Change Your Life's Direction Jim

Taylor, PhD, 2021-05-07 Jim Taylor explores how to harness the four forces that can control our life inertia and propel our lives in the direction of our OWN choosing values self esteem ownership and emotions Many people think of inertia as an object at rest will stay at rest unless a force is exerted on it like a boulder in a field And people can think of their lives in the same way static and unmoving But we aren't stuck in one place as so many express when they are dissatisfied with their lives Rather our lives are moving swiftly and inexorably along a path driven by powerful forces both past and present that is highly resistant to a change in direction As a result small forces such as a modest insight or a brief aha moment aren't enough to catalyze significant change in how we think what we feel or how we act on or react to our world In fact meaningful change can only occur when forces are applied that are greater than the forces that are already propelling our lives Seeing our lives from this dynamic perspective is the foundation for understanding what it takes to bring meaningful and long lasting positive change to our lives Jim Taylor explores the four forces values self esteem ownership and emotions that propel our life inertia which shows itself through the lens with which we view the world the emotional reactions we have the actions that we take and the relationships that we create He then explains how to harness those to our own benefit so that we may steer our lives in the direction of our own choosing rather than allowing our past inertia or outside forces to dictate the direction our lives take By letting our values guide us building our self esteem taking ownership of our decisions and actions and using our emotions as positive fuel we can break free from our past inertia take control of our lives and chart a future of meaning happiness success and connection with confidence commitment and courage

Writing from Within: The Next Generation

Bernard Selling, 2012-05-08 Everybody has something to say In an age when Twitter blogs and Tumblrs give millions the

chance to write whatever is on their minds it seems that we're finding plenty of avenues in which to share it. How then do we write what is worth saying? How do we record our important memories so they'll be remembered? How do we tell our personal stories the way they deserve to be told? In keeping with successful earlier editions of *Writing from Within*, Selling has stressed the idea that personal writing is a means to personal understanding. Learning to write well starts with the subjects we know the best: ourselves. To write life stories, writers explore vivid memories and re-engage with the perspectives of their younger selves. They learn to harness their inner critics and deal with fear. They use their creative drive to remember details from their most significant memories. The process of life story writing is as much one of self-discovery as it is one of nostalgia. These emotional connections to memories provide the backbone for Selling's writing instruction. In this 25th anniversary edition of *Writing from Within*, the original lessons of life story writing are included and significantly expanded upon. Readers are given guidance on finding their earliest memories and on remembering details vividly. Writing instruction is offered to accompany this process and ensure that readers' life stories are full of clear, accurate memories. The core focus of the book is on unlocking memories and writing them as life stories. However, this Anniversary edition also provides substantial new material on story pacing techniques, strategies for subtly adding exposition and denouement, revealing and unraveling character, writing stories within stories, developing unique voices within the same story, researching and writing family histories, expanding life story writing into novels or screenplays, advanced steps like creating visual motifs, employing subtext, and separating the writer from the central character. Draft samples will show readers how their life stories will grow using the *Writing from Within* method. Excerpts from past students' life stories show the potential of the method. Personal notes to readers keep them on track and their goals in perspective. *Writing from Within: The Next Generation* invites readers to find their voices and helps them along the way to doing so. As much a tool for personal reflection as a guide to writing instruction, the book represents a comprehensive discussion of the creative process. Writers new and old will write with more skill, understand themselves and their characters better, and be able to turn their life experiences into art. So learn to harness your inner critic. Construct your own writing process. Open the door to your past. Give the characters voices. Breathe some life into your story and leave something so future generations can get to know you. **My Life's Flow** Taryn A. Robinson, 2009-03-17
