**Nicholas Hilliard** Karen Hearn,2005 Nicholas Hilliard has helped form our ideas of the appearance of Elizabeth I Mary Queen of Scots Sir Francis Drake and James I among others His painted works open a remarkable window onto the highest levels of English British society in the later years of the sixteenth and the early years of the seventeenth century the Elizabethan and Jacobean ages In this book Karen Hearn gives us an intimate portrait of Nicholas Hilliard his life his work and the techniques he used to produce his exquisite miniatures Karen Hearn is curator of Sixteenth and Seventeenth Century Art at the Tate Britain She has written on Marcus Gheeraerts II Dynasties Painting in Tudor and Jacobean England 1530 1630 and In Celebration The Art of the Country House      Illustrating the Past in Early Modern England James A. Knapp,2017-07-28 Illustrating the Past is a study of the status of visual and verbal media in early modern English representations of the past It focuses on general attitudes towards visual and verbal representations of history as well as specific illustrated books produced during the period Through a close examination of the relationship of image to text in light of contemporary discussions of poetic and aesthetic practice the book demonstrates that the struggle between the image and the word played a profoundly important role in England s emergent historical self awareness The opposition between history and story fact and fiction often tenuous provided a sounding board for deeper conflicts over the form in which representations might best yield truth from history The ensuing schism between poets and historians over the proper venue for the lessons of the past manifested itself on the pages of early modern printed books The discussion focuses on the word and image relationships in several important illustrated books printed during the second half of the sixteenth century including Holinshed s Chronicles 1577 and Foxe s Book of Martyrs 1563 1570 in the context of contemporary works on history and poetics such as Sir Philip Sidney s Apology for Poetry and Thomas Blundeville s The true order and Method of wryting and reading Hystories Illustrating the Past specifically answers two important questions concerning the resultant production of literary and historical texts in the period Why did the use of images in printed histories suddenly become unpopular at the end of the sixteenth century and What impact did this publishing trend have on writers of literary and historical texts      **Hearing Homophony** Megan Kaes Long,2020-04-28 The question of tonality s origins in music s pitch content has long vexed many scholars of music theory However tonality is not ultimately defined by pitch alone but rather by pitch s interaction with elements like rhythm meter phrase structure and form Hearing Homophony investigates the elusive early history of tonality by examining a constellation of late Renaissance popular songs which flourished throughout Western Europe at the turn of the seventeenth century Megan Kaes Long argues that it is in these songs rather than in more

ambitious secular and sacred works that the foundations of eighteenth century style are found Arguing that tonality emerges from features of modal counterpoint in particular the rhythmic phrase structural and formal processes that govern it and drawing on the arguments of theorists such as Dahlhaus Powers and Barnett she asserts that modality and tonality are different in kind and not mutually exclusive Using several hundred homophonic partsongs from Italy Germany England and France Long addresses a historical question of critical importance to music theory musicology and music performance Hearing Homophony presents not only a new model of tonality s origins but also a more comprehensive understanding of what tonality is providing novel insight into the challenging world of seventeenth century music

**Representing the English Renaissance** Stephen Greenblatt, 2023-11-15 [Lomazzo's Aesthetic Principles Reflected in the Art of his Time](#) Lucia Tantardini, Rebecca Norris, 2020-08-31 Lomazzo s Aesthetic Principles Reflected in the Art of his Time explores the work of the Milanese artist theorist Giovanni Paolo Lomazzo 1538-92 and his influence on the circle of the Accademia della Val di Blenio and beyond Following reflections on Lomazzo s fortuna critica the accompanying essays examine his admiration of Gaudenzio Ferrari Lomazzo s painted oeuvre his influence on printmaking with Giovanni Ambrogio Brambilla on drawing and painting with Aurelio Luini on the decorative arts and the embroideress Caterina Cantoni his pupils Giovanni Ambrogio Figino and Girolamo Ciocca grotesque sculpture outside Milan and Lomazzo in England with Richard Haydocke s translation of the Trattato In doing so this book takes an innovative approach one which aims to bridge the scholarship hitherto disjointed between Lomazzo the artist and Lomazzo the theorist while expanding our knowledge of a protagonist of Renaissance and early modern art theory Contributors Alessia Alberti Federico Cavalieri Jean Julia Chai Roberto Paolo Ciardi Alexander Marr Silvia Mausoli Mauro Pavesi Rossana Sacchi Paolo Sanvito and Lucia Tantardini *Performing Blackness on English Stages, 1500-1800* Virginia Mason Vaughan, 2005-05-12 An unusual study of the tradition of blackface in stage performance

figures as Elizabeth I Mary Queen of Scots and Bess of Hardwick as well as the output of journeywomen needleworkers and miniaturists Levina Teerlinc and Esther Inglis and their lesser known sisters in the English colonies of the New World Frye shows how traditional women's work was a way for women to communicate with one another and to shape their own identities within familial intellectual religious and historical traditions Pens and Needles offers insights into women's lives and into such literary texts as Shakespeare's Othello and Cymbeline and Mary Sidney Wroth's Urania *Text, Food and the Early Modern Reader* Jason Scott-Warren, Andrew Elder Zurcher, 2018-08-14 In early modern culture eating and reading were entangled acts Our dead metaphors swallowed stories overcooked narratives digested information are all that now remains of a rich interplay between text and food in which every element of dining from preparation to purgation had its equivalent in the literary sphere Following the advice of the poet George Herbert this essay collection looks to the mouth unfolding the charged relationship between ingestion and expression in a wide variety of texts and contexts With contributions from leading scholars in the field *Text Food and the Early Modern Reader* Eating Words fills a significant gap in our understanding of early modern cultural history Situated at the lively intersection between literary historical and bibliographical studies it opens new lines of dialogue between the study of material textuality and the history of the body **Shakespeare's Visual Theatre** Frederick Kiefer, 2003-09-25 In this study of Shakespeare's visual culture Frederick Kiefer looks at the personified characters created by Shakespeare in his plays his walking talking abstractions These include Rumour in 2 Henry IV Time in The Winter's Tale Spring and Winter in Love's Labour's Lost Revenge in Titus Andronicus and the deities in the late plays All these personae take physical form on the stage the actors performing the roles wear distinctive attire and carry appropriate props The book seeks to reconstruct the appearance of Shakespeare's personified characters to explain the symbolism of their costumes and props and to assess the significance of these symbolic characters for the plays in which they appear To accomplish this reconstruction Kiefer brings together a wealth of visual and literary evidence including engravings woodcuts paintings drawings tapestries emblems civic pageants masques poetry and plays The book contains over forty illustrations of personified characters in Shakespeare's time [The Improbability of Othello](#) Joel B. Altman, 2024-05-31 Shakespeare's dramatis personae exist in a world of supposition struggling to connect knowledge that cannot be had judgments that must be made and actions that need to be taken For them probability what they and others might be persuaded to believe governs human affairs not certainty Yet negotiating the space of probability is fraught with difficulty Here Joel B Altman explores the problematics of probability and the psychology of persuasion in Renaissance rhetoric and Shakespeare's theater Focusing on the Tragedy of Othello Altman investigates Shakespeare's representation of the self as a specific realization of tensions pervading the rhetorical culture in which he was educated and practiced his craft In Altman's account Shakespeare also restrains and energizes his audiences probabilizing capacities alternately playing the skeptical critic and dramaturgic trickster A monumental work of scholarship by one of America's most respected scholars of Renaissance literature The
