to moderate some of the grievances that drive previously normal and even nondescript characters to kill and maim innocent people they don't even know The Irish Times A textbook and a myth buster Richardson is calling for nothing less than a total re-evaluation of how we consider and react to terrorism What Terrorists Want ought to be on the bookshelf in every government office Certainly for any student of international affairs it is an essential reading The Atlantic Affairs
