Weishampel, 2021-07 Fully updated and beautifully illustrated this leading textbook teaches science and non science majors to think like a scientist *Creationism USA* Adam Laats, 2020-09-24 Who are America s creationists What do they want Do they truly believe Jesus rode around on dinosaurs as sometimes depicted Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution not about the actual science behind it and not in ways that truly matter to public policy Laats asserts that Americans do however have significant disagreements about creationism By describing the history of creationism and its many variations Laats demonstrates that the real conflict about evolution is not between creationists and evolution The true landscape of American creationism is far more complicated than headlines suggest Creationism USA digs beyond those headlines to prove two fundamental facts about American creationism First almost all Americans can be classified as creationists of one type or another Second nearly all Americans including self identified creationists want their children to learn mainstream evolutionary science Taken together these truths about American creationism point to a large and productive middle ground a widely shared public vision of the proper relationship between schools science and religion Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them *Marxism Against Postmodernism in Educational Theory* Mike Cole, Dave Hill, Peter McLaren, 2002-12-11 Postmodernism has become the orthodoxy in educational theory It heralds the end of grand theories like Marxism and liberalism scorning any notion of a united feminist challenge to patriarchy of united anti racist struggle and of united working class movements against capitalist exploitation and oppression For postmodernists the world is fragmented history is ended and all struggles are local and particularistic Written by internationally renowned British and American educational theorists Marxism Against Postmodernism in Educational Theory a substantially revised edition of the original 1999 work Postmodernism in Educational Theory critically examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research The writers argue that postmodernism provides neither a viable educational politics nor the foundation for effective radical educational practice and offer an alternative politics of human resistance which puts the challenge to capitalism firmly on the agenda of educational theory politics and practice
