Painting In Italy 1500 16:

Painting in Italy, 1500-1600 Sydney Joseph Freedberg, 1993-01-01 Art declared Vasari in Lives of the Artists has been reborn and reached perfection in our time Indeed the roster of great names in painting of the Cinquecento which only begins with those of Leonardo Michelangelo and Raphael appears to justify this grand claim Professor Freedberg here discusses the individual painters and analyses the hallmarks of their work He traces the classical style of the High Renaissance the Mannerism that succeeded it and the events in North Italy especially that resist stylistic categories He has given order to this diversity but at the same time has preserved the intense individuality of the works of art Painting in Italy Sydney J.

This collection of essays examines the vogue for games and game playing as expressed in art and literature in sixteenth and seventeenth century Europe Focusing on games as a leitmotif of creative expression these scholarly inquiries are framed as a response to two main questions how were games used to convey special meanings in art and literature and how did games speak to greater issues in European society In chapters dealing with chess playing cards board games dice gambling and outdoor and sportive games essayists show how games were used by artists writers game makers and collectors in the service of love and war didactic and moralistic instruction commercial enterprise politics and diplomacy and assertions of civic and personal identity Offering innovative iconographical and literary interpretations their analyses reveal how games played written about illustrated and collected functioned as metaphors for a host of broader cultural issues related to gender
