Realism, Form, and Representation in the Edwardian Novel Charlotte Jones, 2021-01-07 The real represents to my perception the things that we cannot possibly not know sooner or later in one way or another wrote Henry James in 1907 This description riven with double negatives hesitation and uncertainty encapsulates the epistemological difficulties of realism for underlying its narrative and descriptive apparatus as an aesthetic mode lies a philosophical quandary What grounds the real of the realist novel What kind of perception is required to validate the experience of reality How does the realist novel represent the difficulty of knowing What comes to the fore in James's account as in so many is how the forms of realism are constituted by a relation to unknowing absence and ineffability Realism Form and Representation in the Edwardian Novel recovers a neglected literary history centred on the intricate relationship between fictional representation and philosophical commitment It asks how or if we can conceptualize realist novels when the objects of their representational intentions are realities that might exist beyond what is empirically verifiable by sense data or analytically verifiable by logic and are thus irreducible to conceptual schemes or linguistic practices a formulation Charlotte Jones refers to as synthetic realism In new readings of Edwardian novels including Conrad's Nostromo and The Secret Agent Wells's Tono Bungay and Ford's The Good Soldier this volume revises and reconsiders key elements of realist novel theory metaphor and metonymy character interiority the insignificant detail omniscient narration and free indirect discourse causal linearity to uncover the representational strategies by which realist writers grapple with the recalcitrance of reality as a referential anchor and seek to give form to the force opacity and uncertain scope of realities that may lie beyond the material In restoring a metaphysical dimension to the realist novel's imaginary Realism Form and Representation in the Edwardian Novel offers a new conceptualization of realism both within early twentieth century literary culture and as a transhistorical mode of representation

Caesar and the Fading of the Roman World Peter

Baehr,2017-11-30 For many centuries Julius Caesar was a name that evoked strong feelings among educated people Some of these responses were complimentary but others came from the point of view of political republicanism which envisaged Caesar as a historical symbol for some of the most dangerous tendencies a polity could experience Caesar represented everything that republicans detested corruption demagoguery usurpation and as such provided an antimodel against which genuine political virtue could be measured Caesar and the Fading of the Roman World examines the reception of Caesar in republican thought until the late eighteenth century and his transformation in the nineteenth when he enjoyed a major rehabilitation in the literary culture and historiography of the day Critical of hereditary monarchy and emphasizing the collective political obligations citizens owed to their city or commonwealth republican thinkers sought to cultivate institutions and mores best adapted to self governing liberty The republican idiom became an integral element in the discourse of the American revolutionaries and constitution builders during the eighteenth century and of their counterparts in France In the nineteenth century Caesar enjoyed a major rehabilitation from being a pariah he was elevated in the writings of people like Byron De Quincey Mommsen Froude and Nietzsche to the greatest statesman of his age Simultaneously Caesar's name continued to function as a term of polemic in the emergence of a new debate on what came to be called Caesarism While the metamorphosis of Caesar's reputation is studied here as a process in its own right it is also meant to highlight the increasing enfeeblement of the republican tradition The transformation of Caesar's image is a sure sign of changes within the wider present day political culture and evidence of the emergence of new problems and challenges Drawing on history political theory and sociology Caesar and the Fading of the Roman World uses the image of Caesar as a way of interpreting broader political and cultural tendencies Peter Baehr discusses the significance of living not in a postmodern society but in a postclassical one in which ideas of political obligation have become increasingly emaciated and in which the theoretical resources for the care of our public world have become correspondingly scarce This volume is an important study that will be of value to sociologists political theorists and historians **Under Postcolonial Eyes** Gail Fincham,Myrtle Hooper,1996
