**Radical Christian Writings** Andrew Bradstock, Christopher Rowland, 2008-04-15 This volume which fills a gap in the current literature will be essential reading for third year undergraduates and above in Biblical studies Restoring the First-century Church in the Twenty-first Century Warren Lewis, Hans Rollmann, 2005-10-15 Restoring the First century Church in the Twenty first Century Essays on the Stone Campbell Restoration Movement in Honor of Don Haymes is a snapshot of a major American religious movement just after the turn of the millennium When the Disciples of Alexander Campbell and the Christians of Barton Warren Stone joined forces early in the 19th century the first indigenous ecumenical movement in the United States came into being Two hundred years later this American experiment in biblical primitivism has resulted in three possibly four large segments Best known is the Christian Church Disciples of Christ active wherever ecumenical Christians gather The denomination is typically theologically open having been reshaped by theological Liberalism and the Social Gospel in the twentieth century and has been re organized on the model of other Protestant bodies The largest group the Churches of Christ easily distinguished by their insistence on a cappella music singing only is theologically conservative now tending towards the evangelical and congregationally autonomous though with a denominational sense of brotherhood The Christian Churches Churches of Christ Independent are a via media between the two other bodies theologically conservative and evangelical congregationally autonomous pastorally oriented and comfortable with instrumental music The fourth numerically significant group the churches of Christ Anti Institutional is a conservative reaction to the a cappella churches much in the way that the Southern a capella churches reacted against the emerging intellectual culture and social location instrumental music and institutional centrism of the Northern Disciples following the Civil War Besides these four numerous smaller fragments typically one article splinter groups decorate the history of the Restoration Movement One Cup brethren Premillennialists No Sunday School congregations No Located Preacher churches and others This movement to unite Christians on the basis of faith and immersion in Jesus Christ and to restore New Testament Christianity is too little recognized on the American religious landscape and it has been too little studied by the academic community This volume is focused primarily on the a cappella churches and their interests but implications for the entire Stone Campbell Restoration Movement abound The voices that speak freely within were unimpeded in authoring these essays by standards of orthodoxy imposed from without All of the contributors are acquainted with Don Haymes the honoree of the volume and have been inspired by this friend and colleague a man with a rigorous and earthy intellect and a heavenly spirit David Bundy series editor Studies in the History and Culture of World Christianities Public Theology for the 21st Century Duncan B. Forrester, William Storrar, Andrew Morton, 2004-01-01 The book is a unique stocktaking by a leading international group of theologians social scientists and other scholars on issues facing public theology at the beginning of the 21st century It combines retrospect and prospect in that it reflects on the issues and approaches that have characterized public theology in

the 20th century especially its latter half and attempts to anticipate those which will or should come to the fore in the 21st century seeking to discern continuities and changes Three opening chapters deal with the overall theme of public or political theology with Jurgen Moltmann giving a critical historical account from the Second World War onwards Raymond Plant relating such theology to cultural pluralism and Andrew Morton illustrating it from the work of Duncan Forrester These are followed by pairs of contributions relating public theology to more specific topicsr History Technology and Creation Globalization Spirituality Punishment and Forgiveness Medical Ethics Tolerance and Human Rights Social Exclusion and Equality     Theological Reflection: Methods, 2nd Edition Elaine Graham,Heather Walton ,Frances Ward ,2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies     **Cultures of Eschatology** Veronika Wieser,Vincent Eltschinger,Johann Heiss,2020-07-20 In all religions in the medieval West as in the East ideas about the past the present and the future were shaped by expectations related to the End The volumes Cultures of Eschatology explore the many ways apocalyptic thought and visions of the end intersected with the development of pre modern religio political communities with social changes and with the emergence of new intellectual and literary traditions The two volumes present a wide variety of case studies from the early Christian communities of Antiquity through the times of the Islamic invasion and the Crusades and up to modern receptions from the Latin West to the Byzantine Empire from South Yemen to the Hidden Lands of Tibetan Buddhism Examining apocalypticism messianism and eschatology in medieval Christian Islamic Hindu and Buddhist communities the contributions paint a multi faceted picture of End Time scenarios and provide their readers with a broad array of source material from different historical contexts The first volume Empires and Scriptural Authorities examines the formation of literary and visual apocalyptic traditions and the role they played as vehicles for defining a community s religious and political enemies The second volume Time Death and Afterlife focuses on key topics of eschatology death judgment afterlife and the perception of time and its end It also analyses modern readings and interpretations of eschatological concepts     *Wiley Blackwell Companion to Political Theology* William T. scholars in the field it reflects a broad range of methodologies ecclesial traditions and geographic and social locations and provides a sense of the diversity of political theologies It also addresses the primary resources of the Christian tradition which theologians draw on when constructing political theologies and surveys some of the most important figures and movements in political theology This revised and expanded edition provides the most comprehensive and accessible introduction to this lively and growing area of Christian theology Organized into five sections Wiley Blackwell Companion to Political Theology Second Edition addresses the many changes that have occurred over the last 15 years within the field of political theology It features new essays that address social developments and movements such as Anglican Social Thought John Milbank Anabaptist Political Theologies African Political Theologies Postcolonialism Political Economy Technology and Virtuality and Grass roots Movements The book also includes a new essay on the reception of Liberation Theology Offers essays on topics such as the Trinity atonement and eschatology Features contributions from leading voices in the field of political theology Includes all new entries covering fresh developments and movements like the urgency of climate change virtuality and the digital age the economic crisis of 2008 the discourse of religion and violence and new modalities of war Addresses some important social movements from a theological point of view including postmodernism grass roots movements and more Provides both Islamic and Jewish responses to political theology Written for academics and students of political theology Wiley Blackwell Companion to Political Theology 2nd Edition is an enlightening read that offers a wide range of authoritative essays from some of the most notable scholars in the field      Reading Texts, Seeking Wisdom David F. Ford, Graham Stanton, 2004 Eighteen leading scripture scholars and theologians engage with key issues and texts to do with scripture and theology They look at how the Bible and theology have come together in the past in Judaism the early Church the Middle Ages early modernity and the 20th century How is current biblical scholarship to be related to past insights and modern methods Contributors debate how wisdom is to be related to faith and to reason      *Voices from the Borderland* Chris Shannahan, 2016-04-01 Urban theology affirms the importance of context notably the place of the city in theological reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the fluidity of contemporary urban societies Voices from the Borderland presents an overview of urban theology arguing that the twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of the multicultural and multi faith British urban experience and situates these within the wider international context The works of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban liberation theology urban black theology reformist urban theology globalisation urban theology and post religious urban theology      *A Theology of International Development* Thia Cooper, 2020-02-05 Religion and development have been intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how

their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students

Post-Colonial Theology

Robert S. Heaney, 2019-05-08 Hate is unveiled on our streets Politics is polarized and the cohesion of communities is under stress and threat Religious and theological leaders appear compromised or paralyzed Robert S Heaney grew up in a Northern Ireland where enmity paraded itself and policed the boundaries between segregated identities and aspirations Such conflict with deep historic roots is inextricably linked to religion and colonization The theologizing of colonialism and the ongoing implications of colonialism cannot be ignored by those who wish to understand the most intractable of human conflicts Religious adherents and scholars are increasingly seeking to understand colonialism and decolonization in theological terms The field of post colonial studies

across a range of contexts and in a complex network of inter disciplinary analyses has emerged as a major scholarly movement seeking to provide resources for such a task Theologians have increasingly seen the field as a resource and have made their own contributions to its development However depending as it does on a series of theoretical and technical commitments post colonialism remains inaccessible to the uninitiated Beginning with his own particular context of formation in this book Heaney provides an accessible introduction to post colonial theology Faith-based Radicalism Christiane Timmerman, 2007 Terror attacks against Western symbols of power suicide terrorism in Chechnya or bombing of abortion clinics in the United States these are a few of the violent religious outbursts that the media never seem to stop broadcasting While these outbursts are mostly linked to Islamic extremism it should however be acknowledged that every religion has its own violent side Despite all the events the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it while at some other times they willingly help and try to build a better world for everyone The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars all experts in their own fields and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts the ambivalence of faith based radicalism the psychology of religion and terrorism nationalism and religion and religious social movements Publisher **The Nature of New Testament Theology** Christopher Rowland, Christopher Tuckett, 2008-04-15 This volume brings together some of the most distinguished writers in the field of New Testament studies to provide an overview of discussions about the nature of New Testament theology Examines the development purpose and scope of New Testament theology Looks at the relationship of New Testament theology with other branches of theology Considers crucial issues within the New Testament such as the historical Jesus the theology of the cross eschatology ethics and the role of women Offers fresh perspectives which take discussion of the subject further in key areas Includes a foreword by Rowan Williams Access to History: Luther and the Reformation in Europe 1500-64 Fourth Edition Russel Tarr, Keith Randell, 2015-07-10 Exam Board AQA Edexcel OCR WJEC Level A level Subject History First Teaching September 2015 First Exam June 2016 Give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility Access to History is the most popular trusted and wide ranging series for A level History students This title Supports the content and assessment requirements of the 2015 A level History specifications Contains authoritative and engaging content Includes thought provoking key debates that examine the opposing views and approaches of historians Provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including AQA The Reformation in Europe c1500

**Public Life and the Place of the Church** Michael Brierley, 2017-11-28 The work of Richard Harries Bishop of Oxford from 1987 to 2006 has been highly distinctive for the consistency of its engagement with contemporary society It represents a model of the Church which is outward looking a Church which is as ready to learn from others as it is to offer its own wisdom and resources This book reflects on Richard Harries ministry in the borderlands of society and Church and engages deeply with the nature of modern society and the place of the Church within it Taking Richard Harries contributions as their inspiration key figures each of them major commentators on areas of pressing contemporary concern probe the important questions which people are asking about a range of social issues Arms and violence the role of the media in public life spirituality multifaith Britain sex capitalism the second chamber and medical ethics are all discussed building up a serious debate on the kind of society in which we live and making suggestive comments about the part which the Church might play Contributors Sabina Alkire Michael Bourke Melvyn Bragg John Drury Claire Foster Jonathan Gorsky Anthony Howard Douglas Hurd Eric James Julia Neuberger Edmund Newell Christopher Rowland Jane Shaw Margaret Shepherd Roger Wagner Keith Ward Rowan Williams Shirley Williams and James Woodward

**Orthodoxy and Anarchism** Davor Džalto, 2024-03-26 This book brings together essays by contemporary Orthodox theologians and scholars on Orthodox Christianity that analyze various aspects of the complex relationship between anarchism both as a concept and as a political philosophy and Orthodoxy As many studies have already shown the dominant theological approaches in Orthodox political theology have been characterized by the search for some kind of symphonia where a harmonious and mutually beneficial cooperation between the Church and the State has been sought Although one can see many alternative attempts in contemporary Orthodox political theology to move away from traditional monarchical and autocratic symphonic models the fact remains that most of those approaches still tend to provide theological articulations that rationalize and ultimately defend the dominant ideological systems such as those of the nation state or liberal democracy for instance There has been however another marginal and marginalized tradition in Orthodox Christian political theology which can be labelled as anarchist The purpose of this volume is to gather contemporary voices in and on Orthodox theology that explore this tradition in the history of Orthodox Christianity or that themselves employ an anarchist approach to the socio political sphere including the Church in its institutional functioning

The Blackwell Companion to Political Theology Peter Manley Scott, William T. Cavanaugh, 2008-04-15 Written by a team of international experts drawn from various traditions of political theology this outstanding resource brings together 35 newly commissioned essays in the field Demonstrates that Christian theology is inherently political and shows how theology impacts on present day political issues Considers the interface of theology with political ideologies including the contribution of theology to feminist ecological black and pacifist movements Assesses the contribution of the major political theologians and theological movements Explores the political aspects of

Christian sources such as scripture and liturgy      *That Holy Anarchist* Mark Van Steenwyk,Ched Myers,2012-06-25 In *That Holy Anarchist* Mark Van Steenwyk explores the relationship between Christianity and anarchism The name of Jesus is invoked by those in power as well as those resisting that power What were the politics of Jesus and how can they continue to inform us as we struggle for justice      **God or Mammon** David W. Smith,2025-06-30 The rise of neo liberalism and globalization has hardened the capitalist worldview in such a way that it has taken on an idolatrous nature for Christianity in the West At this crucial point in time David Smith prophetically confronts this issue and invites Christians to re examine their allegiances Using Jesus s warning that the worship of God and Mammon are incompatible as a lens Smith traces the tension of this decision from the Mosaic revolution through the history of biblical Israel and into the New Testament He provides a historical survey of movements in Christianity that emerged in the constant struggle to counter the imperial church s conformity to a materialistic culture Finally he examines the modern world s shift toward an economistic culture which has abandoned social values and needs Christianity which has become a global movement with its heartlands across the southern hemisphere now faces the challenge and opportunity of a world in deepening crisis In this timely and important book Smith encourages us all to join in the quest for an alternative society that is shaped by kingdom values      *The Oxford History of Protestant Dissenting Traditions, Volume V* Mark P. Hutchinson,Mark Hutchinson,2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places
