My Patients Were Zulus:

My Patients Were Zulus James B. McCord, John Scott Douglas, 1946 **My Patients Were Zulus** James Bennett McCord, John Scott Douglas, 1951 **My Patients Were Zulus. [By] J.B. McCord ... with John Scott Douglas** James Bennett MACCORD, John Scott DOUGLAS, 1957 The Human Cost of African Migrations Toyin Falola, Niyi Afolabi, 2007-11-13 In an era of globalization population growth and displacements migration is now a fact of life in a constantly shifting economic and political world order This book contributes to the discourse on the beneficiaries benefactors and the casualties of African displacement While the few existing studies have emphasized economic motivation as the primary factor triggering African migration this volume treats a range of issues economic socio political pedagogical developmental and cultural Organized with a multidisciplinary thrust in mind this book argues that any discussion of African migration whether internal or external must be conceived as only one aspect of a more complex organic and global patterning of flux and reflux necessitated by constantly shifting dynamics of world socio economic cultural and political order

Between Worlds Les Switzer, 2025-08-21 *Between Worlds* expands beyond the focus of the previous volume the British colony of Natal to the more challenging framework of the American Zulu Mission and its Congregational churches in southeastern Africa between the 1880s and 1920s This study rejects arguments by many critical scholars who see Western missionaries at best as adjuncts of the colonial project imposing an understanding of Western Christianity that inevitably clashes with alien and resistant African cultures The mission church relationship in this era also changes dramatically especially in urban environments The church in South Africa becomes the dominant partner from the 1880s and by 1900 the mission has become an adjunct of the church an understanding with far reaching consequences elsewhere in the subcontinent

Contingent Citizens Elizabeth Hull, 2020-05-27 *Contingent Citizens* examines the ambiguous state of South Africa's public sector workers and the implications for contemporary understandings of citizenship It takes us inside an ethnography of the professional ethic of nurses in a rural hospital in KwaZulu Natal shaped by a deep history of mission medicine and changing forms of new public management Liberal democratic principles of transparency decentralization and rights though promising freedom from control often generate fear and insecurity instead But despite the pressures they face Elizabeth Hull shows that nurses draw on a range of practices from international migration to new religious movements to assert new forms of citizenship Focusing an anthropological lens on professionalism Hull explores the major fault lines of South Africa's fragmented social landscape class gender race and religion to make an important contribution to the study of class formation and citizenship This prize winning monograph will be of interest to scholars of anthropology development studies sociology and global public health

Lords of the Fly Kirk A. Hoppe, 2003-11-20 British sleeping sickness control in colonial Uganda and Tanzania became a powerful mechanism for environmental and social engineering that defined and delineated African landscapes reordered African mobility and access to resources As colonialism shifted from conquest to

occupation colonial scientists exercised much influence during periods of administrative uncertainty about the role and future of colonial rule Impartial and objective science helped to justify the British civilizing mission in East Africa by muting the moral ambiguities and violence of colonial occupation Africans actions shaped systems of western scientific knowledge as they evolved in colonial contexts Bridging what might otherwise be viewed as the disparate colonial functions of environmental and health control sleeping sickness policy by the British was not a straightforward exercise of colonial power The implementation of sleeping sickness control compelled both Africans and British to negotiate African elite farmers and fishers and British administrators field officers and African employees all adjusted their actions according to on going processes of resistance cooperation and compromise Interactions between colonial officials their African agents and other African groups informed African and British understandings about sleeping sickness sleeping sickness control and African environments and transformed Western ideas in practice

Bookseller's catalogues Thornton J. and son, 1883

The Human Cost of African Migrations , *Missions of Interdependence* Gerhard Stilz, 2002 At the beginning of the twenty first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism in order to help the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital In this book thirty five scholars address and negotiate in a spirit of learning and understanding an exemplary variety of intercultural splits and fissures that have opened up in the English speaking world Their methodology can be seen to constitute a seminal field of intellectual signposts They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations They show how a new ethic of literary self assertion interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices silences and taboos established by discrimination against race class and gender
