Rivera,2018-10-31 *Enfleshing Theology* honors and engages the life work of M Shawn Copeland whose theology is groundbreaking and prophetic traversing the fields of Catholic Theology Black Theology Womanist Thought and Semiotics The book opens with a brief introduction and then moves to an interview with Copeland which connects her theology to her life stories The conversation with Copeland also provides a backdrop to the seventeen essays that follow extending Copeland s theological worldview The contributions are divided according to the following sections embodiment discipleship and politics The essays in the section entitled *Engaging Embodiment* critically reflect on the importance of embodiment in Christian theology and contemporary culture Following Copeland s lead authors in this section theorize and theologize the body particularly but not limited to Black women s bodies as a locus theologicus that reveals mediates and shapes the splendor and suffering reality of human existence The next section entitled *Engaging Discipleship* focuses on the concrete challenges of following Jesus in today s world The essays included in this section reflect on Copeland s focus on Jesus particularity in terms of his solidarity with and for others Discipleship is about modeling and mentoring so scholars in this section also comment on Copeland s contribution to teaching and pedagogy The last section entitled *Engaging the Political* interrogates the political implications of the theological It is noteworthy that there are two trajectories of the political here one is Copeland s development of political theology through the lens of Canadian Jesuit theologian Bernard Lonergan The other trajectory focuses on the work of theology in contemporary art and politics These three sections are fluid and overlap with one another Several of the articles on embodiment speak to questions of solidarity and a few of the essays on discipleship clearly present as political The ways in which each of the contributions in this volume overlap with each other attests to the complex nature of doing constructive theology today and even more how Copeland s work is at the forefront of that multi layered polyvalent intersectional theological work
